### AUSTRIANS CLAIM THEY HAVE RETAKEN PRZEMYSL

(Special to The Daily News.)  
 London, June 3.—It was officially announced in Vienna yesterday that Przemyśl is again in Austrian hands. The fort was captured by the Russians on March 22, after a siege lasting 101 days, 120,000 prisoners being taken.  
 The Russians have held the fort for seventy days. The Austro-Germans bombarded it with heavy artillery for twenty days and expended more in men and ammunition in the retaking of it than were used up in the rush on Calais and the Yser.

### RECORD UPRIVER STRAWBERRY CROP

With favorable weather conditions, the Terrace and Kitsumkalam districts will harvest this season the largest crop of strawberries in their history. As these districts produce the finest berries procurable, the citizens of Prince Rupert should encourage and foster this local industry by reserving berries until this crop is procurable. The berries should be at their best, and the price the lowest, about July 1.

### MANY EYES TURNING TO PRINCE RUPERT

Charlie Stewart, who has returned from a meeting of the Grand Lodge of the Knights of Pythias at Rossland, reports that people all over the province are turning their eyes on Prince Rupert. The general opinion is that, when things begin to pick up, Prince Rupert will be the first city to get busy. Mr. Stewart claims that things in Prince Rupert are prosperous compared to many of the towns in the South.

### HOW THE CANADIANS CAPTURED THE GUNS

Thrilling Description of Fighting Around St. Julien in a Letter From W. A. Mathieson.

The following interesting account of the capture of the four guns by the Canadians has been received by Fred Stork, in a letter from "Bill" Mathieson:

4th Northern General Hospital, Lincoln, Eng., May 10, 1915.

Dear Mr. Stork:  
 I am going to give you an account of the happenings to my bunch as I saw them myself.

Most of the Rupert Boys are with the 16th Battalion. I got with my old bunch, the Seaforths. We had the usual trench work around Armentieres first. I had a pretty good time, being section sniper, and would often ring 5 o'clock on the German loop-hole plates. We had quite a bit of fun, but were getting soft, so were taken out for hardening up by physical drill and route marches.

We were out about ten days when we were whisked away in London motor "busses" to Ypres, and took over the trenches from the French, the 16th Battalion facing Langemarek and adjoining the Algerians. We finished our four days and the 5th Royal Montreal relieved us. Our second day out, I was on guard on a pontoon bridge north of Ypres, while the city was being violently bombarded, the debris landing in the canal and on the bridge. It was a sad sight to see the refugees pouring across the bridge.

When I got permission I slung away my pack and made for the 16th Battalion, which was marching out to St. Julien. At St. Julien we wheeled to the left and across the fields. We were soon told that the four 7-inch guns were captured and that we were to retake them, and out the Germans from the woods in front.
