Use Doesn't Harm It!

There is this in favor of the new idea of using silverware instead of keeping it to "look at" only, that it doesn't harm it in the least. It is made to be used—in fact there is nothing else in the house that will so well stand ordinary wear as silverware.

Fine silverware is a handsome addition to the home. Used regularly, its value increases ten-fold, by all means "Use Your Silverware."

PRINCE RUPERT HAD COLLISION

Struck a Line of Cannery Boats Off Skeena—Fortunately Damage was Slight.

Yesterday morning passengers aboard the Prince Rupert had the opportunity of seeing a unique collision happen a short time before the big three-master came into the harbor. Proceeding through the fog rather slowly a string of cannery boats in tow of a tug suddenly loomed up just a short distance ahead. Hitting the boats was inevitable and the Jap fishermen in the smaller boats became very excited and emitted great cries for assistance. The stem of the big ship cut into the string of fishing craft and nosed through, dragging a few along on each side with a towing line round the prow. Eventually the rope between the boats was loosened and they were left behind wallowing in the troughs of the swells from the monster which had come upon them so suddenly. Except for the snapping of a few masts very little damage was done. Many of the fishermen got ready to take a plunge into the waters but all the commotion was soon dispelled by cool seamanship.

POLICE BOARD WAS CRITICAL

Will Get After Soft Beer Places, Taxi Drivers and Loafers.

Following the reading of the report of the chief of police at the sitting of the Police Commission yesterday morning much discussion was made concerning the prevalence of drunkenness in the city. The mayor stated that in an interview with some of the hotel keepers their complaint had been that after the men got drunk in other places such as private houses, they were kicked out and then wandered down town and came into the soft drink establishments. Instructions were issued to the effect that in the regular monthly report by the chief there should be a statement as to the condition of these places at the time they were visited. If the police thought that here was whiskey on any establishment all that was necessary to be done was to say that they were making a search under the prohibition act and it was not essential that they should have a search warrant or that the owner be present.

Another matter of considerable importance which was taken up had to do with the renewal of taxi licenses. The commissioners felt that on account of the class of men who seemed to be taking over this business that it might be well for car owners to give a list of the names of their drivers and then it would be decided as to whether or not they could be granted a city license. The drivers' licenses were issued by the provincial government but it was felt that the city ought to have some check on the matter.

Mayor McGlymont was very emphatic at the session in regard to making a few arrests for spitting on the sidewalks and obstructing traffic. Men congregated around certain corners down town in a manner which would disgrace any city. Women have to step off the streets to get by. If examples were made of a few the thing might be readily remedied.

WILL DISTRIBUTE BACK PAY CHEQUES WITHIN TWO WEEKS

OTTAWA, July 8.—The Dominion civil servants' back pay cheques are to be distributed within two weeks' time. These cheques are now due under the departmental re-classification.

EX-SOLDIERS TO SUE GOVERNMENT

LONDON, July 7.—It is reported that 20,000 ex-soldiers in Britain will sue the Canadian Government on a charge of breach of contract. They allege that arrears are due from the army pay due to exchange rate prevailing at time which was not taken into consequence.

GREAT SCENERY IN TONIGHT'S PICTURE

"The Manxman" by Hall Caine is Romantic Picture of Unusually High Standard.

Founded on the "Eternal Triangle Situation," the photoplay "The Manxman" based on the book written by Hall Caine, which is to be shown at the Westholme Theatre tonight is filled with romantic color. The play deals with a young man who left home and family to go to the South African diamond mines and on his return found his wife deeply in love with his own friend. The weaving of the romance brings about a crisis where the life of the husband is saved by the rival and all the troubles are finally settled. The scenery of the production is of unusually beautiful character, the crossing of a small boat from the Isle of Man to Ireland being thrillingly realistic.

A Canadian Pictorial and Christie Comedy round the eight-reel feature off very nicely.

BOUND FOR CONVENTION

Western Y. M. C. A. Hold Gathering at Saskatchewan Camping Town—Delegates Come Through Here.

Among the arrivals by the G. T. P. boat yesterday morning were Harold McLean and Wally Baker, both students at the University of British Columbia who are on their way to attend a conference at Lumsden Beach, north of Regina. An all western student gathering is being held there under the auspices of the Y. M. C. A. when the program for next year will be discussed. Two other delegates, E. A. Johnson and H. Grant, were appointed to go but they travelled by the C. P. R. The fifth representative to the convention was James Mitchell of this city, but he will not attend. The latter is vice-president of the Provincial University Y. M. C. A. for the next term.

The two young men who arrived yesterday were particularly pleased with the trip north. The inside waterways route appealed to them and they were eagerly looking forward to the trip up the Skeena River. They will proceed as far as Edmonton and will then go south to Calgary where they will join a larger party. The events of the conference last for almost two weeks and the whole time is occupied by studies of modern day student problems and missionary activities. Much of the morning hours will be devoted to athletics.

GEOLOGICAL SURVEY AT FRANCOIS LAKE

Head of Department of Science, University of B. C., Takes Party into Interior.

R. W. Brock, dean of the University of British Columbia, arrived from the south on the Prince Rupert yesterday morning. He is taking a geological party into the Francois Lake country and will remain there for two and a half months. This distinguished geologist has a long list of achievements to his credit with the survey of Canada and was director-general for this branch of development of the Dominion for a number of years. Later he joined the staff of the University in the south and since returning from overseas has been head of the science faculty.

Among others of the party was G. C. Nelson, son of John Nelson, editor and publisher of the Vancouver Daily World. While here "Lefty," as he is more familiarly known to his friends in the south, had the opportunity to visit his uncle, O. H. Nelson. He graduated with his B.A. degree at the examinations held in April.
