VISITORS ARE APPRECIATIVE

Excellent Reception is Being Accorded Them—Some Spending Extra Day in the City.

The former excursionists from Winnipeg and North Dakota have been receiving such a reception in the city and have been so pleased with it that when the Prince Rupert left for Anyox last night only about half of them went north as their itinerary called for.

Yesterday afternoon they visited the Dry Dock, Cold Storage plant and Saw Mill and at each place courteous receptions were accorded and the officials were zealous in their efforts to show them around. The visitors themselves were very interested in all the industrial operations and especially so in the shipbuilding, which some of them had never witnessed before.

In the evening the dance in their honor arranged by the Board of Trade was a splendid success and was excellently attended. Citizens and visitors mingled freely and a most congenial time was spent under the experienced supervision of George Frizzell as master of ceremonies. Gray's Orchestra enlivened things as usual and some of the guests said they had heard no better anywhere. The dance was to have concluded at 12 o'clock but was still going strong long after that. The committee in charge consisted of M. P. McCaffery, George Frizzell and E. C. Gibbons.

GOVERNOR COX FAVORS LEAGUE

Believes that Treaty of Versailles Should be Ratified by United States, with two Reservations.

DAYTON, Ohio, July 15.—Governor James M. Cox, Democratic nominee for the United States presidency, is in favor of ratification of the Treaty of Versailles and the League of Nations with two reservations, according to his campaign manager, and they will form the keynote appeal to the people of the United States in his forthcoming campaign.

These proposed reservations of the League would provide as follows:

1.—That the United States signs with the agreement and understanding that all the signatories are bound together for only one reason—to keep the peace of the world.

2.—That without any suggestions that the United States sought to shirk its obligations, the League participants should clearly understand that the war-making power is vested in Congress, and that the United States could not act except in harmony with the constitution in complying with any League decision.

In speaking of the League issue his campaign manager pointed out that in a recent speech Governor Cox declared that the League was imperative and that it was his intention to fight for it "to keep faith with the boys who went overseas."

His advisers say there has been no change in his views. Their interpretation of the Governor's position was that he would insist in his campaign upon such a ratification of the treaty and League as would not trespass on the principles of the document, and he would fight for Article Ten without weakening reservations.

Governor Cox and Franklin D. Roosevelt, the Democratic standard-bearer, had their first meeting since the San Francisco convention in the executive office at Columbus Monday afternoon.

TALL SPARRED SHAMROCK IV

British Challenger Leads Resolute in

Shamrock makes poor start in slow race; Weather conditions quite adverse; Time 4 hrs. and 20 mins.

NEW YORK, July 15.—(Flash).—Sir Thomas Lipton's "Shamrock IV" won the first race of the America Cup series at Sandy Hook today. The series will be decided by the winning of three races out of five.

Progress of Race.

NEW YORK, July 15.—After the yachts were out two hours the distance made was only ten miles, but the Shamrock was half a mile ahead. The sea was dead calm and the air almost still. The Resolute parted her throat halyard half a mile from the turn but still kept sailing.

NEW YORK, July 15.—The Resolute crossed the starting line at 40 seconds past twelve, while the Shamrock was 58 seconds later in getting under way. The poor start for the Shamrock was due to faulty timing. At 12:10 a rain squall was encountered. Mrs. Burton, the wife of the captain of the Shamrock, who acted as timekeeper, said that the poor time was due to rain and lightning. Six miles out the Resolute was increasing a half mile lead but the Shamrock soon picked up and passed her.

Yachts' Measurements.

NEW YORK, July 15.—The particulars of the yachts participating in today's race follows:

Resolute, owned by the New York Yacht Club, Captain C. F. Adams, 36 men, 106 feet long, 69,000 square feet. Shamrock IV, owned by Sir Thomas Lipton, 42 men, 112 feet long, 100,500 feet.

The Shamrock was further handicapped by seven minutes' delay owing to greater sail area.

NEW YORK, July 15.—(Later).—It is understood that the Shamrock must complete the course in the six-hour limit to win.

NEW YORK, July 15.—(Flash).—The Shamrock finished the course in 4:20, winning the race.

FARMERS FACE LABOR FAMINE

Ontario Authority Asks Toronto People to Spend Vacations Working on Farms.

TORONTO, July 15.—J. A. Miller, superintendent of the Government employment bureau, recently stated that there would be a shortage of farm labor again this season, and asked residents of the city to consider the advisability of spending their vacations on the farm to assist in gathering the crops. Mr. Miller believed that the shortage would become acute toward the middle of next month.

"While farmers are not asking for many men at present because of the light hay crop, much labor is needed to pick the fruit in the Niagara peninsula," said Mr. Miller. "Much of the crop will be a loss if labor cannot be had. One fruit-grower who was in today asked for one hundred men."

Mr. Miller pointed out that the prospects this season were for heavy crops, and that the need for labor would be pressing if the weather were uncertain. He said that wages of farm labor would be \$50 to \$60 a month in Ontario.
