In Daily Fear Of Death—Until
"Fruit-a-tives" Brought Relief.

CHATHAM, ONT., April 3rd. 1913.
"Some two years ago, I was a great sufferer from indigestion. One day my eye caught a billboard of 'Fruit-a-tives' and I said to myself 'if fruit-a-tives will build me up like that, it is good enough for me'. I bought some. After taking these wonderful tablets for only three weeks, I found myself wonderfully improved. In a short time longer, I cured myself entirely. My case was no light one, either, Gas would often form in my stomach and I was in daily fear that it would get around my heart and kill me. 'Fruit-a-tives' is the only remedy for indigestion".

WHEN you send subscriptions to magazines, or order goods out of town, or pay small accounts at a distance, do not place the actual cash in the envelope. PRICE OF C. N. R. STOCK AND THE GOVT. SECURITY

Had there not been a war and had we all foreseen that a drastic readjustment of Canadian conditions was inevitable, interest now would be awakening in the Canadian Northern Railway Company's common stock. Only the Canadian Northern people and perhaps the Dominion government and maybe a few trusted carriers of secrets know when the stock will be placed on the market. Holders of the company's income charge debenture stock may convert their holdings into common stock on and after January 1st, 1916. The dividend on this convertible stock would have been payable on May 2nd next under the terms of the issue, if a surplus of net earnings had remained after the fixed charges had been met. The surplus not being in evidence, this convertible stock will not carry a dividend this year. The option to convert the stock into ordinary shares of the company has been extended for three years, that is, until January 1st, 1922.

The common stock position of the Canadian Northern Railway is an interesting one. When the Dominion government last year guaranteed \$45,000,000 worth of Canadian Northern bonds, 330,000 fully paid shares of the par value of \$100 each of the capital stock were transferred to Canada's Minister of Finance in trust for the government, the parliamentary resolution adding "such shares shall be the absolute property of His Majesty in right of the Dominion of Canada." Of course, King George does not bother his head with the intricacies of Canadian Northern finance. So, as a matter of fact, as a reward for guaranteeing the company's bonds, the government holds 40 per cent of the company's common stock.

When it comes to determine exactly who will experience the speculative thrill in connection with the marketing of Canadian Northern stock, the three principal figures are Sir William Mackenzie and Sir Donald Mann, who have \$60,000,000 of the stock, and the Dominion government, which has \$40,000,000. There are also a few millions of convertible debenture stock, which will enter the common stock market arena between January 1st, 1916, and January 1st, 1922.

No one has yet attempted to say what the common stock is worth, and no statement has been made as to when it will be in the international stock market. Sir William Mackenzie, in an interview at Toronto a year ago, said: "The Dominion of Canada will obtain \$40,000,000 of common stock, which in time will be worth par or better; but I have nothing more to say about the matter now." The capital stock of the Canadian Northern is fixed at \$100,000,000, subject to increases only by Parliament. In the meantime, there are other matters holding public attention.—Money Times.
