NICK GURVICH HAS BIG MINE

Recently Became Sole Owner; Will Soon be Shipping 300 Tons per Day.

Nick Gurvich is in town on business in connection with his coal mine at Coalpur, Alberta, on the Mountain Park branch of the Grand Trunk Pacific Railway and leaves tonight for Alice Arm. Recently Mr. Gurvich made a deal for the sole ownership of the mine which is showing great promise. The property is now under option to Dale and Oils, of Winnipeg, for lease at a large figure.

At present 35 men are engaged at the mine and 75 tons are being sent out per day. In two months, Mr. Gurvich says, he will be shipping 300 tons. Tom Davis, formerly of the Michel Colliery, is in charge at the mine and Alex Susner is secretary.

ADMIRALTY GIFTS ARE COMING SOON

Oil-burning Cruiser Aurora for Canada—Send "Subs" to Lakes.

Ottawa, August 18.—Toward the end of September the flotilla of naval vessels comprising an oil-burning cruiser, the Aurora, two destroyers and two submarines, which are the gift of the British Admiralty to Canada, will arrive at Halifax. After a demonstration there they will be brought to Quebec, and later to Montreal. If it is found practicable the submarines will be brought up some of the Canadian canals to the Great Lakes. If their draught is sixteen feet, as is supposed, this may be a matter of difficulty.

It is the intention to keep all these vessels at sea as a training to officers and crew to form a nucleus for working out any future naval policy adopted by Canada as a result of the 1921 Imperial Conference and subsequent deliberations in Parliament. The obtaining of the Aurora, an oil-burning vessel, is a subject of some self-congratulation to the Government, as it is understood that Admiral Jellicoe, when in Canada, informed the Dominion Government that there was no hope of any vessels other than coal-burning vessels being taken over.

The story goes, however, that the minister of marine has persistently and consistently refused every coal-burning cruiser offered, and that representations made concurrently in London that only a modern vessel would make Canada consider it worth while, eventually brought about the offer of the Aurora.

There are now nine senior league players out of baseball jobs as far as Captain Clementson and Ben Sell are concerned. The team will be disbanded and the circuit tour which had been proposed earlier in the year will not be carried out. On the whole Prince Rupert has had more ups and downs in the baseball field this year than in any former season and it is rather disappointing to many now to see the boys having to separate just after they were beginning to get around to play good baseball.

The proposed battery for the Beavers this evening is Curtis and Joe Hatchford, with the former on the mound. This is a new position for Curtis but in whatever position he has played so far he has always shown up in good form. Joe has been behind the bat before and he knows how to bring the best out of a pitcher.

The Red Sox will miss the assistance of Sid Bazzett-Jones if he is unable to play this evening. For the last few days Harry Weber's first baseman has been suffering from a blood-poisoned hand which may hamper him somewhat. His timely hitting adds considerable weight to the batting average of the line-up.

SPECTACULAR FILM TONIGHT

"The White Heather" Offers Something Brand New in the Movie World.

Maurice Tourneur's latest Paramount-Artcraft production "The White Heather" is showing at the Westholme Theatre tonight. The story is adapted from the famous Drury Lane melodrama of the same name. The background of this melodrama is divided between the Scotch highlands, the London financial district, the slums and the sea.

The narrative chiefly concerns the efforts of an unscrupulous nobleman to repudiate his marriage to a pretty commoner, the only record of the wedding being in the submerged wreck of a yacht. The tale ends in a struggle between the hero and the villain at the bottom of the sea in which both are struggling to obtain the certificate, which is locked in a water-tight chest in the wreckage of the boat. The latest invention of the Williamson Brothers was used by Mr. Tourneur in taking the subsea scenes, and some very startling effects were obtained. Photographically, the picture is superb. Many of the exterior scenes brought forth applause from the audience, and the spectator will find genuine thrills in the fight between the villain and the hero on the ocean bottom. This feature of the production is in itself well worth seeing.

Headed by Mabel Ballin as the heroine, the company includes H. E. Herbert, Ralph Graves, Jack Gilbert, Spottiswoode Aitken and last, but by no means least, little Ben Alexander.

DEPARTMENT OF MARINE AND FISHERIES, OTTAWA, ONT.

June, 1920.
SEALED Proposals will be received at this office until 12 o'clock noon, on the 9th day of August, 1920, for furnishing the materials and labor of all kinds necessary for the construction, equipment and delivery of a proposed Steel Twin screw ice-breaker of the following leading dimensions:

Washing after every wearing saves Silk Underthings

HALF the charm of silken things lies in keeping them fresh and sweet. Moreover perspiration discolors and shortens their life. Why not wash them after every wearing?

It's delightfully simple. Use the pure, gentle, cleansing LUX suds. Make just a bowlful, anywhere, any time. Just dip them up and down—press out the water—rinse—iron with a warm iron—and it's done.

LUX will hurt no fabric that pure water may touch. Sold at all grocers and departmental stores.

Recipe booklet "The Care of Dainty Clothes" mailed on request.
