Proposed Transportation  
Scheme from Terrace.

The transportation scheme outlined by Col. Muerling to tap the rich mining district north of Kitsumkalm Lake, holds out great possibilities for the development of that district. It is one of the first proposals made for the people to help themselves instead of depending on the government. There are always people benefited by schemes of this kind and they are now being asked to aid in forwarding it.

The News has taken the trouble to investigate the proposal to some extent and has found that the richness of the district is such as to warrant the expenditure. E. F. Michaud of Terrace, an experienced prospector, who knows the country well, says that there are plenty of ores there running from two to three hundred ounces to the ton which would pay well to ship, even if the freight charges were high. J. D. Wells, who is particularly interested in the Usk neighborhood, is enthusiastic over the scheme. He says he thinks there are many communities besides Terrace that would do well to make it possible to ship ores from some of their mines in order to show the mining world what can be done. He says he knows of the Kitsumkalm Lake and Cedar River district and the richness and quantity of the ores fully justify the people going ahead with the proposal. He suggests there would be no difficulty whatever in keeping up the shipments. Col. Muerling says he has investigated the ore bodies and there are good showings of free gold, free silver, grey copper bearing silver, copper, lead, and carbonate of soda.

Lorries Would  
Aid in Settlement.

There is a fine agricultural district in the Kitsumkalm valley but the lack of transportation facilities is holding the country back. The same lorries that would carry ore and timber to Terrace would haul supplies to the mines and farms and would also carry passengers to and from the interior points. There would be no end to the possibilities.

Prominent Visitors  
To the City.

Prince Rupert is being much favored this year in the presence of prominent visitors. Already there have been very important personages here from Ottawa. Today Mr. Bowser is in the city and on Wednesday Premier Oliver is expected to arrive accompanied by the local member. We welcome them all. We hope to see them return and when others come who have promised, such as Premier Meighen and Mackenzie King, we shall show them that we are not an inhospitable people in the far west.

Wonderful Possibilities  
Of Interior Country.

The interior country, tapped by the line of the G. T. P., is a wonderful country. It holds immense possibilities and the interesting thing is that development has already commenced and is well under way. True there are districts untouched and other districts scarcely scratched. The lumbering industry is well under way, however, and that is the first step toward agricultural development. There is no difficulty in disposing of the land, once the timber is off.

A few people are holding up the country by refusing to cut up their land or sell it. They are trying to get rich at the expense of their neighbors. On the whole, however, there is a steady development going on that is permanent in its nature and likely to lead to much greater things in the future.

HIS LIFE RUINED  
BY DYSPEPSIA

Until He Tried "FRUIT-A-TIVES"  
The Wonderful Fruit Medicine

MR. FRANK HALL  
Wyosale, Ontario.

"For some 420 years, I was a sufferer from Chronic Constipation and Dyspepsia.

I tried every remedy I heard of without any success, until the wife of a local merchant recommended 'Fruit-a-tives'.

I procured a box of 'Fruit-a-tives' and began the treatment, and my condition commenced to improve immediately.

The Dyspepsia ceased to be the burden of my life as it had been, and I was freed of Constipation.

I feel that I owe a great debt to 'Fruit-a-tives' for the benefit I derived from them."

PRINCE RUPERT TIDES

Monday, August 23.  
High, 9:25 a.m., 41.8 feet.  
2:15 p.m., 16.9 feet.  
Low, 3:3 a.m., 7.3 feet.  
14:53 p.m., 10.3 feet.  
Tuesday, August 24.  
High, 10:32 a.m., 15.4 feet.  
2:12 p.m., 17.2 feet.  
Low, 3:14 a.m., 6.8 feet.  
10:16 p.m., 10 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

MINING EXPERT IS  
SURVEYING MOUNTAIN

Dr. Mandy of U. S. Consolidated  
Making Expert Examination  
of Borfite Mt.

Dr. Mandy, representing the U. S. Mining and Smelting Co., is making a geological survey of Borfite Mountain near Usk on behalf of his company. This is in connection with a number of rich claims on the mountain which have interested the big concern recently.

While Dr. Mandy is doing this work, Mrs. Mandy is enjoying a visit to Lakelse Hot Springs.
