

IVES HER LIFE TO FRUIT-A-TIVES" Cured Both Stomach Trouble and Headaches

PRINCE RUPERT, B. C., MAY 20th, 1915.
I really believe that I owe my life to "Fruit-a-tives". Ever since childhood I have been under the care of physicians and have been paying their bills. I was so sick and worn that people on the street often asked me if I thought I could get along without help. The same old old stomach trouble and distressing headaches nearly drove me wild. Some time ago, I got a box of "Fruit-a-tives" and the first box did me good. My husband was delighted and advised the continuation of their use.

Now, I am feeling fine, and a physician meeting me on the street, asked me how I was getting on. I replied, "I am well, thanks to 'Fruit-a-tives'". He said, "Well, 'Fruit-a-tives' are making you look so much better and take them. They will do more for you than I can".

Mrs. H. S. WILLIAMS.

"Fruit-a-tives" are sold by all druggists at 50c. a box. 6 for \$2.50, trial box, or sent postpaid on receipt of 10c. by Fruit-a-tives Limited, Ottawa.

FIRE DANGERS IN THIS DISTRICT

Victoria, May 15.—Advices re-
ceived by the Minister of Lands
indicate that the fire situation is
considered dangerous in the Rup-
ert, Hazelton, Fort George, Lil-
looet and Tete Jaune districts, the
weather for the past week having
been hot and dry. Thirty large
fires have occurred in the Fort
George district alone.

Clearing operations are general
throughout the province, much
activity being shown in this di-
rection by the pre-emptors, espe-
cially in the Fraser valley, Van-
couver Island, Vernon and Tete
Jaune areas. From Cranbrook
heavy rains are reported, which
with the heavy growth of green
vegetation have greatly reduced
the fire hazard. In that district
some eighteen hundred acres of
logging slash have been disposed
of this spring and more will be
dealt with.

Fires in the Vancouver and Is-
land districts were confined to old
slash, which is a constant source
of danger the Forest Service is
continually striving to remove.
The comparatively light snowfall
in the Northern Interior last win-
ter and the early thaw have
brought on unusually early the

danger period, which comes dur-
ing the time between the disap-
pearance of the snow and the
growth of the new vegetation. At
such a time, a spark, match or
carelessly-left camper's fire may
lead to a conflagration likely to
run over a large area, travelling
by means of the fallen needles,
dry leaves and dead grass; num-
erous fires of this character are
reported in the Hazelton district.
