

# GEN. WRANGEL AND COSSACKS

### Makes Agreement with People of Don and Other Districts

PARIS, Sept. 3.—General Wrangell is at present very much in the public eye. He has made a treaty with the Cossacks under which he is to lead them. The terms of the agreement are as follows:

(1) Complete autonomy of the Cossack territories of Don, Kuban, Terek and Astrakhan as regards their interior organization and administration.

(2) General Wrangell, Commander-in-Chief of the troops of South Russia, has supreme power over all the troops of the Cossack territories of Don, Kuban, Terek and Astrakhan for all military operations, as well as the organization of the army.

(3) All resources of food and other supplies of the territories of Don, Kuban, Terek and Astrakhan necessary for the troops fighting against the Bolsheviks are put at the disposal of the Commander-in-Chief.

(4) The railroad and telegraphic administration is entrusted to authorities under control of the Commander-in-Chief.

(5) Negotiations and agreements with foreign powers, both purely political and economic, are to be negotiated and concluded by the Commander-in-Chief.

**Tariff Barriers Down**

(6) All tariff barriers in the territories concerned in the agreement are to be suppressed. The same indirect taxes are to be levied throughout these territories.

(7) The same monetary system is to be established throughout these territories. The right to issue currency is vested in the Commander-in-Chief.

(8) The present agreements enter in force from the date of signature, subject to approbation by the Parliaments of the respective Cossack territories after their liberation.

(9) The present agreement will have executive force throughout and until the complete cessation of the civil war.

## FOUND TWO STILL IN OPERATION

### Whiskey Made by Old Offender at Barrie

BARRIE, Sept. 3.—Officers located here what they think is one source of a good deal of whiskey which has been going into Collingwood lately when they discovered a plant on the farm of Allan McDonald. In a dark room off the main cellar they found two stills in active operation, the heat being supplied by a coal oil stove. Five gallons of whiskey and 125 gallons of rich molasses and corn meal mash were found.

In the kitchen was another still about the size of a garbage can that was black with use. McDonald was pursued by Officer Fisher, but escaped into a swamp. The seizure was made by Inland Revenue Officer Floody and Inspector Fisher of Orillia.

Last year McDonald was fined \$200 for having whiskey in his buggy, and a few years ago when keeping hotel at Craighurst he was fined for illegal selling of liquor. A warrant has been issued for his arrest.

## Sport Briefs

The first prize for the largest family on the grounds at the Labor Day celebration is a ton of coal and the second is a 20 lb. sack of flour. The prize committee of the Trades and Labor Council celebration certainly manifested a good deal of common sense. No doubt the big grounds and the prizes will make families will gather at the it worth while. Theatre passes, grocery hampers, electric irons and newspaper subscriptions should also be tempting in the Ladies' Nail Driving Contest.

The marine sports should prove an interesting preliminary to the big events that are to be pulled off on Aquatic Day during the Fair Carnival. The canes and dory races will show up the contestants, as will also the gear setting contest, all of which events will be pulled off in the course of the big fair program, too. The prizes in the latter event on Labor Day will be quite substantial, ranging from \$50 to \$5 donated by various water front companies.

The National League baseball teams still remain clustered together, standing with little over 150 points between the leader and the tail-end. In fact the National flag is still within reach of any of the eight teams, if any should run into a long winning streak. Brooklyn, Cincinnati and New York are in the lead and all three are within twenty-five points of each other, while a drop of fifty points and below the 500 mark are Pittsburgh, St. Louis and Chicago. Boston and Philadelphia are dragging along about 400.

In the National League Chicago, Cleveland and New York are together slightly above the 600 mark while St. Louis is at 550, Boston, Washington and Detroit are below 500 but above 400. The Phillies are retaining the usual place in the cellar that they have held down for the last few years since Connie Mack had his famous reorganization.

From the present appearances it is hard to forecast who will take part in the fall party in October or where it is going to be held. It is so well within the reach of all the National League clubs that there will have to be a change in the way things have been going all season or it will not be determined till near the time for the world's series. It is likely that Chicago, Cleveland or New York will be the American winners. Sport writers predict that the American League finish will be lumpy and colorless, no matter who leads home. Voices of the thousands of baseball fans a few days ago shouting wild and joyfully are now couched in whispers. The psychological effect of the fatal accident to Ray Chapman, Cleveland's star short stop, has taken the heart out of one of the hottest pennant fights in history. Cleveland's rivals do not feel like taking the flag under such a great handicap and Indians themselves are not in the best of mood for honors.

## STRIKE ENDS

WASHINGTON, Sept. 3.—A strike ends, which affects over fifty mines in the state of Pennsylvania.

# MACDONALD'S CUT "BRIER"

"Brier" Smoking Tobacco has become a Canadian institution. More men smoke "Brier" than any other tobacco in Canada. It leads in quality—and leads in value.

Now "Brier" comes in new form—Macdonald's Cut "Brier"—the same tobacco—prepared under the Macdonald standards established in 1858.

Still leading in value. Macdonald's Cut "Brier" gives more tobacco for the money in the 1-12 lb. package for 15c.—\$1.80 per pound.
