Cigar and Cigarette Holders and Pipes in excess of \$2.50 each should be listed under the heading of a twenty per cent tax instead of the fifteen per cent tax as noted in the advertisement.

PROFESSIONAL MEN OPERATE STEAMER

Volunteer Crew Take Place of the Strikers and did Good Work

NEW YORK, July 2—More than 150 Danish bankers, doctors, lawyers, teachers and professional farmers were enrolled among the engine and deck crews of the Scandinavian-American steamship Frederik VIII, which arrived from the strike-bound port of Copenhagen, the first vessel of the line to reach the United States in three months.

The departure of the Frederik VIII was made possible, it was said, only through the services of her volunteer "millionaire crew," the members of which belong to the "Government Help League," organized to bring order out of the chaos created by the strike.

Officers of the ship kept the identity of the volunteer members of the crew secret, but were loud in praise of their work. This praise was shared by the 700 passengers on board the liner, who joined in a signed testimonial to them.

Indicating the make-up of the crew, it was said that in the "black gang," as the engine crew is termed, there was a wealthy banker, a professor of mathematics and an engineer who is head of a well known Danish technical institute.

LITTLE BRAS D'ON, C. B.
"I was a terrible sufferer from Dyspepsia and Constipation for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, a friend told me to try 'Fruit-a-lives'. In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous." ROBERT NEWTON.

The time used is Pacific Standard, for the 120th Meridian west.

It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same.

The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps.

Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

Ten Years Ago
in Prince Rupert

July 2, 1910

The water sports were particularly successful yesterday with many entries in all classes of competition. The events were as follows:—Gasoline launch race, canoes, canoes doubles, mixed tandem, crab race and whale back race.

Alex. Prudhomme's new hotel building at the corner of Fifth and Fraser Streets is to be opened next week. The new hostelry will be known as the Savoy Hotel.

R. B. Horton, secretary of the Swanson Bay Pulp Company, is staying at the Grand Trunk Inn.

The fire and water committee have reported on Alderman Barrow's application for rights to develop the tidal power at Zenardi Rapids. The committee recommended that the application be opposed for the present so as to protect the interests and await the result of experiments in other parts of the world.

In the sports yesterday the 100 yds., 220 yds. and 440 yds. dashes were won by Winsby.

The carpenters won the tug of war yesterday against the teamsters. There were many teams contending, but the above is the result of the final pull.

The Man in the Moon
SAYS:—

THAT it was a great day.

THAT there was plenty of fun even if Prince Rupert could not win the ball games.

THAT so far as winnings were concerned a city team could not even win a football match. The only game was a draw.

THAT if the Jazz Carnival was a bit quiet in the afternoon, there was plenty of pep in the evening.

THAT another big time is promised this evening.

THAT Jupiter Pluvius was not very kind for a little while yesterday morning, but afternoon and evening were splendid.

THAT the blue shirted Scotsmen gave the Gallies a pretty good game of football yesterday afternoon.

THAT there was cheering for both sides in good Glasgow and Aberdeen dialects.

THAT there was a great time yesterday, but this morning was the morning after and the dawn was gray.

THAT women notice what women have on, but men notice what women fail to have on.

THAT the thing used to manufacture booze may be still, but it can usually be located from a distance.

THAT anyone wishing to win an election in this town should get around and register the voters.

THAT it is understood the lady school teachers have all registered.

THAT the only way to be truthful when asked for your opinion of the baby is to say "Isn't it cute?"

THAT it is difficult to know who is who in Manitoba today.

THAT the Farmers did not make much of a showing for a farming province and the independents may not be as independent as they might seem.

THAT the jokester in the Winnipeg Free Press says that one of the things that won't get you anywhere is trying to borrow a match at a meeting of the St. Andrew's Society.

Among the passengers south-bound on the Prince Rupert last night was E. P. Mathewson, a well known consulting metallurgist who has been a month re-organizing the work of the Grand Consolidated Mining Smelting and Power Co. plant at Anyox. Mr. Mathewson was the guest of honor at a largely-attended dance given in the Recreation Hall at the Smelter town on Wednesday night.
