

The "Round" All Wood Horn

They sing INTO a round horn, and the Brunswick sends it OUT in a round horn.

That's a simple "secret" isn't it? And yet no one has ever made a round WOOD horn before—and more than that, no one ever will, because this is one of the exclusive patented features of

You never heard of a "square" horn in a band or any musical instrument; you never saw a square megaphone. We learned in High School that all sound waves travel in circles or ovals, yet you will not find any round horns or amplifiers in any of the old style Talking Machines. This one feature alone is responsible for much of the Brunswick's wonderful TONE. It makes every good record—of ANY make—better, because it is all wood. Yet the Brunswick costs no more than ordinary phonographs—prices of conventional models range from \$148 to \$395. Sold on easy payments.

Ask for Atkins' Sausage. 41

J. E. Arnheim of Vancouver is among the recent arrivals in the city.

Stationery, Toys, Kitchen hardware, China, Crockery, Glass, 20% discount at Denny Allen Co. 84

1,000 tons Nanaimo Wellington Coal have arrived for Albert & McCaffery, Ltd.; also 100,000 feet finishing lumber. Phone 116. 41

Denny Allen Co.'s August Sale. 20% discount. We have bought H. S. Wallace Co.'s entire stock of Crockery, Glass and China. 84

Hugh Boswell, bookkeeper at the Georgetown sawmill, arrived in the city yesterday and will be visiting here for a short time. On the trip over he was accompanied by John W. Forsyth of Vancouver.

Work on the repairs to the Burden Street School is now proceeding apace with two sides covered with rustic. The extra protection is being put on the exposed sides where the rain was wont to beat in during the winter time.

Tomorrow morning at eleven o'clock the Rex vs. Urlacher assault case will be heard before Judge Young. The accused elected for speedy trial some time ago, but on account of the sickness of Garnett, the victim of the assault, the case has been remanded several times.

In the Catholic Church ball last evening a very enjoyable social was arranged by Mrs. J. Lorne MacLaren and Mrs. Jack Keefe. The social was given in aid of the church funds and a large crowd attended. It was quite an informal affair and all present had a good time. The musical selections by local artists were the most delightful features on the program.

T. G. Duncan, superintendent of utilities, is busy this morning getting the fire alarm system into commission. It was temporarily deranged last evening and it means considerable trouble to get the intricate system into running order again on all the circuits. The firemen are out on the various boxes and "ring in" to the station. If one box answers on any circuit it means that the whole of that circuit is all right. In the meantime the telephones will be used by the citizens to report any outbreaks of fire.

LABOR LEADER'S WIFE SAYS LENIN OUTFIT GOVERNMENT BY SIX

Mrs. Philip Snowden, who was in Russia with other Labor delegates, in conversation with a press representative said: "I went into Russia with an open mind, but I have returned with the following decided objections to Lenin's Government. In the first place, it is not Socialism. There is no Socialism in Russia. Nor is it Communism as I understand the word. All the Socialism and Communism of Soviet Russia appears to be in their manifestoes. The land is supposed to be owned by the State, but the peasants pay no rent, and their eldest sons inherit the property. Apparently it is all a matter of labels.

"In the second place the Soviet is not democratic and makes no pretence of being so. Speaking politically, they think democracy is an outworn theory. They believe, of course, in what they call the dictatorship of the proletariat, but they have not even got that. They have only got the dictatorship of the Communist Party. As the Communist Party in Russia numbers at the most 600,000, it is obvious that it is the dictatorship of a small section. It does not stop there. The Communist Party is dictated to by a handful of people inside the party. When you get down to the bottom, the dictatorship of the proletariat means the dictatorship of about six men, aided by an Extraordinary Commission."

PLANS COMMISSION
SAN SEBASTIAN, Spain, Aug. 5.—The League of Nations plans to form a blockade commission to act in future wars.

Sport Briefs

The Butchers and the Tinkers are scheduled to play a baseball game this evening on the Aeropolis Hill grounds. Last week the Tinkers slipped it over the card-drivers whilst the meat-busters were in the turmoil of a mighty social splurge. Now the Butchers are out for gore and have picked the winners of last week's fracas as their meat.

Tomorrow evening the last football fixture of the 1920 league for the Mobley Cup will be played between the Callies and the Trail Club. The latter team has been steadily coming into prominence but has been unable to keep the Callies from getting into second place. However, a win for the Red Shirt boys tomorrow night means that the Trail Club has climbed to second place in the league. Monday night's disaster for the Callies, when the Sons of England licked them, must be recovered in order for them to maintain their present standing.

With "Cotton" Brynolson, brother of F. G. Brynolson of this city, the great Victoria stick handler on the field again for the first time in some years, the Victoria amateur lacrosse team took the first game in the home and home series away from the Sidney boys at the Royal Athletic Park on Saturday by the score of 7 to 3. Gaining his amateur card in the general white-wash which took place some time ago, after playing for the Vancouver professionals, Cotton who managed the Foundation team, which won the Mann cup last year, proved a big aid to the capital city boys Saturday's battle. In addition to coaching the boys on the field, playing second home position he got by for two tallies.

Last evening's baseball game between the Sawmill and the Beavers was postponed on account of bad playing conditions. The intermediate league committee will select another day as soon as possible.

It is rumored in the city baseball circles that one of the Lemmon boys have signed on for the Prince Rupert lumber team. He will likely take the "job" as back-stop and very few fouls of wild balls will get by him. He is well over the six-foot mark so he covers an area above the batter's head which no other catcher in the league can, and can reach down just as low as any of the others, but he shines on the high balls.

This week-end Anyox will likely be here with a football and baseball team to open a series with the local boys. A benefit match had been arranged by the footballers on Saturday afternoon but this will probably be postponed if the smelter town fellows are anxious for a game.

Wonder Health Restorer

The World's Great Herbal Remedy—Contains Nothing but Herbs—No Alcohol—No Drugs.

This preparation is the private prescription of one of the world's greatest herbalists—the result of a lifetime of investigation.

Thousands testify as to its wonderful effects for Asthma, Bronchitis, Catarrh, etc., Rheumatism in all forms, Indigestion and Stomach trouble, Nervous Complaints, Kidney and Bladder troubles, Female complaints, Children's Diseases, Skin Diseases, Piles, etc. A True Nature Treatment.

Ask your druggist for a copy of "The Road to Health." It tells the real facts about herb remedies—gives the actual experience of those who have used Wonder Health Restorer. On Sale in Prince Rupert by Prince Rupert Drug Co

THE through freight swings 2000 tons across a continent at 13 miles an hour. Alongside the old canoe routes on which the voyager in his time made 35 miles between down and dusk with say 400 pounds of freight. The old-time shipper paid two dollars a day—or 28 cents per ton per mile! The modern shipper pays less than one cent per ton per mile—the average of earnings on all freight carried is .999 of a cent per ton per mile!

LAST autumn a famous Canadian apple valley bore a triple crop.

Its usual overseas market was already glutted with cheap apples.

An empty American market lowered its customs tariff and opened suddenly with orders for scores of car loads for distant American points.

Fortune smiled on the growers—

But the American buyers added: "Shipments must be made in refrigerator cars to avoid danger from frost!"

Such cars are not common equipment. Hundreds would be needed by the small local railway which in other years had required only box cars for the short run to the nearby ocean ports. The demand for refrigerator cars in other parts of Canada was heavy. American lines—to whom the apples were destined—could send none! The success or failure of the apple growers' whole year's work hung in uncertainty!

Yet the railways of the Dominion, co-operating through the Railway Association of Canada, were able to meet the situation.

Authority was obtained to commandeer any empty foreign refrigerator car found in Canada.

Across three transcontinental lines and in every siding, yard or terminal these cars were hunted out.

Every carrier in Canada helped rush them East to a point where they could be fed into the overflowing orchard lands.

Over a million barrels were loaded and moved successfully to market without injury from frost.

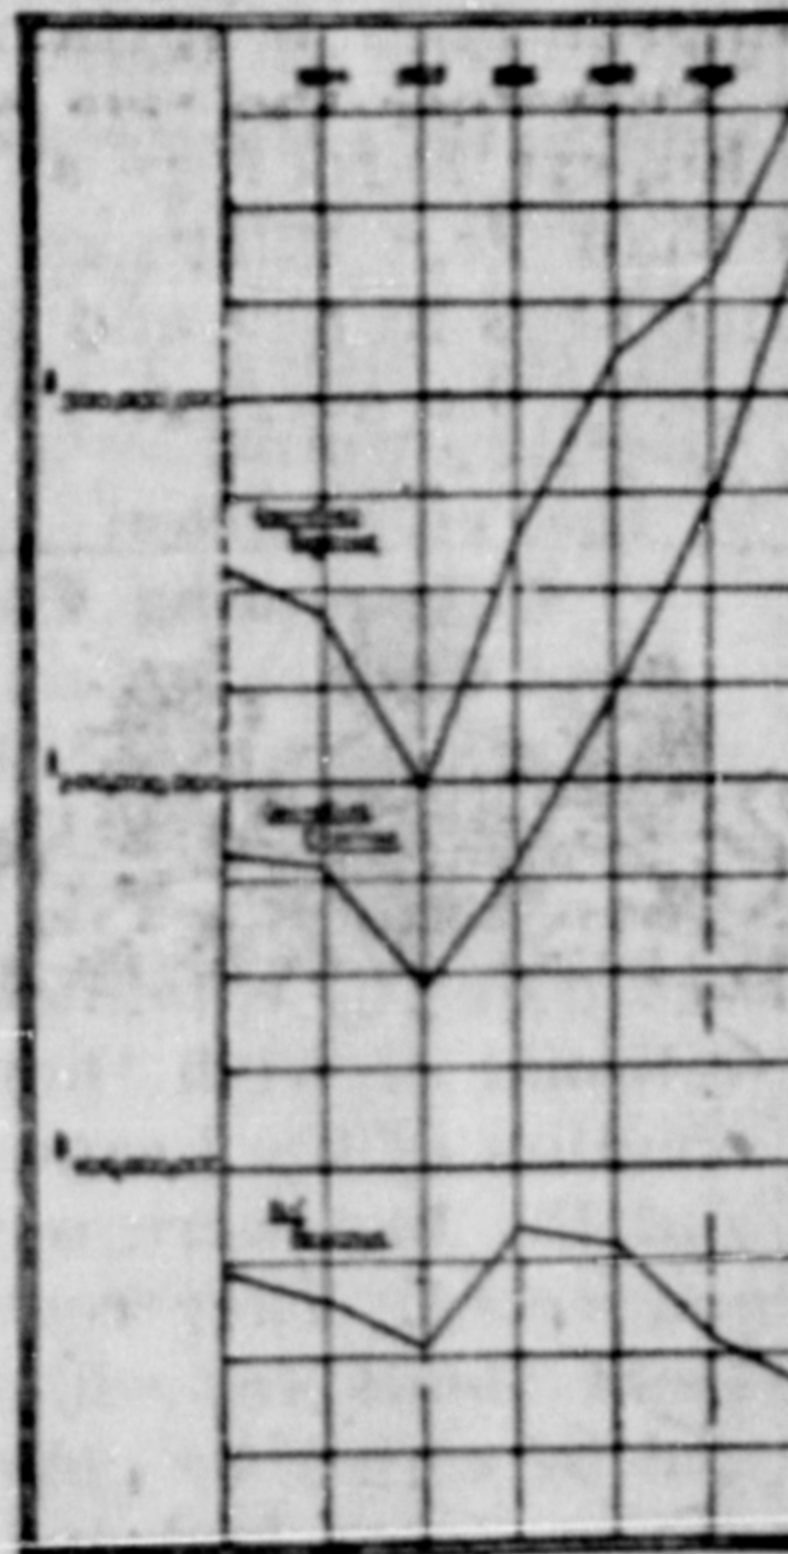

This illustrates the spirit behind the railway service of Canada.

Its effectiveness will be broken, however, if railway net revenues continue to fall. Increased freight rates are essential

This is the fifth of a series of advertisements published under the authority of The Railway Association of Canada formerly the CANADIAN RAILWAY WAR BOARD

Explanation of Chart:

Top line shows the rise of Gross Revenue.
Middle line shows the more rapid rise of Operating Expenses.
Bottom line shows the downward plunge of Net earnings as a result of the rise in the middle line—Operating Expenses.

Coal Raised Again at the Mine August 1st

We have 600 tons on hand that the raise does not affect.

PUT IN YOUR WINTER'S COAL NOW AND SAVE MONEY
Nanaimo-Wellington is the cheapest and most economical in the end.
