

AFRAID SHE WAS DYING
Suffered Terribly Until She Took "Fruit-a-tives"

JEAN DE MATHA, JAN. 27th. 1914.
"After suffering for a long time with Dyspepsia, I have been cured by 'Fruit-a-tives'. I suffered so much that I would not dare eat for I was afraid of dying. Five years ago, I received samples of 'Fruit-a-tives'. I did not wish to try them for I had lost confidence in them but, seeing my husband's anxiety, I decided to do so and at once I felt relief. Then I took three boxes and I kept improving until I was cured. While sick, I lost several pounds, but after taking 'Fruit-a-tives', I quickly regained what I had lost. Now I eat, sleep and rest well—in a word, I am completely cured, thanks to 'Fruit-a-tives'."

"THE BLACK BOX" WILL ARRIVE TODAY

If the boat arrives on time today, The Majestic management will show "The Black Box" tonight, for one night only. The film must be returned to Vancouver tonight, to be shown there on Monday.

In order that all patrons may see this great serial, The Majestic will run four shows tonight, if necessary, beginning at 6:15 sharp.

There will also be an entire change of program, showing the Animated Weekly and the rest of the program which was short-shipped.

FLIES AVOID BLUE.

A French scientist is authority for the statement that flies have a distinct objection to the color blue. This was first discovered by a farmer who keeps a large number of cows in several sheds. One of these sheds happened to be painted blue on the inside, and in this the cows were little troubled with flies. He blued all the walls and thus protected all his cows. French farmers in the vicinity are now adding a blue coloring to their whitewash. Their formula is as follows: To twenty gallons of water add ten pounds of slacked lime and one pound of ultra-marine. The walls are tinted twice during the summer.

WAR WORKERS AND PROBLEM OF DRINK

London, June 18.—In investigating war work and the drink problem, Home Secretary McKenna has found that the employers and the workers take opposite views on a number of questions.

Employers say drink is responsible for 80 per cent of the avoidable loss of time. The workers reply that drink incapacitates only a small number, who might well be eliminated, but investigation shows that about 80 per cent of the charges of drunkenness are baseless. The employers charge that the drinking habit does more harm than actual drunkenness.

Trade questions give the investigators quite as much trouble as drink. Employers say that the unions hold back the output by restricting the amount each man is allowed to do, so that when men have, in the union phrase, "earned their money" or "made their number," they feel entitled to lay off.

Subjects for further investigation relate to the time and manner of drinking among the men, whether the increased tax on beer has turned them from beer to whiskey and stronger liquors, to the hours the barrooms seem to be most frequented, and to whether the closing of bars during the usual rush hours would help the situation.

BIG CHARGE USED TO WRECK BUTTE PAPER

Butte, Mont., June 18.—Investigation by the police leads to the theory that at least a box of dynamite was used in blowing up the printing plant of the Butte Socialist Company. The explosive was placed in the rear of the one-story building.

Entrance was effected by prying open a rear window. Ex-Mayor Lewis J. Duncan, who is editing the Butte Weekly Socialist, denied a report that the issue which was on the press was devoted to the miners' union and carried an article objectionable to the miners. The plant was valued at \$7,000 and the damage is estimated at \$4,000. No arrests have been made.
