WHICH POWER BOAT IS THE SPEEDIEST?

Haleyon's Owner Fancies He Has One That Will Lead All Others.

Who has the speediest power boat in the harbor? That is a question that has been debated at some length by launch owners of late and, in view of the approaching fall fair races, interest in the question is on the increase.

Last Sunday Mr. Atkinson of the sawmill had his little flyer, "Haleyon," across at the lakes, and he is inclined to think he can develop more speed with it than Kenny Rod can with his "Buddy." The Haleyon has a top that tends to retard progress, especially with a breeze blowing. Mr. Atkinson is not sure whether he will enter his boat for the races. Everyone will be looking for the Haleyon, however, and it is to be hoped that the fine little craft will be there. The raised cabin is the drawback.

SOLDIERS' HOUSING

Complaints That Some of Buildings Not Properly Finished.

At the City Council meeting last night there was some criticism of the soldiers' housing work. Ald. Casey said some of the soldiers claimed they had got short change. If the work had been approved, the building inspector had not done his work properly and he thought he was due for a jacking up. He had been shown a shabby piece of work in one of the houses. It was not doing fair by the city or by the soldiers.

Mayor McClymont said there was one instance in which they had held the building inspector personally responsible. The city had spent \$100,000 in all and it was possible the city might be stuck for a sum of \$130 and even that might not be. There had so far been no final settlement. He did not think that was bad in handling so large a sum. They were going to see that the soldiers were treated right before a complete settlement was made for the work.

The following fishing boats had their catches up for sale at the Fish Exchange this morning:—
Corona, 24,000; Star, 10,000; Bravo, 5,000; Tramp, 10,000; Teton, 8,500; Ringleader, 7,500; Fanny E., 9,000; Sunrise, 5,500; and Joe Baker, 6,500 pounds.

TELKWA

The Telkwa Hotel has been sold to Mr. Freeman Young of Melfort, Sask. Mr. Young intends to make improvements on the building and generally bring the hotel to be known as a good house.

Jack McNeil has returned from Alberta, where he spent two weeks on holiday and business. He brought back a car load of one and two year old colts for his ranch.

The Telkwa Lumber Company (Svenson, Chapman & McDonald) have now completed the installing of their new machinery. Theirs is the most complete planing mill and sash and door factory between Prince Rupert and Prince George.

Dr. Wrench has been looking over the new district hospital. He advises that the plumbing contractors from Prince Rupert will be here in a few days to arrange for the installation of the heating plant.

Good progress is being made by the various committees for the Barbecue at Telkwa, which this year has every prospect of being a large affair. The stock sales are expected to attract good entries. All that is needed is good weather.

Messrs. Goodwill and Foreman have completed the water system for the district hospital.

Haying is well under way and the crop is going to be an average one.

Good progress is being made with the new Union Church, which should be completed some time this month.

The salmon are starting and very shortly we will be having the usual romantic and ever-fresh stories of the big ones that got away.

We have another Small Shipment of PRATT'S FLY CHASER

Keep the animals contented. It is humane—sanitary—profitable to keep flies away.

FARMERS know that cows give more and better milk, that calves put on flesh faster and that horses have more vim and vitality when not worried with flies. Flies are not only scavengers—they are carriers of germs and contagion. They not only make cattle nervous and sick—they eat up farmers' profits. It is humane to use Pratt's Fly Chaser which effectively keeps them away because the animals suffer intensely in their dumb way from these stinging pests.

Order your supply of Pratt's Fly Chaser at once. Remember Pratt's is a guaranteed product. IT DOES THE WORK.

The demand far exceeds the supply

The efficiency of Pratt's Fly Chaser is shown in the fact that the sales increase yearly in such a rapid manner that the supply is greatly in excess of the demand. The original supply of our original supply was taken up so quickly that we urged a second supply now on hand, set for supply now.
