A FINE PARAMOUNT FEATURE AT THE WESTHOLME TOMORROW

The finest Mary Pickford subject ever filmed is "Such a Little Queen," in five parts, which will be shown at The Westholme tomorrow and Thursday night. In this picture "Little Mary," as she is familiarly known to the picture fraternity, does some of her very best work and the part allotted to her is exactly suited to her particular style of acting. "Such a Little Queen" is really a comedy of the refined order, which means that while the story is serious and connected there is a continuous vein of humor and comedy running throughout and many of the situations are really exasperatingly funny.

On Friday and Saturday the twelfth episode of "The Adventures of Kathleen" will be shown, together with a fine comedy program, including a Keystone comedy. This is the last but one of the "Kathlyn" series.

CAN. EXPRESS CO. SUPT. LIKES PRINCE RUPERT

Mr. F. Norman, superintendent of the Canadian Express Company, with headquarters at Winnipeg, is at present in Prince Rupert, accompanied by Mrs. Norman. This is their third visit here and each time they have been greeted with fine weather so they are beginning to discount the rain talk of the knockers.

Mr. Norman is inspecting the local branch of the company here, and is well pleased with the progress made. Last month the business here exceeded that at Winnipeg and amounted to \$17,000 for the month.

He also reports that his company has fifty refrigerator cars under construction for use at this port. Four of them are completed and are on the way out. In the past they have been using the cars of the Great Northern and even now will require some of them, for it takes about a hundred cars to handle the fish trade out of here.

Mr. Norman is very well pleased with the development in the fish business here and thinks Prince Rupert is very lucky to have such a growing trade.

FREE MILLING GOLD.

J. D. Wells, of the Cordillera Mining Company of U.S., is at present in town and reports exceptional progress at the mine. The farther the tunnel goes in the better does the ore appear.

The free milling ore is looking up so well that Mr. Wells and his associate, Mr. Jennings, are thinking of putting in a stamp mill to reduce the quartz on the ground.

Mr. Wells tested a fifty-pound piece of quartz a few days ago by powdering it by hand and took about \$1.50 of gold out of it. Before breaking up the rock there was no sign of gold but the pieces taken out are very large in size, besides an amount of fine gold. A large amount of the quartz, of course, shows the gold clear to the naked eye.

SKIMMED MILK 5c per quart.
BUTTERMILK 10c per quart, two quarts for 15 c. Delivered to any part of the city—Prince Rupert Dairy—Phone Green 252 11.

ANOTHER MEETING OVER LITTLE COTTAGE

Tenders were opened last night for the construction of a cottage at the hydro-electric plant. They were as follows:

John Bergman	\$ 850.00
Geo. Scott	956.75
Mitchell & Currie	1,060.00
D. O. Keyser	1,020.00
John Currie	835.00
J. E. Blane	1,000.00
John S. Nelson	798.10
Walter Shaw	900.00

Alderman Montgomery objected to the contract being let at what he called ridiculously low figures. The estimate of the city engineer was \$1,200. He didn't believe they could buy the material for what they pretended to build it for.

Alderman Maitland was in favor of accepting the tender. He said the men were all oldtimers and well known.

A motion was put and passed that the city engineer find out if the contracts could be done for this and report to a special meeting of the City Council tomorrow night.

Alderman Casey said he would not be there. He was not a carpenter; and the men who put in the bids knew more about it than he. He was in favor of letting the contract to the lowest bidder.

It was also pointed out that the city would be establishing a bad precedent to refuse the contract. A deposit of 5 per cent of the contract was held by the city and the contractor should be held to it.

A special meeting, however, will deal with it.

TENDERS FOR PRINTING.

Tenders were opened last night for the printing of the city's annual report. The following prices were received:

Rauk Press—250,	\$425; 350,
\$498; 500,	\$540.
A. O. Franks—250,	\$425; 350,
\$498; 500,	\$540.
O. H. Nelson—250,	\$365; 350,
\$432; 500,	\$500.

A letter was read from McRae Bros., Ltd., who had been asked to put in a tender. They pointed out that they had printed the report in 1911 and that a copy of that report had been used annually as the standard required but in spite of that what they received was as different from what they demanded "as a white sheep is from a black."

The specifications in the present case were too loose to insure accurate figuring. They were willing, however, to do the job for the city at cost plus 20 per cent and would guarantee a first-class job.

The matter was referred to the Finance Committee.

THE WEATHER

(5 a. m., May 4, 1915.)

Barometer	30.162
Max. temp.	76.0
Min. temp.	48.0

LEAVE OF ABSENCE.

Alderman Beveridge, who expects to be away from the city for some time, asked last night for leave of absence. This was granted.

The Borealis, of the Atlin Fisheries Company, came in last night with 25,000 pounds of halibut. This is being loaded for the East today.

FISH WHARF.

The fisheries committee of the City Council reported last night in favor of accepting the proposals to build a city fish wharf at Seal Cove. In the meantime the government wharf could be utilized. Mr. Bowser had given his consent to this and prices had been secured from the manager, Mr. Beatty. Charges would be \$20 per month for space for buyers; 50 cents per ton for all amounts handled and \$1.50 per hour for the use of derrick and ice crusher.

WAS KNOWN HERE.

Private W. R. Dobson, who was killed at the front in an auto accident, and of whose funeral a picture was shown yesterday in The News, lived here for several months in 1913. He hailed from Southampton, Ont., and was well known to Jarvis McLeod, of the local customs, who also comes from that town.

Safety First—Use New Wellington Coal. Phone 116. 6711.

Nerve Energy and Eyeglasses.

A constant dropping wears away a stone. A slight eyestrain injures the health because it is constant. The strain which first manifests itself as a slight discomfort should be remedied at once. This we guarantee to do with glasses. Consultation free. Delays are dangerous.

Make Monday Ironing Day

LET Sunlight Soap do your washing Monday morning and you can do the light ironing Monday afternoon. The rub, rub, rub at the board has no place in the Sunlight way—so with the hardest part of washing cut out you'll feel like making it a good day's work by doing at least part of the ironing.

Follow the directions that cut your work in half and remember there's nothing in Sunlight to injure fine fabric or dainty hand. A \$5,000 guarantee backs this statement.
