PIONEER TELLS OF PEACE RIVER DEVELOPMENT

Mr. H. L. Propst, of Vanreana, Alberta, who has just made the first shipment of wheat out of the Peace River country to the Winnipeg market, is one of the pioneers of that great fertile district, which is now being linked up with the main line of the G. T. P. by the building of the Edmonton, Dunvegan and British Columbia Railway.

"When grain reached the price it was this winter," says Mr. Propst, "I saw where it was possible to haul the grain and just as soon as the steel was laid to end of grade I started my teams. Had we been two days later we would have lost the chance, as the snow was practically all gone by the time we reached the end of steel. In crossing the Peace River the gorge is some 700 feet deep, and it required seven teams to get the heaviest loads up the hill, which is one and a half miles long. It took seven days for the trip from Vanreana to Peace River Landing. The wheat will realize about 80 cents per bushel all clear, after expenses are paid.

"For two years our nearest railroad station was Edmonton and all our supplies we were compelled to haul from that point, 500 miles distant, and it all had to be done in the winter. Now we have all the modern conveniences here, despite the long transportation by team of everything. The district is all connected by telephones belonging to a local company. There are several automobiles in the country, of which I own one. This country seems to be more adapted to grain growing than most other parts I have been in, as the crop is sure. I am confident that quality of wheat will get better with the development of the country. As it is now, settlers have not had the time to devote to their crop they should on account of long transportation by team and the home-stead improvement work to be done."
