Sport Briefs

It is proposed to have a grand baseball tournament at Telkwa. The four competing centres will be Burns Lake, Smithers, Hazelton and Telkwa. Semi-finals could be arranged for Sunday, with a play off on Monday evening, the night of the great celebration.

This afternoon the Butchers and the Chauffeurs meet in a practice baseball game at the Acropolis Hill grounds and tomorrow evening the same team from the city meat-busters will engage the Thinkers to a nine inning combat on the same field. Rivalry is now running high in this three cornered race for points although no trophy urges on the contestants. They are still raking in the collections for the purpose of raising funds for the dressing room on the hill.

Catcher Powers of the Red Sox team had a good wing to second in Monday night's game with the Sawmill. Some of the A1 stealers of the sawdust gang were caught between first and second through Powers' nifty peg and Louis Astoria's sticky glove.

From all appearances made this year there will be a splendid opportunity to organize a commercial baseball league at the beginning of the season in 1921. A number of other teams besides those that are already taking part could be formed. Already the Bankers have a splendid nucleus in George Mitchell, George Roberts and Powers.

The Butchers baseball team have now great social aspirations and on the 29th are going to have a dance at which the intend to show just what it means to give a real dance.

It was no fault of Jimmy Kelly, Harry Bennett or Bill Lawson that the Orangemen lost the game at Port Simpson on Monday. Nor could it be blamed on the stalwart Warrior who played between the sticks. Plainly luck must have been against them.

There may be something you want. See the classified column

PROPAGATE ALASKAN REINDEER

U. S. Federal Government interested in increasing production of meat from New Herds.

WASHINGTON, D. C., July 14.—An investigation of the conditions of the reindeer in Alaska and the introduction of new blood into the herds, which are of great economic importance to the natives of the Territory, are to be undertaken by the biological survey, United States department of agriculture, in accord with recent legislation. The work will be carried on in co-operation with the bureau of education, department of the interior, which has been closely identified with the reindeer industry in Alaska since 1892. In that year the bureau introduced 143 animals, which have increased until today they number approximately 150,000. In addition, it is estimated that the natives have killed 100,000 for food and skins.

Excellent as have been the results so far, there are great opportunities for improving the industry, thus developing an important meat supply not only for Alaska but for other parts of the United States. A vast region, including the base of the Alaska peninsula and immense areas farther north, is adapted to raising these animals. Several million reindeer could be supported on these tracts, according to estimates. The introduction of new breeding stock will be one of the immediate tasks to be undertaken by the federal authorities.

HOW ENGLAND MADE MR. AND MRS. DOUG FAIRBANKS WELCOME

A letter recently received here from Plymouth, England, tells how the English received Mary Pickford and her husband, Douglas Fairbanks, when they arrived at the old English sea port on their recent tour.

Aeroplanes were sent out to meet the incoming steamer on which the movie favorites were travelling and huge bouquets of flowers were dropped to her decks. The mayor of Plymouth went out on a tug to meet the world famous couple and accord them a welcome to England.

SUNDAY SCHOOL PICNIC TAKING PLACE TODAY

At one o'clock this afternoon the first launches for the Presbyterian Sunday School picnic left the Hazelton float with many kiddies on board bound for Digby Island. The "Lois M.," "Haria," and "Oh Baby" were the first boats to head out, but during the course of the afternoon many other private launches went over. The races and other attractions for the children are in the hands of E. M. Fuller and excellent prizes have been subscribed. Other boats are going over in the evening following the closing of the business offices.

HERBS HAVE WONDERFUL MEDICINAL PROPERTIES

In the herbs of the field herbalists say there is a specific for the relief of practically every human disease. The great Creator undoubtedly gave herbs to the world for the relief of suffering, but their wonderful power is all too little recognized. The eyes of the world have been opened to the medicinal power of herbs by the wonderful work of Wonder Health Restorer. Prepared by a Scotch herbalist as the result of a lifetime of investigation, it has established new standards for the treatment of disease. Containing no alcohol or drug of any kind, the herb juices of which it is made offer relief for disease in many forms. No sufferer from Asthma, Rheumatism, Stomach Trouble, Kidney and Bladder complaints, Nervous diseases, Heart trouble, Skin diseases, Piles, etc., should despair of relief until they have tried this preparation.

Wonder Health Restorer may be secured locally throughout all British Columbia and the wonderful work it does is creating new friends for it every day. Its action is mild. For the blood it acts as a feeder, restoring its vitality. For the diseases of the organs the herbal properties which are carried directly by the blood flow, they promptly set up an action which corrects any irregularities, restores the organs to normal strength and puts them in proper working order. The preparation also tones up the entire system.

The full facts concerning Wonder Health Restorer and the signed testimonials of many who have used it are contained in "The Road to Health," a booklet which should be in every home. The remedy and literature may be obtained in Prince Rupert from the Prince Rupert Dispensary. Wonder Health Restorer, despite the wonderful work it does, is low in cost, the Scotch herbalist outlining the formula insisting that the price should be such as would make it possible for even the poorest person to share in its benefits. As ordinarily used the cost of a month's treatment works out at only 15 cents per day.
