PRATT'S FLY CHASER

Keep the animals contented.
It is humane—sanitary—profitable to keep
flies away.

FARMERS know that cows give more and
better milk, that calves put on flesh
faster and that horses have more vigor and
vitality when not worried with flies. Flies
are not only scavengers—they are carriers
of germs and contagion. They not only
make cattle nervous and sick—they eat
up farmers' profits. It is humane to use
Pratt's Fly Chaser which effectively keeps
them away because the animals suffer
intensely in their dumb way from these
stinging pests.

Order your supply of Pratt's Fly Chaser
at once. Remember Pratt's is a guaran-
teed product—It's the work.

The demand far
exceeds the
supply

The efficiency of Pratt's
Fly Chaser is shown in the
fact that the sales increase
yearly to such an extent
that the supply is divided
among the various states
and provinces pro rata.
Our original shipment was
taken up so quickly that
we urged a second supply
one successfully. This is
now on hand. Get your
supply now.

The question of who should be
responsible for the collection of
accounts for medicines used at
the hospital was mentioned at the
Hospital Board meeting last night
and referred to the house com-
mittee for report.

The case of Rex vs. J. J. Ur-
lacher will again be heard on
Monday, August 2, when W. O.

tor.

ment will aid the work. At any
rate D. G. Stewart was given to

would do all in his power to for-
ward the plan. This was reported

BALL TONIGHT

Game Likely to be Peppery Affair
Owing to Even Standing.

This evening's baseball game
between the Colts and the Red Sox
ought to be one of the most pep-
pery affairs since the league com-
menced. Both teams are topping
the league with equal points. They
were even in position three
matches ago and then the Beavers
beat the Red Sox and the Colts
got a take down from the Saw-
mill. Once more they are even
and the end of the league is not
for distant and any points made
at this time will be an advantage
well worth having. At the end
of the first half of the league
games the teams were even, each
having won 4 and lost 2. Now
each is prepared to give the other
just as hard a go as possible for
the winning runs.

Sport Briefs

It brought delight to the local
Salt Lake enthusiasts to hear the
boys from Prince George prais-
ing the conditions for swimming
at the favorite spot across the
bay. One youth who particularly
delighted himself by spending
most of Wednesday afternoon
and evening there exclaimed "Oh
gee, if English Bay were only hot
like this."

The Butchers' baseball team
did themselves proud at their
dance in the McIntyre Hall last
evening. If it was the new suits
of blue and which which brought
the result, great things can now
be expected of them on the dia-
mond. They ought to be able to
show their rivals, the Tinkers
and the Chateaus, just how to
step around the sacks. They will
hit hard enough too so they can
clear the bases without having to
slide. Keeping the suits clean
will be difficult, however, as the
desire to steal a sack every once
in a while is too hard to resist.

Tomorrow night is the evening
for the engagement between the
intermediate all-stars and the
city senior team.

Is the rooting at the baseball
game tonight going to be like
some that has been heard during
the last few matches? Those fans
who enjoy baseball certainly hope
that the rooters will not let their
discretion depart in the excite-
ment of the moment and indulge
in personalities. Odious sugges-
tions and statements regarding
the features or personal matters of
any of the players should be
strictly left out. Some of the
younger enthusiasts forget them-
selves and instead of giving a
hearty yell like the fair maidens
do, are apt to wait for quiet and
then hurl out a few venomous re-
torts. Nothing should be said
which makes the speaker feel a
grudge against the spokesman.

At the meeting of the Hospital
Board last night D. G. McRae for
the finance committee reported
that Mr. Roberts had been retain-
ed to give part of his time to
opening a new set of books along
modern lines and to straighten-
ing out the old accounts.

29th May, 1920.

BEHIND every industry in Canada—

—from the patient truck-gardener bowed over his
lettuces—

—to the young manufacturer struggling to prove the
worth of Canadian skill and Canadian material in
some new enterprise—

—stand the railways—the intelligence, the power and
the hopes of the railways of Canada.

Not, like the Exploiter, watching to take harsh advan-
tage of hard-times or the follies of a boom—

Not seeking by a moment's shrewdness to "clean up a
million and get out!"

Not interested in the price of real estate in just ONE
town, or the prosperity of just ONE province—

But, instead, employing their widely-gathered
intelligence in the interests of all Canada for all time
to come!

For the railways of Canada cannot be lifted up and
carried away to serve any other master than Canada!

Their services cannot find any buyer but Canada!

They injure themselves if by asking too high returns
To-day they damage the prosperity of the citizens
of To-morrow.

The request for increased freight rates is made with
these facts in view.

Canada will still have the cheapest, the fastest and
the most reliable railways in the world!
