Interested in? CUT GLASS!

We mean the real thing. The kind with the brilliancy of diamonds and the weight of iron.

We think it a mistake to put your money into any other sort.

We knew you wouldn't want to, so we did not put the other kind in stock.

Little odd pieces from \$3.50 to \$6.00. Brilliant bowls \$7.50 to \$18.00. We'd like your opinion on it.

Real-Fruit Desserts The Rarest Sort

The only gelatine dessert which has fruit-juice flavors sealed in glass is Jiffy-Jell.

No artificial flavor can take the place of fruit. For Jiffy-Jell the fruit is crushed, condensed and sealed in glass. A bottle of this liquid essence comes in the package. And sugar is used—not saccharine—to sweeten Jiffy-Jell.

Jiffy-Jell comes in ten flavors. Try loganberry and pineapple for desserts. Try lime-fruit flavor for tart salad jell. Try mint for a refreshing mint jell.

VANDERHOOF

A very interesting marriage took place last week when Beatrice Irene Smith became the bride of George Ogston, one of the earliest arrivals into this section of the country. Rev. David Gray, Presbyterian minister here, performed the ceremony. The bride and groom spent their honeymoon visiting in Edmonton and Calgary.

A new Hudson's Bay store is being erected at Fort St. James and lumber is being freighted north to complete construction work.

Over 400 residents invaded Prince George on Dominion Day and several made excellent showings in the sports entries.

R. H. Moore, of the Soldier Settlement Board, is in town in connection with board business.

Miss Thelma Tittermore of Fort Fraser has been the guest of Mr. and Mrs. J. W. Campbell for the past two weeks.

A well attended picnic was held on Engen to commemorate the fourth of July. Recent arrivals from across the international line were out in full force to celebrate their great day.

J. A. Stewart of Seward, Alaska, has arrived here in the interests of his business. He is very favorably impressed with the advancement which the town has made since his last visit. Being a large property owner he has had a great interest in the growth of the Nechako Valley centre and may now make his residence here.

At Vanderhoof recently a son was born to Mr. and Mrs. E. A. Mitchell and a daughter to Mr. and Mrs. W. Higgins.

SMITHERS

Mr. and Mrs. Olof Hanson of Prince Rupert have opened their summer home at Lake Kathleen. Mr. Hanson has recently purchased an automobile, which will be a convenience in getting into Smithers, where he now has an office.

Mrs. Thomas Harle and children are expected to arrive in Smithers shortly to join Mr. Harle, who has accepted a position with Anzer the tailor.

Aaron Anderson was struck by a falling tree last week while working in the Hanson camp at Quiek. The blow which he received fractured the collar bone.

Dr. C. H. Hankinson has been notified of his appointment as medical health officer for the valley and also as district medical inspector of schools.

A special sacred concert was given in the Smithers community hall upon Sunday evening upon the occasion of the visit of the large party of Dakota farmers. J. S. Gray was in charge of the program and the very best talent from the district was solicited. All other regular Church services were abandoned for the occasion.

Owing to the resignation of A. Kilpatrick from the master's chair of the local lodge of Masons, S. H. Hoskins was elected master. T. A. McMartin succeeds to the office of secretary following the elevation of Mr. Hoskins.

MALE BIRDS ARE OF NO USE NOW

Farmers and Others Selling Eggs Should Now Remove Them From Their Flocks.

The presence of male birds in the flock during the summer months has a decidedly detrimental effect upon the quality of eggs and poultry producers lose many thousands of dollars annually through the presence of partially incubated and bad eggs in the produce they market. Reports are now being received from all parts of the country of the number of partially incubated eggs appearing in current receipts. Producers do not realize that it is unnecessary for a fertile egg to be placed under a broody hen to cause the germ to grow; a temperature of seventy degrees is sufficient to start incubation. If the heat is constant the development of the chick will continue, but if it ceases or is intermittent, putrefaction at once sets in and the egg becomes bad. Such eggs have no place or value in shipments, and should they get to the consumer the consumptive demand immediately falls off.

The male bird is not essential in egg production, his usefulness is over when the supply of fertile eggs for the season has been secured. The hens will lay just as many eggs when the male bird has been removed and the eggs will be more suitable for consumption, packing or storing. Further, there is a distinct financial gain to the producer who markets infertile eggs, because the best trade in many cities offers a premium of from one to five cents a dozen for infertile eggs.

Then there is the question of feed. It costs money to feed poultry, and with feed at its present value, the consumption of feed by males kept for no particular purpose is a serious economic waste. The reason for this is that the best prices for live and dressed fowl—prevails in the spring and early summer. During the summer the price declines, and by the
