ALIENS IN THE COURTS.

Parliament Likely to Enact Legislation at Coming Session.

Ottawa, Feb. 6.—The status in Canadian courts of alien enemies resident in the Dominion may be the subject of legislation at the approaching session of Parliament.

Since the outbreak of the war special judicial decisions have been rendered with regard to the rights of alien enemies resident in Canada. In a number of cases the defence has been set up that being alien enemies in Canada they are incapacitated from enforcing any rights in Canadian courts.

But Justice Hodgins, of Toronto, and other judges have ruled that all persons in Canada of German or Austro-Hungarian nationality should be allowed to enjoy the protection of the law, so long as they quietly pursue their ordinary avocations and do not engage in espionage or acts of a hostile nature. The question of the rights of an alien enemy has not, except in a few isolated cases, been dealt with in the courts since Napoleonic and Crimean days, so that the need of Parliamentary action to definitely settle the matter is believed in official circles to be pressing.

BAKER SHOPS IN BERLIN GUARDED BY EXTRA POLICE

Amsterdam, Feb. 6.—The Berliner Tageblatt, in an issue which has reached here, declares that the Council of Greater Berlin has appointed 12,000 special constables to guard the baker shops of the city against any irregularities on the part of the public.

The Courant learns that the German war grain company, the purpose of which is to acquire all the available grain in Germany and store it until next May, has seized over three million tons of grain. The paper says that none of this foodstuff would be at the disposal of the public before next summer.

MONETARY TIMES DISCUSSES MORATORIUM

"What has been the effect of the moratorium in Manitoba? That question is being asked by investors and by the heads of companies placing large investments in the province. From inquiries made by The Monetary Times, many hold the opinion that the moratorium has not protected anybody except the speculator. As conditions for him are steadily growing worse, he will probably wish some day, as one observer says, that he had taken his medicine early in the course of the disease and had perhaps by this time recovered from its effect." One of the worst features of this moratorium legislation is that it is preventing the reconstruction of titles. The sooner speculative properties fall into the hands of strong men the better. Bolstering up weak and speculative holders and postponing the day when necessary action will be taken to dispossess them, will only aggravate the evil and put off the restoration of normal conditions. As to the farmer and workingman getting protection against the rapacity of the mortgage companies, it is, of course, pretty well understood that such talk was simply a little play to the gallery when the law was introduced. The farming community is taking but little notice of the moratorium. Loan companies are collecting their interest and renewing their loans to the farmers without any mention of legislation, while the speculators are taking advantage of the act to have their agreements carried at 6 per cent in place of getting the money elsewhere or renewing the amount at the current rate of 8 per cent."

MINING PROPERTY REVERTS TO OWNER

L. C. Knauss, who arrived from Victoria yesterday, left today for the Interior to look after some mining interests he holds at Hazelton Creek.

This property was sold under bond to a Spokane firm, which had a force of men at work on it since last July. Notwithstanding the fact that the property is looking up excellently the developing firm was not able to meet the second payment of \$7,500 which is now due and Mr. Knauss has been compelled to take back the property. He proceeds to Hazelton today, where he will make arrangements to look after the property.

The Spokane firm did a large amount of work on the property. A trail was built from the river costing about \$4,000 and a tunnel was driven in the rock about 190 feet besides a large amount of stripping and clearing. Harry Howson has been in charge of the work.

The values in this property consist of gold, silver and lead and run as high as \$90 in gold alone. Mr. Krauss expects to start development in the spring.

ADDS JITTERS TO STREET CAR LINES

Olympia, Washington, Company Meets the Motor Bus Competition.

Olympia, Wash., Feb. 6.—Manager L. B. Faulkner, of the Olympia Light and Power Company, which operates the street car system in Olympia, announced that in the near future his company will operate an auto service as an extension of the street car line, to cover the territory between Central Street, the present end of the street car line, east to Lacey, a distance of three and one-half miles.

The jitney has invaded this city and has been running as far east as the Boulevard Road, which competition the Olympia Light and Power Company will meet by giving a transfer from its lines to the bus running to the Boulevard, and for additional fares will carry passengers to way points as far as Lacey, which includes a service to the Olympia Golf and Country Club.

This is said to be the first time a street car company in the state has decided to operate motor busses on a regular schedule as a part of its system and give transfers to passengers. The exact date the new service starts is not announced, but it is declared that if it is a success a line will also run to Priest Point Park.

MAJOR GENERAL HUGHES BRINGS BACK BOOTS

(Special to The Daily News.)

Ottawa, Feb. 6.—Major General Sam Hughes, who has returned from an extended tour of the west, spoke in terms of highest praise of the western volunteers he inspected during his absence. The physique and spirits of the men he described as admirable.

Owing to the inclement weather he said Western troops had not had much opportunity to maneuver, but otherwise their training had been all that could be desired.

The minister brought back with him a number of pairs of boots secured in the West. Some were good and others bad. He intimated that the report made by the Board of Inquiry would be taken up at once with a view to prompt action. During the morning the minister conferred with Sir Robert Borden as well as the legal advisers of the department, presumably in regard to the boot matter.

This force, the dispatch adds, is ready to pour into Serbia, but is prevented from moving by the floods.

SOUTH AMERICAN INVESTMENTS ARE NOT PROTECTED

Washington, Feb. 6.—Samuel McRoberts, vice president of the National City Bank, addressing the third annual convention of the Chamber of Commerce of the United States, urged greater security for our investments abroad.

"In the Orient, in the Caribbean, in the northern part of South America, in Mexico," he said, "we have the opportunity to do great constructive work and by so doing gain a place of our own in the future commerce of those lands. Uncertainty of protection stands squarely in the way. If you want to do anything in these countries, the standing advice is 'Get under the British, French or German flag.'"
