CAN
DOLED!DOROTHY DALTON IN
PARIS UNDERWORLD

"L'Apache" Gives Popular Star a Completely New Dual Role, a Parisian Dancer.

Dorothy Dalton has been seen as a western dance hall girl, as a travelling saleswoman, as a trained nurse and as a society woman. In fact she has played in almost every conceivable role with consistent popularity, but conceive of her as a Parisian Apache, a dance hall girl in the mysterious haunts of Paris that the police never enter. Imagine the fire, the emotion, the beauty she would throw into such a role.

In "L'Apache" the new Paramount Aircraft picture showing at the Westholme Theatre tonight she has such a role. Only she is not a real Apache but an American art student who has fallen into the clutches of the gang and cannot escape. Playing a dual role she is seen in two big emotional parts in one picture.

The play is indeed interesting and is wonderfully produced. The underworld of Paris has been reproduced with the utmost verisimilitude and its direction has made it a masterpiece, a show well worth seeing.

MINISTER PLEASED
WITH MARINE STATION

Complimented Captain Saunders Upon Trim and Complete Appearance.

It looked like an invasion when the fishery cruiser Marfish (previously better known as the Thomas Crosby) arrived at Digby Island on Friday evening, but the invaders proved to be the bodyguard to Hon. G. C. Ballantyne, minister of marine and fisheries, on his official visit to the marine depot at Digby Island. It was an eye-opener to many of them to see the station with all its paraphernalia of aids to navigation. Its well kept and trim appearance was a pleasure to all and the building operations which are now proceeding at full blast gave it an air of bright business. Doubtless it was the first visit of many to the plant and certainly a new experience for nearly all to travel in an official government cruiser. No cases of malfeasance were reported on the way over.

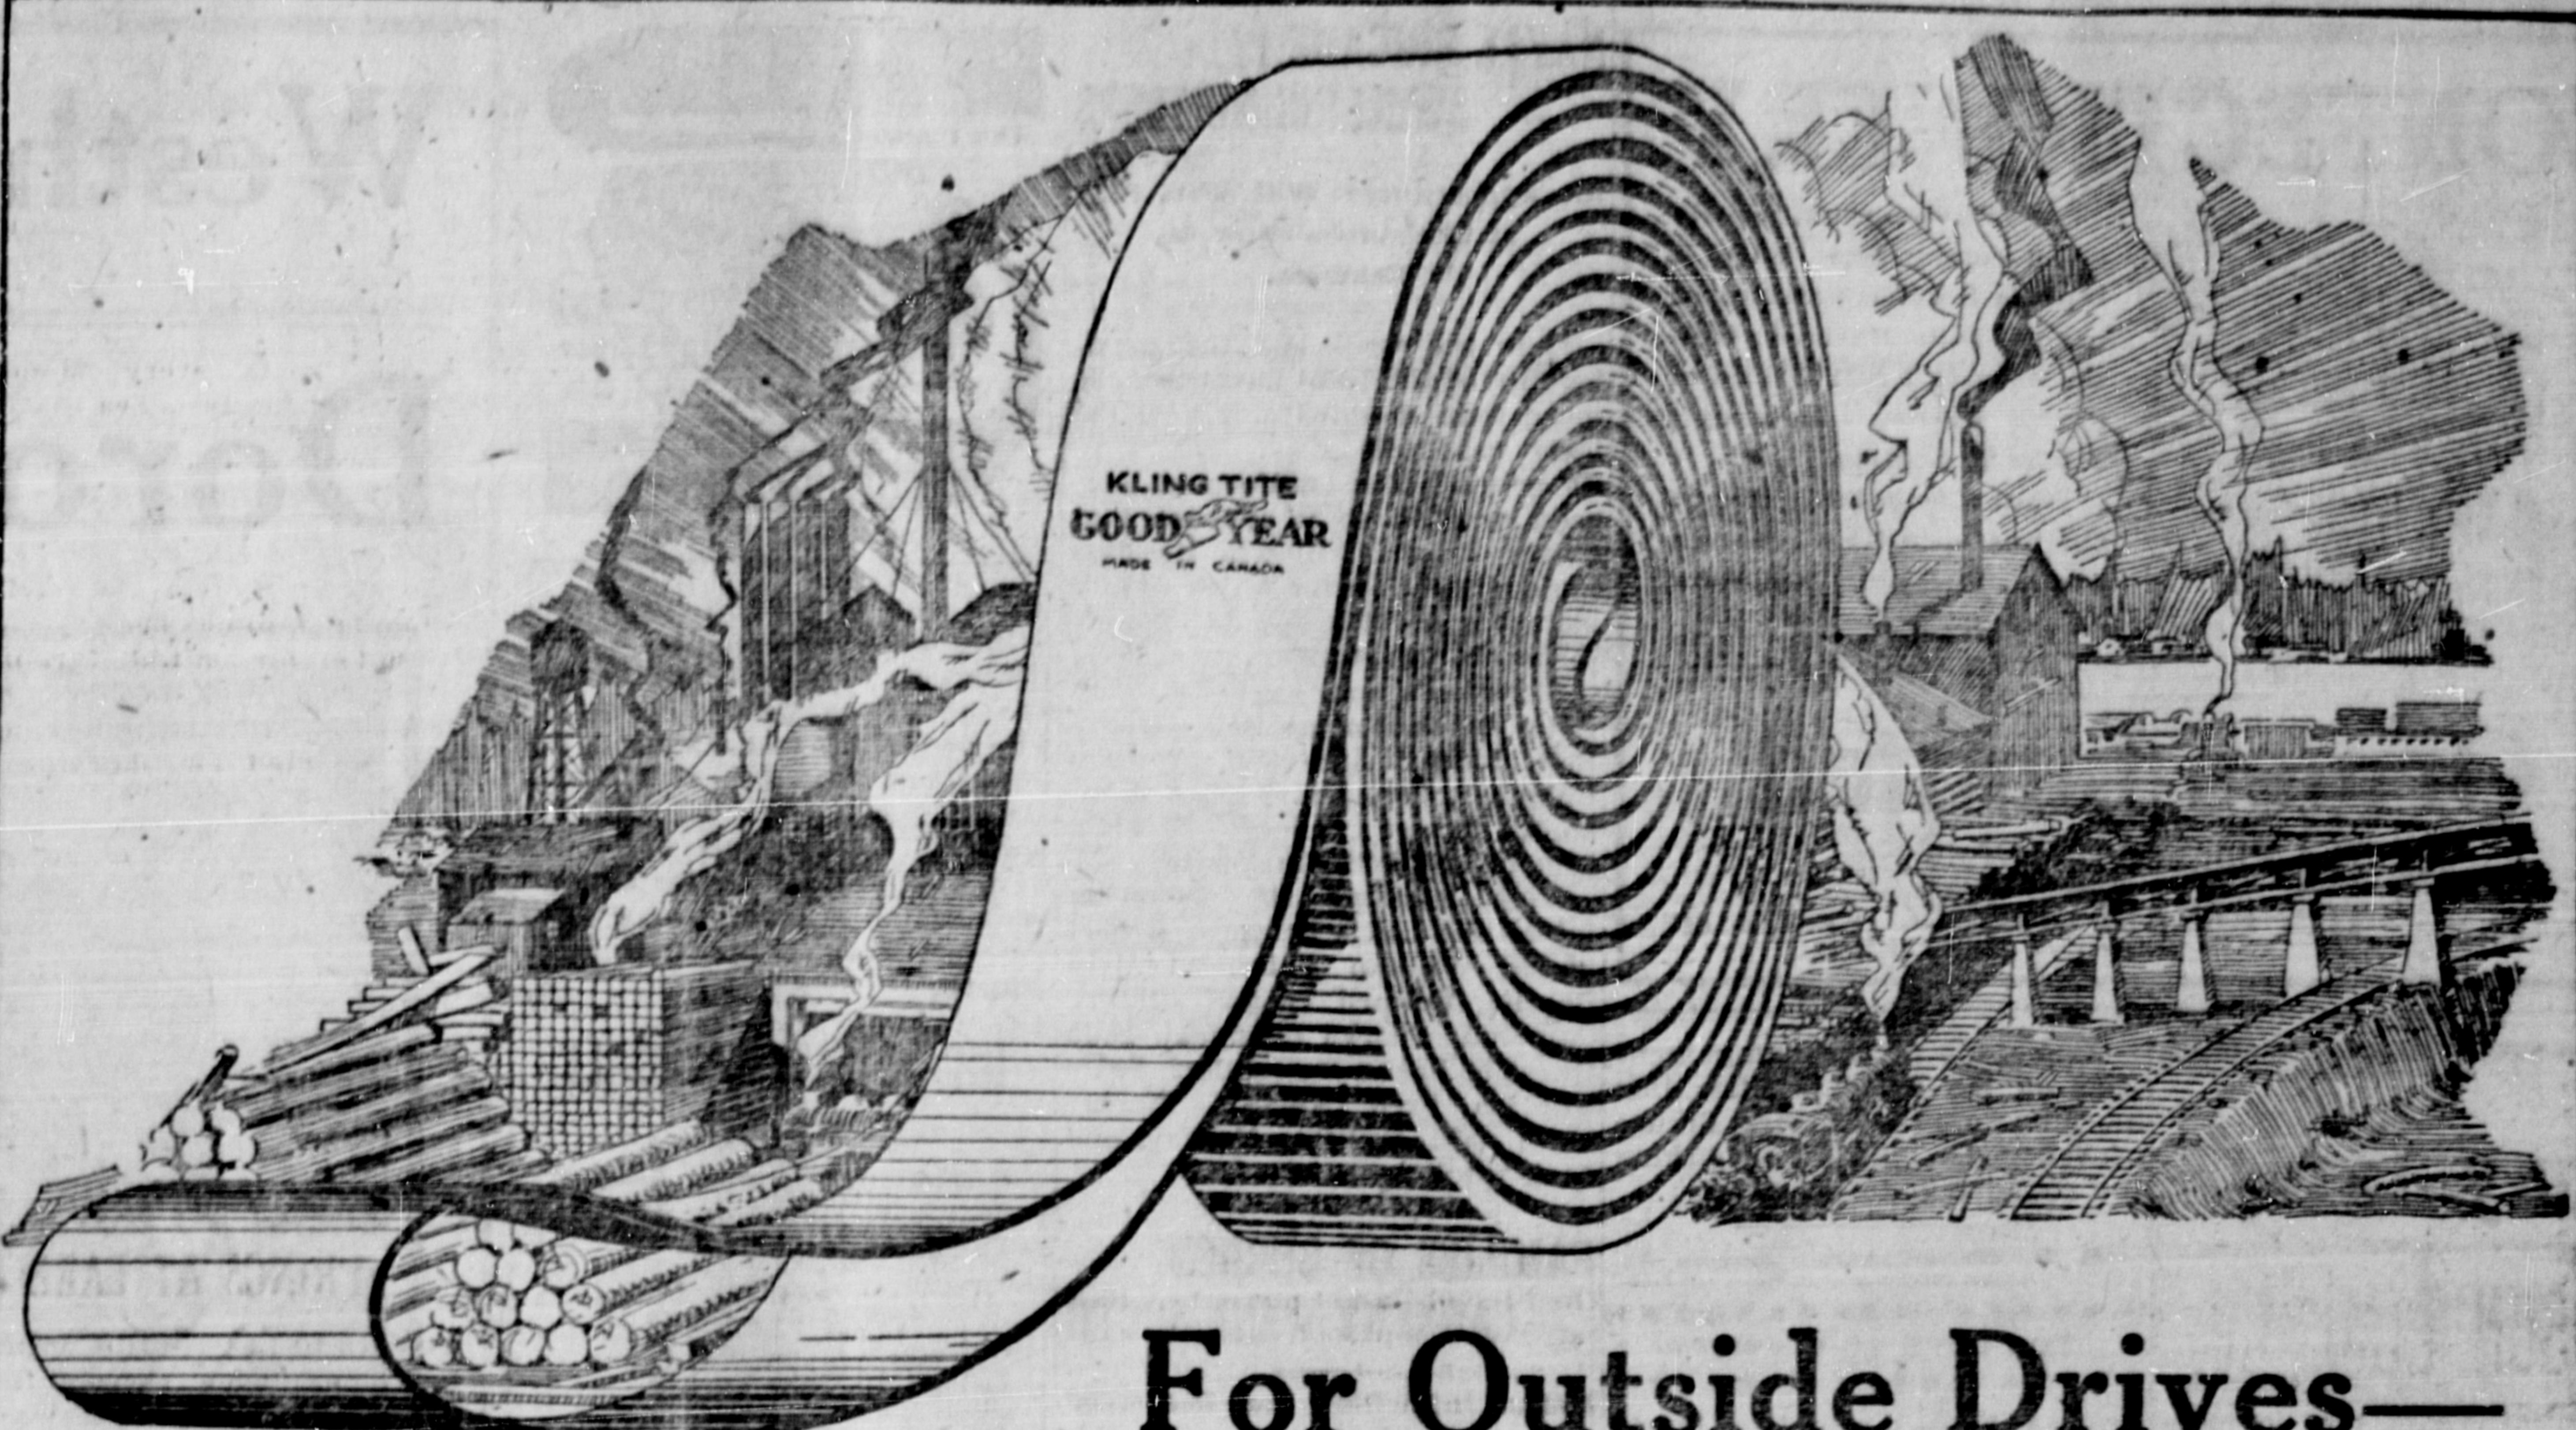

Hon. G. C. Ballantyne made a very comprehensive survey of the premises and was pleased to signify his pleasure at seeing the place in such fine shape. Nor was the minister remiss in thoughtfully complimenting Capt. Saunders, the marine agent, on the completeness of the station. It suited perfectly the work for which it had been established.

Sport Briefs

Tonight's baseball game will be one of the most eagerly watched matches of the whole intermediate league. The two contending parties in tonight's event are the Colts and the Sawmill. If the former win then the Red Sox will have to beat them on Friday night in order to tie with them. But if the Sawmill win it will bring the status of the present leaders, the Colts and the Red Sox, to the same. This will then make the game on Friday night a real whirlwind decisive affair. In order to ensure winning the league the Colts must win this evening in order to stake a final victory over Harry Weber's nine on Friday night. The Sawmill, however, are out to make things as interesting as possible; for they are still in the running for second place should the Colts lose both matches.

In the football game on Friday night Davie Wiggins of the Callies forward line had the misfortune to injure his leg. The blow from being checked rather heavily by the foot of an opponent opened a wound which he had received on overexposure. He has been compelled to limp about the city for the past few days.

This week will be an important one for those who have been taking an interest in the outdoor games here. Two baseball games which will practically complete the issue of the Intermediate league will be held, one tonight and one on Friday. On Wednesday the final for the Gilhuly Cup will be played between the Callies and the Trail Club. Interest will likely lag now to some degree un-

For Outside Drives—
KLINGTITE—an All-Weather Belt

The service given on outside drives by Goodyear Klingtite Belting (formerly Extra Power) is unusual enough to be of interest to every belt user.

Not because there are a great number of outside drives—but because the outside drive is just about the ultimate test of a belt's ability.

The specially designed fabric of Goodyear Belting gives it the strength to withstand brutal outside service.

But the best of cotton will rot and whip to pieces outdoors if not protected.

So we have forced generous quantities of high-grade rubber through and through the plies of Goodyear Klingtite Belting, forming one solid unit, proof against weather and ply separation, yet flexible, pulley-hugging, efficient.

The special friction surface on Goodyear Klingtite Belts (formerly Extra Power) grips through dust or moisture and prevents slipping.

How well these belts serve is evidenced by this letter from the Beaver River Lumber Co. regarding their Extra Power Belt (now Klingtite). At last

report (June, 1920) this belt was still in service after 32 months' use, when this mill was burned recently.

In their letter the Beaver River Lumber Co. say: "The belt driving the conveyor runs direct from a small engine to the conveyor drive. It is subject to steam and heat in the engine room and to cold and dampness on the outside. Under these conditions, there is no sign of deterioration and there is no slippage."

The same testimony is advanced by hundreds of farmers and threshermen who bought Goodyear Klingtite Belts (under their old name of Extra Power) for severe outside service on the farm.

If you have an outside drive, by all means investigate Goodyear Klingtite Belts. If you have any transmission drive, let a Goodyear Belting man show you how Goodyear Belts, which are good enough for outside service, will render heaping value on inside work. Phone, wire or write the nearest Goodyear Branch and a man will call without obligation to you.

til the time for the Fall Fair events arrives.

HONEYMOON COUPLE
HUNTED BY COUGAR

Alarming Experience for Young Folks on Vancouver Island

SOOKE HARBOR, B.C., August 23.—Gerald Sedger and his Scottish bride were chased by a cougar into the forests on Friday night. They took shelter in an abandoned cabin, but the animal waited for his prey all night. The cougar remained outside and during the night jumped on the roof and set up a vigorous clawing on the stings. Early in the morning the animal left and the terrified honeymooners escaped uninjured.

BURNED TO DEATH

KAMLOOPS, August 23.—One Austrian was burned to death and another is reported missing from Saturday's fire at the Fennel Mills at Mile 34. Several others were very severely burned by the flames.

H. S. Monroe, general manager, passenger arriving here on the Prince George Saturday night.

CLOTHES IN DISCORD
WITH CHRISTIANITY

LONDON, August 23.—A campaign against diaphanous dress among women church-goers is being conducted by high church dignitaries in England, and it is understood that the question of "sketchy" women's attire may be taken up shortly by a big church association.

Monsignor Jackman, of Westminster Cathedral, said that some women attend places of worship in clothes which are not in accord with Christian principles. No rule about wedding dress is laid down, however, the matter being entirely on the taste of the brides, he said.

The campaign is also being strongly waged in France and Belgium by the clergy in these countries, and several high dignitaries of the church have spoken strongly on the subject. Notices are posted at the doors of many French churches to the effect that women who wish to enter must be decently clothed.

Premier John Oliver and Hon. T. D. Pattullo at the Empress Theatre Wednesday night. / 99

Note to ex-members of the Canadian Expeditionary Force.

NOTICE is hereby given to all concerned

that ex-members of the Canadian Expedi-

tory Force who are entitled to and

wish to apply for a license to take

use ten seconds feet of water out of "Wolf

Creek, also known as Davidson Creek,

which flows southwesterly from the

Alcan River about two and a half miles

north of the Daily Varden mine.

The water will be diverted from the

stream at a point about one mile from the

mine and will be used for irrigating

purposes upon the lands described as the

Wolf Mineral Claims and Daily Varden

Mineral Claims.

This notice was posted on the ground

on the 1st day of August, 1920.

A copy of this notice and an applica-

tion thereto and to the "Water Act

1914," will be filed in the office of the

Water Recorder at Prince Rupert, B.C.
