CITY COUNCIL BRIEFS

The mayor and Alderman Morrissey are expected to return home this week. No announcement was made about the result of their trip.

The salary of Wm. Burket, an employee in the Fire Department, was raised from \$90 to \$100 per month. All the rest of the men are paid \$100 per month.

Bids were opened for supplying of 100 barrels of Portland cement. Only the Westholme Lumber Company put in a figure, which was \$3.45 per barrel. The last order cost \$3.25.

The city treasurer reported last night that the late dog catcher, Tom O'Brien, had sold more licenses than he had accounted for. The amount represented about \$191. It was decided to write the amount off the books.

W. R. Love has been appointed to succeed S. Massey, who joined the last contingent, as head of the Telephone Department, at a salary of \$135 per month. Chas. Force succeeds A. Hepburn at \$130 per month. Norman Short gets the former position on the fire brigade of W. K. Love at \$100 per month.

Wm. J. Goodwin, secretary of the Kitsumkalum Farmers' Institute, wrote the Council last night for information about the manner in which the city market was to be operated in the future. He suggested that if the city had no objections they would furnish a man. They would like to see the market open six days a week.

F. W. Hart put in a bid for the purchase of the city seow at \$30. This was rejected, and bids will be asked to have it repaired. Alderman Montgomery thought the city engineer's former report was prejudiced by the odor of the craft. The seow may be repaired for the city's use in laying an extra pipe line over Shawatlans Passage.

The acting mayor brought up the question of building another cottage at Shawatlans for the employees. There were three married men there, and only two cottages. The other lived in a cabin. It would cost about \$1,065 and the money was to be had in the hydro-electric fund. This was opposed until it was seen if money enough was to be had to complete the plant. It will be dealt with later.

There will be a splendid concert in the Westholme Theatre on St. Patrick's Day, March 17. 1f.

For a comfortable room, come to the St. Elmo Hotel, 836 Second Avenue, near Bighth Street. Newly opened. Steam heat and hot and cold water in every room. Free baths. Rates reasonable.

HOME NURSING CLASS. All ladies of the Home Nursing Class are advised that the examination will take place on Wednesday next, the 10th, in the new school on Borden Street, at 8 o'clock. Candidates are requested to bring their own pens. All other requisites will be provided. 55-58

WILL PETITION THE DOMINION GOVERNMENT TO PROVIDE FISH WHARF

The City Council last night received a report from the special committee appointed to deal with the fish situation. The report was as follows:

To the City Council of Prince Rupert, B. C.:

Report of special fish committee appointed by the City Council to investigate means and ways of obtaining a common public fish wharf in Prince Rupert harbor, which begs to recommend and report as follows:

1. That the city as soon as possible petition the Grand Trunk Pacific Railway Company for a free grant in fee simple of waterfront lot No. 6, adjoining the property of the Canadian Fish and Cold Storage Company, Limited, said property to be used for the construction thereon of a common public fish wharf.

2. That the city forthwith petition the Dominion government to construct and maintain a common public fish wharf on said Lot 6, or in case the city shall be unable to obtain said Lot 6 from the Grand Trunk Pacific Railway Company then on another suitable site to be hereafter chosen.

3. That the city promptly take up with the Canadian Fish and Cold Storage Company, Limited, the matter of cheap ice, bait and storage facilities, and ascertain the concessions which the said company would require from the city of Prince Rupert in return for an undertaking on the part of the said company for a period of one year or such further time as might be fixed upon to furnish to the citizens of Prince Rupert or any fisherman requiring the same, ice at \$3 per ton, and, further, the preparing, freezing, and storage of fish for the first month at 3 1-2 cents per pound, and for every month thereafter at 4-5 cents per pound; and, further, the preparing, freezing, and storing of bait at \$5 per ton for the first month and 1-20 cent per pound per month thereafter, and, further, to furnish bait at \$15 per ton to all fishermen fishing out of Prince Rupert.

Dated at Prince Rupert B. C., this 4th day of March, 1915. T. McCLYMONT. A. W. EDGE. T. MAITLAND.

Speaking to the report, Alderman McClymont said it was rumored that the Dominion government would consider favorably this move to build a fish wharf if the land was turned over to them.

Some of the aldermen counseled delay: "Wait till the mayor returns." Others said that the time was short and urged promptness. It was finally decided to adopt the report of the committee, and they were asked to continue their work.

LIBERAL CONVENTION.

The Liberals of Prince Rupert are losing no time in getting a candidate in the field. They have taken time by the forelock and a meeting is arranged for Thursday night in McIntyre Hall, when delegates will be chosen for a district convention, which meets the same evening after the other meeting. Quite a number from the outside districts are expected and proxies are already coming in from those who cannot attend.

HOSPITAL FINANCES BEFORE CITY COUNCIL

(Continued From Page One.) money would go to the right channels.

He contended that the doctors were not treating the hospital right. They cornered the men on every important undertaking in the city and got a contract so that each one paid them \$1 per month. Then they used the hospital as a convenience. He thought the hospital should get half that monthly fee, as well as the regular charge for attendance.

Alderman Maitland thought the city should take over the hospital and pass a bylaw whereby the doctors would be compelled to do this.

City Solicitor Peters said the present ticket system was a gold brick. A man might pay for seven or eight months but if he got sick he only got a month's treatment free. "I looked into this matter," said he. "I thought I might possibly get knocked up myself and I could make use of it but I found the contrary."

O. H. Nelson explained that in such cases two months were allowed. It was the same all over British Columbia. Mr. Nelson said that he was satisfied the board would be glad to turn the matter over to the Council. They were sick and tired of it. "A large number of men who came down the line, after going off on a 'jamboree,' come to the hospital to recuperate and never pay and you can't turn them out. Many maternity cases, too, come from dwellers in cabins; and what are you going to do about it? They must have attention; but many of them never pay."

It was finally decided to lay the matter over till a meeting could be arranged between the Hospital Board and the Council and perhaps the local directors. This will probably take place next week.
