#### ARTILLERY ACTIVE ALONG THE WHOLE WESTERN FRONT

**AEROPLANES DRIVEN OFF FROM VERDUN—TWO GERMAN MINES BLOWN UP AT ARRAS—AUSTRIANS ARE DRIVEN BACK AT DUKLA PASS.**

(Special to The Daily News.)  
Paris, Feb. 13.—There is a violent bombardment going on from sea to Lys, around Nieuport the country of the dunes. Our artillery has replied effectively. Artillery is active on both sides between the Oise and the Meuse.  
German aeroplanes which dropped bombs on Verdun were driven off without damage done.  
At Arras, we blew up two mines, and captured the enemy's outposts.  
**Austrians Hard Pressed.**  
Strograd, Feb. 13.—In violent fighting in the Dukla

Pass, the Austrians lost 8,300 killed, and 1,000 were taken prisoners. The enemy was driven back to Seabor, where the conflict continues in the snow. The fighting has been resumed on the Donaja River and the Russians have advanced to Krosionko.  
**More Shipping Losses.**  
Havre, France, Feb. 13.—Shipping circles believe that the British steamer Oriole, which has been missing since January 30, has been sunk in the Channel by a submarine. A London trader was sunk on the same day, four survivors landing here today.

**THE FINAL SCENE IN FALKLAND ISLANDS VICTORY.**  
This photo was made from the crow's nest of H. M. S. Invincible. The captain of the German flagship refused to surrender. The rescue boats are seen setting out from the big British dreadnought inflexible to pick up the survivors, who are seen swimming in the sea. The victors saved 160 lives.

war. From the sinking of the Emden to this latest masterly piece of work everything seems to have been carried out in most businesslike fashion, and at little cost in lives on either side.

#### INTERESTING PAPER AT DEBATING SOCIETY

A most interesting paper on "The Influence of Music on Character" was given by Mr. E. V. Ling at the Young Men's Progressive Debating Society on Thursday evening last. The salient feature of the address was a plea for more effort towards musical culture in both instrumental and song; the mere listening to good music was described as ephemeral, whereas, the most feeble effort, even though it be upon a mouth organ, really had more character building value in it.  
Mr. Ling's paper was freely commented upon by the members but the matter having been treated broadly and upon general principles as affecting the masses, the gathering finally agreed to the views set forth by the opener of the discussion.

(H. P. R. Private Wire.)

Graham White, the aviator, fell into the sea, but was rescued.

#### ANOTHER VICTIM TO GERMAN METHODS

Scarboro, Feb. 13.—The new cargo steamer Torquay, of Dartmouth, has been towed into Scarboro in a sinking condition. This was due to her either striking a mine or being torpedoed.

#### AN INTERESTING LEGAL POINT RAISED IN CALGARY

R. A. Collings, of Calgary, paid his taxes last fall with an accepted cheque for \$500 drawn on the Dominion Trust Company. The city treasurer took the cheque and issued a receipt to Mr. Collings. At that time the Dominion Trust was in good standing, and the cheque would have been cashed on presentation.

But in the rush at the city treasurer's office at that time, some time passed before the cheque was deposited. In the meantime the Dominion Trust Company had closed its doors, and the cheque could not be deposited.

City Treasurer Mercer sent the cheque back to Mr. Collings, and demanded his receipt and another remittance on the taxes. This Mr. Collings has not done. He maintains that the cheque was good at the time he drew it, and that the city should have collected the money.

It is a nice legal question whether or not an accepted cheque is the same as cash. It depends on the answer whether the city of Calgary is out \$500 or not.

#### FINDING OF WATERFRONT COMMITTEE OF BOARD OF TRADE

At the monthly meeting of the Board of Trade last night, the waterfront committee presented the following recommendations:

1. Applications be received by the Minister of Lands for the renting of waterfront government property, that it be put up to auction, the price quoted by applicant being the upset price, and that the successful bidder deposit with the government security for the carrying out of the conditions of the lease as to development, etc. It was pointed out that this was the only feasible way to keep this important question out of the hands of speculators.

2. That the government be asked to cancel any leases already in existence where the conditions made at the time of leasing have not been carried out.

3. That Block "B" be exchanged with the Grand Trunk Pacific Railway for a piece adjoining Block "K" on the north end extending to the center of Seal Cove. In as much as this addition to Block "K" would permit of the government furnishing industrial sites to all industries needing sites on the waterfront for some time to come.

4. That Block "D" be graded, and opened to applicants, and should sufficient applications be received that it have an inclined approach built to it.

5. That the northerly 100 feet of Block "K" be improved according to the plan submitted, or other suitable plans, and the space thus provided be rented to those industries engaged in dealing in fish or wishing to enter the business. The rentals from these industries, to provide funds for interest, depreciation, and sinking fund.

The committee strongly urges the importance of the waterfront lease questions in connection with the location of industries at Prince Rupert, and points out the detriment, the unsettled state of this question has been to the city of Prince Rupert.

Copies of the report are being sent to Colonel Thompson and the local member, Mr. Wm. Manson.

Members of the Ladies Aid, with the addition of friends, made a total of about forty guests, and all agreed that one of the best programmes ever arranged at this end of the town was given. Great willingness was displayed by all to contribute to the evening's enjoyment, so that without pause—except for the welcome refreshments—item succeeded item.

#### WAR OBNOXIOUS TO THE SOCIALISTS

Berlin, Feb. 13.—Speaking at the opening of the Prussian Diet, the President of the Chamber said the German troops had supported with unqualified bravery the winter campaign, protected the country against hostile encroachments and made progress.

The sacrifices, he added, were becoming heavier, and Germany still was a long way from securing her aims, but the greater the sacrifices the more fixed would be her determination to persevere until victory was secured.

Amsterdam, Feb. 13.—In submitting the budget to the Prussian Diet, August Lentze, the Minister of Finance, declared that economically Germany was able to cope with the war for a long time.

After Herr Lentze had spoken, Herr Hirsch, a Socialist deputy, created a scene by asserting that the Socialist party refused further to support the government, and demanded the termination of the war.

Dr. Karl Liebknecht, another Socialist, interrupted the speech of the Conservative member, Herr Heyderbrand, who was expatiating on the unity of the German people, declaring, "You have no right to speak in the name of the people."

This utterance caused a great commotion, and there were numerous cries of "shame," but quiet was soon restored.

The budget was sent to committee, due, to pay to the Bank of England treasury certificates amounting to \$500,000 which it had previously been assured would be taken care of when they became due. Through the exertions of Sir Fenning Williams, general
