PRICE FIVE CENTS

BELIEVED GENERAL ADVANCE HAS STARTED

BRILLIANT ATTACK OF BRITISH PREVENTS TURKS USING BEACHED SUBMARINE

A DARING BRITISH EXPLOIT--- BROKE BEACHED SUBMARINE

SUBMARINE IN PERFECT CONDITION WAS TO BE USED BY THE
TURKS—VOLUNTEER CREW DESTROYED IT
BY TORPEDOES.

(Special to The Daily News)
London, April 20.—A daring night attack by British picket boats manned by volunteers resulted in the torpedoing of the British submarine E-15, stranded on Kephaz Point. The submarine was in danger of falling into the enemy's hands in a serviceable condition. The volunteer boats were subjected to a heavy fire from the forts. One of them sank but the crew was rescued by the other. One man died of wounds. The Turks made great efforts to secure the submarine.

COST OF ELECTION.
The city clerk reported last night on the cost of holding the recent bye-elections. The cost was \$95.75, the latter part of which was paid by Alderman Beveridge, he paid the Journal was paid \$20 for advertising the first election and \$10 for the second. Meals for officials at the first election amounted to \$10.50 and at the second \$5. Ballots for the first election cost \$10, and for the second \$5.50. These were printed by the Premier Press. The returning officer, E. A. Woods, and his assistants got \$55 for the first and \$7 for the second, the returning officer getting \$25 for each election. A dozen pencils were bought for the first election at 25 cents each, apparently they were all used for the second. Alderman Beveridge didn't offer to pay the cost of the latter election.

BUILD BY CONTRACT.
The Shawatians cottage which has been used as a football for some time between the City Council and the Board of Works was taken back last night into the hands of the Council with a bang. The momentum indicated that the Board of Works couldn't agree to it by day's labor and at the same time guarantee to keep down the cost. There is already one estimate to build it at \$1,060. In the motion of Alderman Montgomery, seconded by Alderman Hol, the Board of Works asked the City Council to have it built by tender. This will be done.

LOCATE SUBMARINE.
(Special to The Daily News.)
Honolulu, April 20.—Divers went down 288 feet to examine the American submarine F-4. They found the top part caved in but otherwise slightly damaged. Lines are being placed to pull it to the surface.

NURSING BOTTLE.
Every Council night a list of the requirements of each department is read from the order books and sometimes the queerest things imaginable are read out. Last night there was an order for "one nipple." It was not said whether they were getting ready a nursing bottle for the new alderman or whether it was for the city engineer.

BRITISH MAKE IMPORTANT ADVANCE--- BREAK THROUGH GERMANS AT YPRES

VICTORY SAID TO BE GREATER THAN THAT OF NEUVE CHAPPELLE
---THIS MOVEMENT SAID TO PRESAGE GENERAL ADVANCE
OF THE ALLIES IN FLANDERS

VOTE FOR GOOD TIMES
The McBride government felt so certain of defeat that after announcing the date for their election they decided that it was more prudent to have it deferred until the "roads" were in better shape. Now it appears that the Borden government is going to try out their machine. After all the scandals that have been unearthed in connection with the purchase of war materials it is strange that they would take a chance with what appears to be certain defeat. When it is remembered that good times in Canada went out with Sir Wilfrid Laurier it is hard to see why he should not be given another chance to restore prosperity. The Borden government has certainly proven itself a hoodoo. Since 1911, when Borden came into power, the country has been going to the bad. Is there any man who doesn't want to see good times restored? The only way to get it is to vote Sir Wilfrid back to power.

ESCAPED BURGLAR MAY BE ARRESTED

(Special to The Daily News)
Vancouver, April 20.—Gaston Feinbach was arrested here as a vagrant and is suspected as the man who fired five shots at P. C. Newington. One of the burglars was hit by a policeman while running away and left a trail of blood on Hastings and Cambie Streets over a mile long. The officer, received a blow on the head but can identify the men. He had handcuffed one of them before he was knocked insensible.

WEDDING BELLS.
The marriage took place today of Mr. Henry Homan, of Red Cliff, Alta., and Miss Margaret Lynch. Mr. Homan formerly lived here and was in the employ of Frizzell's meat market. The couple will return to Red Cliff, where Mr. Homan has a ranch. The ceremony was performed by the Rev. W. W. Wright.

TURKS HAVE LOST TWO DESTROYERS

(Special to The Daily News)
Paris, April 20.—Two Turkish destroyers were blown up by a mine field laid by the Russians across the mouth of the Bosphorus while the Turkish fleet was cruising in the Black Sea. The destruction of the destroyers saved the Turkish cruisers.

BOSTON MARATHON.
(Special to The Daily News.)
Boston, Mass., April 20.—Edre, of Montreal, won the Boston Marathon in 2 hours and 34 minutes. The time was slow owing to the great heat. This is the fifth attempt of Fabre, who was second last year to Duffy, also a Canadian.

PROPOSE TO BUILD FISH DOCK-- CONTRACTORS TO TAKE BONDS

CAN BE BUILT FOR \$25,000 AND BONDS EXTENDED OVER TEN
YEARS—INFORMAL DISCUSSION BY COUNCIL
LAST NIGHT.

After the Council adjourned last night an informal discussion about Mr. J. Hobin's proposals for a fish wharf took place. The scheme is to secure a waterfront site from the G. T. P. on the protected waters of Seal Cove, and to build a 200-foot wharf with a shed in which shipping space could be rented to fish buyers and a spur of the G. T. P. connecting it with the main line as well as an approach for trains. The G. T. P. will lease for five years at 6 per cent on valuation and might possibly renew for another five years. The cost of the wharf and shed would be about \$25,000 and contractors can be had who would build it, taking 10-year debentures in payment. Arrangements could be made to

have a bonded warehouse on the dock so that fishing supplies that are cheaper in the States than in Canada could be held there for sale to American independent fishermen, making the local prices as cheap as Ketchikan. Kelly-Douglas & Co. have offered to put in a bonded warehouse if necessary. Mr. Harry Shearer, who was present, said he hadn't gone thoroughly into it, but it looked feasible to him, and along the right line. G. L. Clayton also said it was a good move but thought they also should have an ice plant in connection. Mr. Morley Donaldson when here thought the idea a good one and said his company would be glad to assist if it were not that financing was so difficult.

Alderman Montgomery wanted to know why it was that the G. T. P. couldn't give a free lease for this purpose or, indeed, a grant of the site if they were so anxious to help it along. Why charge this 6 per cent on the valuation?

The Mayor said that it was represented to him that the scheme had a weak side to it. The independent fishing boats would probably come to the dock for a time but sooner or later the people who bought their fish or sold them ice and bait would seduce them away and the city would have a white elephant.

It was shown, on the contrary, that the independent fisherman didn't want to associate himself with any one concern but wanted to be in a position to deal with all alike and thus get more competition. He could do the best at a city wharf.

Mr. Clayton pointed out that only 5 per cent of Seattle's business was done over the city's wharf. (Continued on Page Four.)

(Special to The Daily News.)
London, April 20.—The British have made another brilliant advance. This time they broke through the German lines at Ypres and carried everything before them for three miles. This movement is regarded as of exceeding importance and is said to be a greater victory than even that of Neuve Chapelle.

General Advance.
The feeling here is that this

SENATE AMENDED SOLDIERS VOTE BILL

(Special to The Daily News.)
Ottawa, April 20.—The bill to extend the franchise to the soldiers at the front was amended by the Senate. One amendment provides that before it comes into effect the consent of Lord Kitchener shall be obtained. The other amendment requires that there shall be six scrutineers, representing each party, when the votes are being taken. A motion to give the bill the six-months' hoist was defeated by 18 to 12.

CLAYTON SCHEME.

The proposals of Geo. L. Clayton to build a cold storage company in this city upon the city guaranteeing bonds for \$250,000 for three years at 6 per cent was reported upon last night by the city solicitor. He said that the Municipal Clauses Act forbade giving any assistance to a company which was to compete with one now do-

presages the general advance of the Allies in Flanders which has been looked forward to. The British troops are in excellent spirits and confident that they can overpower the Germans at all points.

The Germans appear to be very indignant on the alleged British use of asphyxiating gas in the attack. This gas has been already used by the Germans.

ARREST OF HUERTA ASKED BY CONSUL

San Diego, April 20.—Branding General Huerta, now in New York, "a murderer and modern Nero," R. A. Gonzales, Constitutionalist Mexican consul at San Diego, and 120 members of the Francisco I. Madero Club, a Constitutionalist organization, sent telegrams to President Wilson demanding the arrest of the ex-dictator, that he may be punished by the "future legitimate government of Mexico."

The telegrams ask that Huerta be arrested and turned over to the Mexican authorities or that he be deported.

ing business. As there was a cold storage plant here already this part of the act would apply. In any case, there could not be a bonus given without a bylaw was supported by the people. He suggested that the scheme was impracticable from the city's point of view. The report was adopted and filed.

SILENT REBUKE.

The British War Office has issued a silent rebuke to the Borden Government for allowing graft to creep into the purchase of war material, that should carry considerable weight with the people of Canada. In the early days of the war all contracts for the British Government were made through the Canadian Government. Since the awful disclosures of graft which the Liberals have unearthed the British War Office has decided to make all purchases direct. In other words they declare to the world that they would not trust the Borden Government with their business. If the British War Office wouldn't trust them why should you? Think it over.

MINNESOTA IN DANGER.

Tokio, April 20.—The position of the steamship Minnesota, which is fast on a rock at the entrance of the Inland sea is more serious than was at first supposed. It is expected, however, that if the weather is favorable the vessel can be floated in a fortnight. Dynamite may be used to destroy the ledge on which she is fast.

TAKE NOTICE

All workmen take notice that there is no work for unemployed at Granby Bay (Anyox). There are already 150 men waiting there to fill any vacancy which may occur.
