GERMAN FLEET ATTACKS DUNKIRK AND ESCAPES WITHOUT INJURY

TWENTY CIVILIANS KILLED AND FORTY-FIVE INJURED BY
BOMBARDMENT—SAID TO BE BOLDEST RAID
OF THE WAR.

(Special to The Daily News.)
Paris, April 30.—The German fleet stole out again last night and made another raid. This time they attacked the coast of France. They bombarded the city of Dunkirk, nineteen shells being thrown

into the city, killing twenty civilians and wounding forty-five. The attack is said to have been one of the boldest of the war. After bombarding the city they left in the greatest hurry and apparently returned unhurt.

BRIGANDS LOOT AND KILL IN SMYRNA

Syracuse, Sicily, April 29.—Travelers arriving here from Asia Minor say the situation in Smyrna is terrible. They state that bands of Mussulman brigands are committing all kinds of outrages, pillaging, burning property, killing and taking hostages. Persons bringing this report say the Europeans in Smyrna urgently ask the assistance of the United States cruiser Tennessee, now in Eastern waters, or any other force or influence which America can exercise.

VANCOUVER MINISTERS MAKE ATTACK ON THE M'BRIDE GOVT.

ISSUED PAMPHLET CALLED THE CRISIS, IN WHICH THEY SET
FORTH CONDITIONS IN THE PROVINCE — WILL
AFFECT PUBLIC OPINION.

(Special to The Daily News.)
Vancouver, April 30.—A great sensation has been created here by the part taken by the local ministerial association in the attack on the McBride government. A pamphlet entitled The Crisis has been issued by that body showing in plain words the conditions that exist in this province under the present government.

Charges Graft.
Straight charges of graft are made against several of the ministers of the Crown as well as that of misfeasance of office. The fact that an independent body like the Ministerial Union has taken this stand lends a tone of seriousness to the charges and will have an important bearing on the opinion of the country.

GERMAN WIRELESS "STEPPED UP" OVERNIGHT

New York, April 30.—The big Telefunken wireless station at Sayville, Long Island, the plant through which the German government transmits most of its official communications to the United States, and through which the German embassy communicates with Berlin, has been quietly, almost overnight, so to speak, changed from a 35-kilowatt plant into one of 100 kilowatts. Three 500-foot towers are ready to be placed in position, and probably before the end of next week the new and more powerful apparatus will be working.

The transformation of the Sayville plant into one of the most powerful of the transatlantic communicating stations in this part of the world has been carried on so quietly that very few persons outside of the radio officials of the Department of Commerce and a few naval officials connected with the wireless naval service have known what was being done.

The new plant has not yet been licensed by the Department of Commerce, but there is no reason to doubt that the license will be granted as soon as the station is ready for operation.

NEW ATTACK ON YSER CANAL WAS REPULSED

(Special to The Daily News.)
London, April 30.—Yesterday the Germans made another attack on the Yser Canal, following a lull after the former fighting. In this, however, they utterly failed, the Allies having completely repulsed them.

Dead Unburied.
Paris, April 30.—Sixteen thousand unburied bodies lie on the battlefields between the coast and Ypres. Neither side will grant a truce to bury the bodies. Determined efforts are being made to prevent an epidemic of cholera.

(Special to The Daily News.)
London, April 30.—The German supply ship Macedonian, which escaped from Los Palamos recently, has been recaptured by the British Admiralty.
