MILD CURE IS SELLING WELL

Salmon From Alaska Marketed in Seattle.

SEATTLE, August 13.—With a clear market, mild cure salmon prices stiffened during the week, but shipments of Alaska mild cure are inferior and unable to compete with the Columbia river pack, according to fish brokers in Seattle. Suitable Alaska packs are quoted at 28 cents with ready sale, while large sums of money have been sent from Seattle to Columbia river mild cures to get all orders filled by the Columbia river mild cures.

The first shipment of Kuskokwim mild cure reached Seattle during the week. The shipment was a small one and of very inferior quality. For some unknown reason the salmon appeared to be starved.

Hal S. Finch, of the Fish Clearing House, says most of the Alaska mild cure is arriving from the Ketchikan district, but that the shipments are small fish. From the Point Conclusion district it is believed the mild cure pack will not be ten per cent of normal.

Finch complains that the Alaska pack this season does not compare with last season's pack. He says until the Columbia river mild cure is cleared from the market it is almost impossible to market the Alaska pack, as the quality and size of the Alaska fish discriminates against it. He explains this on account of the Columbia river pack running 70 per cent of sixty sides to the tierce, 20 per cent between seventy and eighty sides, while the percentage of small fish in the Alaska pack is very heavy.

"Quality comes first," said Mr. Finch, "then comes method of mild curing."

HAZELTON

Miss Kemp of Kitwanga was the guest of Mrs. J. C. K. Sealy last week.

L. C. Swales has returned from a visit to Edmonton during his vacation.

Mrs. W. W. Anderson and two daughters and Mrs. Jas. MacKay and two daughters have gone to Smithers where they will spend a few days visiting with friends.

Miss Florence MacDougall has returned from Edmonton and Calgary where she spent a very pleasant holiday vacation.

Dr. and Mrs. Beach of Terrace were visitors in town for the past week and have returned west.

Mrs. N. P. Moran and son Raymond have returned to Smithers after being here for a few days. A short time was spent in the south for the benefit of Raymond's health.

Mrs. Breckon has returned to her home down the river after having spent a short time visiting with friends here.

The first Ford car of the Hazelton district has now gone to Kitwanga where it will be operated as a delivery truck by Bob Sam- pare. Here, too, it will still maintain the distinction of being the first car.

There is a marked scarcity of houses for the present. Inquiries have been received from Prince Rupert for accommodation for the summer. Many requests have had to be refused.

RACE WAR ON FISHING BANKS

Austrians and Japanese in California Keep Up Incessant Warfare

SAN DIEGO, Aug. 12.—Investigation by the local police convinced them that warfare which has been carried on intermittently for several years among Austrian, Italian and Japanese fishermen on the fishing banks off the Lower California and Southern California coasts has broken out afresh and with at least two casualties.

Two bodies found floating in the bay several days ago have been identified as members of the crew of the Japanese fishing smack Yamota, operating under charter to the Long Beach Fisheries Company.

The Yamota, according to evidence gathered by the police, crashed into the jetty at the entrance of the harbor ten days ago and sank. According to the police, several other fishing boats have entered the harbor with their cabins and upper works almost riddled with bullets, and it is reported that practically every fishing boat leaving this port or San Pedro goes heavily armed.

The police said the situation had been aggravated by the coming to the banks of Austrian manned purse seine boats from Puget Sound and that the Austrians were charged with having destroyed thousands of dollars' worth of nets and gear belonging to Japanese and Italian fishermen from Southern California.

TERRACE

Mrs. Helen Little who has reached the ripe old age of 86 years had the great pleasure last week of having a family reunion at which the largest number of her descendants gathered together at one time for over twenty years. The interesting part of the affair was that though all the children were born in Ontario, the reunion took place almost across the continent, in the far west. The gathering was held on George Little's lawn.

Last Friday evening a farewell party was held at the home of Mrs. E. J. Moore in honor of the Misses Steeves who have now left for their home in Alberta. A big crowd of young people attended and the entertainment took the form of a dance. Supper was served at the close of the enjoyable event.

On Wednesday afternoon the ladies of the Presbyterian Church met at the home of Mrs. Sundal for guild discussion.

Mr. Woodcock, who injured his wrist while working at the mill here, is still confined to the Hazelton Hospital and does not expect to be discharged for some time.

Mr. Wilson, Ford representative for B. C., was a visitor in town last week and with C. A. Waite made a tour through the surrounding district, touching at Kalum and Lakelse Lakes.

Pat Kilmartin has opened up a soft drinks and confectionery store in the building formerly occupied by L. H. Kenney.

Geo. Clothier, provincial government mining engineer, has gone to Kalum Lake to look over some mining properties.

Mr. Turnbull of Hazelton district forest ranger, was a visitor in Terrace last week.

In the best of good spirit and healthy rivalry, the farmers of Bulkley Valley have challenged the ranchers of Terrace, Kitsumkalum and Lakelse valleys to bring their best to the second annual Bulkley valley fall fair at Smithers.

SPECIMENS OF YAK ARRIVE AT DAWSON

The first specimens of yak ever in Yukon arrived in Dawson last evening on the steamer Casca, and left here this afternoon on the Yukon, says the Dawson News. They belong to the American government, and are being shipped to the government experimental farm at Fairbanks. They are shipped in large crates. The animals are about the size of the ordinary Jersey Cow, but are

black and stocky, with long dark hair. The yak is a native of the cold regions in the high altitudes of Tibet, where altitude has engendered them to the cold as northern latitudes do the musk oxen of the Arctic. The general form of the animals seen here today was not unlike that of a steer. Although the yak has horns in its natural condition, the two which were here today were hornless.
