It begins to appear that almost every child in Germany is assigned its task in connection with the war. In every public school each pupil works and every teacher assembles and forwards what is produced. How many empires can one empire fight if every living being in it takes part, while in the others only the seventh sons of seventh sons go to war?

Here is Canada with a population of 8,000,000. In Germany, a province with that population would have put forward an army of 200,000 men at the outset of the war and would have been considered good for 800,000 soldiers in such a war as this. The strife has been under way eight months and today Canada has about 20,000 men on the Continent.

It is quite true that the first contingent was kept six months in England in the same way that Kitchener's army was kept there, and it is also true that the second contingent has been kept six months in Canada because the time had not come for the Great Advance, but all this will be changed now that spring has come, and there is no reason why Canadians cannot get as quickly to the front as Belgians, Frenchmen and Germans do.

The British Empire will not defeat the German Empire un-

less we all get down to the business of warring as the Germans are doing. That is not being done. People say that Toronto has done well as regards enlistment. And it is true. Toronto has supplied all the men she has been asked for, and has thousands more waiting. But if Toronto were a German city we would have had by now an army of 80,000 men in the field. That gives some idea of the way the Germans are going at it in their determination to rule the world by force.

Let us face the facts. If British recruiting sergeants came into Canada tomorrow looking for recruits as they are looking for them in the United Kingdom, from Land's End to John O'Groats House, there would be such recruiting in Canada as the Canadian government has not as yet touched the fringe of—Toronto Star.

GONE TO HUDSON BAY.

New Hazelton—Al Harris is now on his way to the Hudson Bay country in the interests of Martin Welch, of Vancouver. There has been a discovery of gold in the district around the bay and some fine looking free-milling quartz was taken into Vancouver. Al is to report on one or more properties and if the country looks good he may remain in that district all summer prospecting.—Omineca Herald.

NERLICH CASE WILL BE TRAVERSED NOW

Toronto, April 26—The application of Mr. I. F. Hellmuth, counsel for Mr. Emil Nerlich, that the charge of high treason against Mr. Nerlich be held over until the Court of Appeal has given a decision in the reserve case following the conviction for conspiracy, has been received by the Attorney General. Hon. I. B. Lucas stated today that he had considered the point, and had come to the conclusion that the Crown would not press the pending charge until the Court of Appeal has given their decision on the former charge.

"The matter will be allowed to rest entirely in the hands of the judge," stated Mr. Lucas. "If the judge sees fit to let the high treason hearing stand over, this department will not raise any serious objections."

As no date has yet been fixed by the Court of Appeal for the hearing of the stated case, this means that the Nerlich case will doubtless be traversed from the present session.
