## Democrat Nominations are Concluded

### LONDON CITY PRESENTS JEWELLED SWORD TO HEAD OF AMERICAN ARMY

#### Governor Cox of Ohio New Democrat Leader

Convention at San Francisco finished at 1.40 this morning on the Fortieth Ballot

#### Palmer First to Quit; McAdoo Forces Concede

Personal History of No. 1inee for President similar to that of Senator Harding; Farmer, Printer, Editor and Owner

SAN FRANCISCO, July 6.—James M. Cox, governor of Ohio, has been nominated as the Democratic candidate for the Presidency of the United States. The nominations concluded at 1:40 this morning with the fortieth ballot after Cox had steadily beaten down the opposing forces of William G. McAdoo, the son-in-law of Woodrow Wilson. The Cox stampede started last evening when Georgia moved to the Cox column and 25 others flopped two. At that time there were three candidates in the running but Palmer dropped and his delegates were released. On the thirty-eighth ballot when Cox was in close reach of the necessary number of votes the nomination was made unanimous with McAdoo dropping from the race.

Governor Cox was born in Jacksonburg, Ohio, on March 31, 1870, so is now fifty years of age. He was raised on the farm, which he left for the printshop. He taught school, was a reporter in Cincinnati and later became a newspaper owner, now owning three papers in Ohio, one of the in Dayton and another one in Cincinnati.

The coincidence is noted that both Republican and Democratic nominees are from the State of Ohio and have both been governors of that state. Both were raised on a farm and both became "printer's devils" and later school teachers before taking up reportorial life. Now both are candidates for the highest office that can be the privilege of an American.

MAYOR MCCLYMONT HAS WIRED OTTAWA AGAIN

In answer to a question of Ald. Kerr as to the condition of the longshoremen's strike, Mayor McClymont stated at last night's council meeting that he had again wired to the Minister of Labor telling him that the strike situation in the city was even worse than it had been. Yesterday he had had a conference with the longshoremen and the business men but no progress towards settlement had been made.

The mayor stated that the men refused to go back to work and would not have anything to do with a conciliation board, having withdrawn their previous statements with a view to settlement.

#### REGISTRATION IS GOING SLOW

Government is Considering Availability of Extending Time in Certain Districts.

While, as now established, registration of electors desirous of getting on the voters' list being compiled under the provisions of the new Provincial Elections Act will terminate on July 15, it is possible that there will be an extension, if not throughout the province generally, at least in some of the outlying places. So far no notification of a decision has been received here but the matter is under consideration at Victoria.

In the meantime the closing date is July 15, and registration is dragging along slowly, the total up to today in this city being 1,320 names. The total for the whole of Skeena District so far registered is 2,402 while there were 5,000 names on the list last year. There must be the proverbial eleventh hour rush if all the qualified electors in the city and district are to be registered by the required date.

#### WAR VETERANS DESIRE TITLE

Would Exchange Memorial Site on Fulton St. for Ownership Present Club Quarters.

The application of the G. W. V. A. to make an exchange of the lots granted them on Fulton St. for memorial purposes for the title to the present quarters on Third Ave. was received last night at the council meeting and was laid over for a week. It was the general opinion around the council board that the property on Third Avenue could not be granted without the ratepayers giving sanction by the vote.

It is the proposition of the Association to abandon the proposed ambitious plans for a memorial building on Fulton St. and, instead, renovate their present quarters and erect a tablet. The city councillors gave different views on the matter and showed sympathy with the desire for a memorial, the mayor favoring one that would be a memory to the fallen heroes but would, at the same time, be useful for the ones who had returned.

#### PREMIER MINE GOING STRONG

Upwards of a Million Dollars' Worth of Ore Extracted During Winter.

STEWART, July 6.—Operations on the Premier Mine, Salmon River, during the past winter have disclosed that the Premier is everything its wonderful first development has promised. Information in regard to it is meagre but the facts publicly known prove that it is already one of the greatest mines on the continent, both in the extent of its ore bodies and in the value of their metal content.

During the past winter the Premier ore shipments totalled 1,500 tons, averaging \$300 a ton. Besides these shipments of high-grade a great deal of milling ore has been mined and is on the dump. Including the shipments of high-grade, probably a million dollars' worth of ore has been extracted from the Premier during the past winter. The value of the new ore developed can only be guessed at.

It is said when the results of the diamond drilling are known they will startle the mining world. The high-grade has been, it is reported, cut by the drill at a great depth and in bigger body than has yet been found in the upper workings.

The first unit of a thousand ton concentrator is rapidly nearing completion and it is expected the first run will be made some time in August. About 70 men are now employed at the Premier.

#### CANNOT PARK THIRD AVENUE

Police Will Enforce Traffic Rules; Will Affect Several Taxi Owners.

The police will now enforce rules in regard to the parking of taxicabs on Third Avenue. Such automobiles for hire will not be allowed to stand on Third Avenue at all. Parking space will be limited on Sixth Street to that section between the lane which runs behind the Royal Hotel and Fraser Street. No definite rulings have been laid down in regard to the other streets but the officials are confident that the same conditions will soon apply on a number of the other streets.
