PURE BLOOD IS SECRET OF HEALTH The great majority of human ailments and diseases are due to impure or impoverished blood. Sometimes this cause is direct, as in eczema or skin eruptions. In other cases, such as organic diseases, the condition of the blood is the indirect cause. Among diseases such as rheumatism, in all forms, Asthma, Bronchitis and Catarrh, indigestion and stomach trouble, Nervous disorders, kidney and bladder complaints, Eczema, Piles, etc., the condition of the blood is of the utmost importance. There is nothing like herbs to restore the blood to condition. In Wonder Health Restorer, a preparation which is sold in Prince Rupert by the Prince Rupert Drug Co., is a true herbal preparation. The formula of a great Scotch herbalist, which promises real and permanent relief from these diseases. This remedy contains absolutely no alcohol or drugs. It does its work solely through the wonderful medicinal power of herb juices. It is not a patent medicine in the accepted meaning of the term. It is a herbanist's prescription which, tried for years, has produced results that are simply marvellous. It is safe, as it may be given to even a newborn babe without danger. It is sure, as the testimony of thousands of those who have used it certifies. It is in a class by itself as a remedy, as it brought relief to many who have tried drugs, hospital operations and even the service of medical specialists without avail. The health Restorer may be secured in Prince Rupert at the Prince Rupert Drug Co. The cost of treatment is nominal, amounting to only 12 cents a day for a month's treatment. The results are beyond all price. Ask for a copy of "The Secret of Health," which tells all about the remedy and gives testimonials which prove its worth beyond all question.

LIFE IN PROVINCE EXISTED FORTY-FIVE MILLION YEARS AGO WASHINGTON, July 3.—The first forms of life appeared on this earth 45,140,000 years ago, according to Dr. Charles D. Walcott of the Smithsonian Institute who has just discovered several thousand fossils that contradict all previous deductions. The find was made in the Burgess Pass fossil quarry, discovered in 1910 in the Canadian Rockies, about 3,000 feet above Field, B.C. Prof. Walcott has taken annual pagies into this district, blasting fossils out of what is known as the Cambrian Rocks. When the large slabs were blasted loose they were split with chisel and hammer, and fossils of animals were exposed that were, in life, softer than jellyfish. The shale bed suggests that the waters of the ancient Cambrian Sea swarmed with life, just as the ocean does today at Santa Catalina Island. But this was long before the advent of fish on earth, and no trace of fish is found among the fossils. The find upsets the theory that in the Proterozoic Age only one-celled Amebe, etc., existed on the earth. Instead of only unicellular animals there were actual swimming and crawling water forms of animals already dominant. Prof. Walcott estimates that fossils of these animals were gneissed about 27,640,000 years ago. He adds to this figure 17,500,000 years during which these and other creations were evolving from each other in the pre-Paleozoic-period.

DISCUSS STRIKE Committee Appointed to Urge that Deadlock be Broken. The question of the longshoremen's strike was mentioned at the Board of Trade meeting last night and a committee consisting of Messrs. Nickerson, Mills and Dawson was appointed to see if anything could be done with a view to a settlement of the dispute. Views were expressed that the company should try to secure men to unload the boats if the longshoremen refused to return to work. The businessmen were willing to help do the work, but they did not think the company was making an effort to put other men to work in place of the strikers.

SPECIAL NOTICE Special meeting of the B. P. O. Elks Lodge No. 46 will be held in the Killas Hall on Monday evening, July 5, at 8:30 p. m. Members are urgently requested to attend, as a matter of importance to the Lodge will be discussed. By Order, W. J. CASH, Exalted Ruler.

MINERAL ACT. (Form F.) CERTIFICATE OF IMPROVEMENTS. NOTICE. "Wolf" Mineral Claim, situated in the Naas River Mining Division of Cassiar District. Where located:—Near the head of Alice Arm. Take notice that I, J. E. Starke, Free Miner's Certificate No. 29386 C, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements, for the purpose of obtaining a Crown Grant of the above claim. And further take notice that action, under section 85, must be commenced before the issuance of such Certificate of Improvements. Dated this 3rd day of April, 1920. J. E. STARKE.

SAWMILL GET AWAY WITH BEAVER TEAM Win Ball Game by Close Score of 10 to 9. Last night's baseball game between the Beavers and the Sawmill team proved a win for the latter by the score of 10 to 9. Interest was running high among the large number of fans present as the score was a tie at the end of the eighth. No runs were made by either side in the ninth and tenth but the lumber jacks copped the winning play in the eleventh when after Abbott was put out Hagstad came to bat and made a two-bagger. He then stole third and was knocked home on a single. The Beavers played a very consistent and heady game but seemed to be unable to get wind of the Sawmill steam until the sixth, when they piled in six runs. During this half Joe Abbott of the Sawmills was having a gigital time changing pitchers, but one by one as a new pitcher stepped into the box the boys in gray peppered them out. The whole match was a fine demonstration of good baseball except for a few times when the teams stalled around to fight over a minor difficulty. The line ups in batting order were as follows:—Sawmill: Bejanger, Fowler, Depisse, Abbott, Hagstad, Merrick, Hudson, Astoria, Temple, Woods. Beavers: Halverson, Hatchford, Sweet, Crossley, Smith, Morrison, Chenoski, McDonald, Higham. M: Fox of Alice Arm umpired the game to the satisfaction of all.

PRELIMINARY SURVEY Work Being Laid Out for Contractor on New Dock. The initial work in the preliminary surveying commenced yesterday for the new dock to be erected at the south end of the present Grand Trunk wharf. A party of G. T. P. engineers were taking sights and placing hubs for the base line along the main track. A point on the track opposite the end of the present wharf will be taken and all the hubs will be inserted along the bed to mark the points where the various rows of piles will go in. Two lines will be laid at right angles to mark the southern end of the new erection, and then the piles can be driven in the water from the extended lines.
