NOTICE TO CONTRACTORS.

PRINCE RUPERT WHARF EXTENSION. Tenders will be received by the Honourable The Minister of Public Works up to noon, the 9th day of August, 1920, for the erection of New Timber Wharf Extension to the Present Wharf, at Prince Rupert, B.C.

Plans, specifications, contract and forms of tender may be seen on and after the 14th day of July, 1920, at the office of the Provincial District Engineer, VICTORIA, B.C.

By application at the above mentioned offices, contractors may obtain a copy of the plans and specifications for the sum of five dollars (\$5) or a marked cheque for that amount, which will be refunded on their return in good order.

Each tender must be accompanied by an accepted bank cheque on a chartered bank of Canada, made payable to the Honourable The Minister of Public Works, for a sum equal to five per cent (5%) of the tender, which shall be forfeited if the party tendering declines to enter into contract when called upon to do so, or if he fails to complete the work contracted for. The cheque of unsuccessful tenderers will be returned to them upon the execution of the contract.

The lowest or any tender not necessarily accepted.

CANADA anticipates a period of growth.

Her raw materials remain the envy of her competitors.

She commands capital and skilled workmanship.

Her position in the British Empire gives her prestige and opportunity.

But whether she realizes her hopes fully or only partially rests to no small degree upon her steam railways.

CLOSER to Orient or Europe than is any other part of the NewWorld.

Canada would lose this advantage if her railways proved unable to carry her goods quickly to these well-placed ports.

She must be prepared for any development of traffic east-bound or west—or south.

HER rail service must be elastic and dependable. It must have reserve capacity, whether to roll a bumper wheat crop east, or some other Canadian product west-bound for Siberia or the Antipodes.

Elasticity, dependability and reserve capacity are profoundly affected by the overwhelming increase in operating expenses as compared to revenue.

THIS is another reason why increased freight rates are necessary in the public interest!
