Contract Rates on Application.

DAILY EDITION.

Wednesday, July 24, 1920.

Mrs. Naden Was Worthy Woman.

The news of the death of Mrs. G. R. Naden at Victoria yesterday was received as a shock by many of her old friends of pioneer days here. The deceased lady was one of the first to make this city her home and was among that small band who came here early in 1909 and encamped on the railway reserve adjacent to old Center Street. She was popular and her worth was known in all work of an uplifting and community welfare nature then as it was in later years when the city had assumed more pretensions size. The sympathy of all Prince Rupert's old timers will, indeed, go out to Mr. Naden and the motherless son and daughter in their sad bereavement.

Sportsmanship Is Shown.

On historic old Sandy Hook has been focused the attention of half of the civilized world these last few days and that attention is a happy one. The America Cup race is probably the most closely watched sport event that takes place anywhere in the world. On it is directed the interest of two great countries, the United States and Great Britain, and it is well that they should compete thus for the America Cup race is one of the cleanest sport events that is held. Sportsmanship in its true sense is shown as far as the participants of the race itself are concerned for thousands of dollars are expended in preparing the boats, while all there is to win is an old cup that itself would bring only a few dollars at a pawn shop. To the winner, be he the Briton or the American, will go hearty congratulations and the opposing contenders will be the first to join in the handclasp.

Worry Causes Short Lives.

Statistics in the east show that there has been an alarming increase in recent years in the number of deaths from heart trouble and diseases of the arteries. The figures were so startling that the Toronto Star asked Dr. Hastings, medical health officer of the city, for his opinion of the situation. Dr. Hastings said: "Strenuous living. Forever reaching out after the almighty dollar. Worry. One hour of worry will do a man more harm than five hours of hard physical labor. People are lying awake at nights worrying about things that shorten their lives. If a man eats a big meal and then starts to worry, his food is not digested, the toxins are not eliminated from his system. This high-tension life, this strenuous reaching out after things, is the outstanding cause of hardening of the arteries and of certain allied diseases which are causing us so much alarm."

Decision Rests With Man.

The number of middle-aged men who drop off in their prime in the large American cities has been the subject of comment for a number of years. The pace has been described as being too fast; they have burned up their energies and frayed their nerves in a mad scramble to make money which they do not live to "enjoy." This tendency has not been so marked in Canada where our cities have not been so large and our business pace not so nerve-racking. We have gone slower and lived longer. But with the growth of our cities we appear to be following the lead of the Americans in fast business and quick death. Apparently you can engage in a mad scurry for wealth and die at fifty or you can take life more easily and live to seventy. Medical science will, no doubt, place the facts so clearly before the world in the near future that every man will be able to make his choice with more or less mathematical correctness.

Then man will be able to make his decision with his eyes open—a fast life and a short one, or a slower pace and a greater length of years. — Winnipeg Free Press.

HER CASE SEEMED HOPELESS

But "Fruit-a-tives" Brought Health and Strength

29 St. Rose St., MONTREAL.

"I am writing you to tell you that I owe my life to 'Fruit-a-tives'. This medicine relieved me when I had given up hope of ever being well.

I was a terrible sufferer from Dyspepsia—had suffered for years; and nothing I took did me any good.

I read about 'Fruit-a-tives' and tried them. After taking a few boxes, of this wonderful medicine made from fruit juices, I am now entirely well."

Madame ROSINA FOISIZ.

50c. a box, 6 for \$2.50, trial size 25c. At all dealers or send postpaid by Fruit-a-tives Limited, Ottawa.
