Sport Briefs

Bill Sherman made his appearance on the line-up of the Sawmill baseball team last evening and held the position of left field. Bill is the fast-stepping short stop of the Butchers' team and his appearance on the intermediate league shows that all the teams are out to gather in the best material they can. The fine feature is that all the team managers have been coaxing out all the local boys they can.

Sid Jones the first baseman of the Red Sox was off at a flying pace last evening when it came to batting. As clean-up man his hits generally did good work. At first base a number of the rival players ambled down to second when the ball went by Sid and hit the rack pile. However, wild pegging was to a great extent responsible for this.

It was the greatest satisfaction to players and fans alike to have two such competent umpires as Harry Day and Dick Rossion last evening. Their decisions were given and it was not with any doubt that they pronounced verdict on any play. This was brought out especially in the play at second base in which the runner went home on a pop fly and never came back to touch the bag. He went right home but Dick Rossion had called him out a long time before the opposing factions had started to squabble around the benches.

Tomorrow night will be the first football game of the Gilhuly Cup series. When the Sons of England and the Callies meet in football it generally means a good game. Last week's match in which the Englishmen decidedly slipped it over the Scotchmen has put new life into both sides.

Tommy Sherman, playing in left field for the Red Sox last evening, caught some dandy flies. His batting helped out considerably for he was connecting pretty well last night. His rival for fielding honors in the Sawmill team was Maurice Fowler, who was grabbing them off thick and fast in the centre section.

Joe Abbott was working hard behind the plate last evening. He was well harnessed for the catching game and in spite of all the jests from the grand stand maintained a good steady hold of the play and his team. His trick play would not have been so well engineered at second base if Louis Astoria had not been content to put him out and then fall over him while the man on third went home.

Last evening's match was one of the most largely attended that has been staged this year. Ideal weather conditions prevailed and it was a pleasure for the fans to see such a close and thrilling game. The evening being so mild and warm it was more than pleasant to sit outside apart from watching any baseball that might be going on. Very few of the large number of fans left before the very last play was made, for the issue had been rather see-saw all evening and a last minute blow-out meant much for one team or the other.

BEHIND every industry in Canada—

—from the patient truck-gardener bowed over his lettuces—

—to the young manufacturer struggling to prove the worth of Canadian skill and Canadian material in some new enterprise—

—stand the railways—the intelligence, the power and the hopes of the railways of Canada.

Not, like the Exploiter, watching to take harsh advantage of hard-times or the follies of a boom—

Not seeking by a moment's shrewdness to "clean up a million and get out!"

Not interested in the price of real estate in just ONE town, or the prosperity of just ONE province—

But, instead, employing their widely-gathered intelligence in the interests of all Canada for all time to come!

For the railways of Canada cannot be lifted up and carried away to serve any other master than Canada!

Their services cannot find any buyer but Canada!

They injure themselves if by asking too high returns To-day they damage the prosperity of the citizens of To-morrow.

The request for increased freight rates is made with these facts in view.

Canada will still have the cheapest, the fastest and the most reliable railways in the world!
