Value to District Of Publicity.

A short time ago the Daily News published an article dealing with the attractions of Lakelse Lake. This article was read in Victoria by W. A. Wearhault, who was at the time contemplating a trip to Banff.

Just how Mr. Wearhault happened to read the Daily News we do not know. So many papers are sent away from here after they are read locally, in addition to those going to outside subscribers, that it is almost impossible to trace them.

Freight Increases Will Dislocate Trade.

The sudden increase in freight rates will tend to dislocate trade, for some time at least. Local mills will be hard hit by the change. It seems a pity that some arrangement could not have been made in connection with the lumber business such as was made with coal to avoid killing the business altogether.

No word has been received in regard to the fish business. The local board of trade asked that the cheaper grades of fish be exempt from any advances in freight charges. An advance will kill that business. Cheap food is needed and during the war the government absorbed the extra freight charges in order to place the cheap fish on the market.

What Will Effect Be On Food Prices?

No one seems to know what will be the effect of the new rates on the price of food. All we know is that the rates will be added to the cost which must be paid by the consumer, as well as the increased percentage of profit which the merchant must exact.

Are the Increases Really Necessary?

It is admitted that increases in freight rates were necessary. No one disputes that. The railways cannot continue to operate at a loss. The C. P. R. however, paid ten per cent right along in the way of dividends.

It is curious that Dr. Reid, during his recent visit to the west, was able to tell the people that a very large advance would come into effect. It makes people wonder whether the Government controls the Railway Board and dictates to them the amount of increase they should order.

That local ladies will join with those in London who congratulated a mistress employing a domestic without a break for 28 years. Hard on the crockery dealers, that is all.

That the British Columbia millmen are to supply Great Britain with twenty million feet of ties. That should bind this country a lot tighter to the old land.

That Victoria won the international baseball pennant, but there is no information as to whether any Victorians played in the matches.

That one class of people to be injured by the railway rate increases will be the large army of official organizers who will find parlor cars too expensive in future since the price is to advance fifty per cent.

Ten Years Ago in Prince Rupert

September 9, 1910 John Y. Rochester and others have made application to the Board of Railway Commissioners to cause the G. T. P. to remove an obstruction to navigation in Cow Bay in the form of a railway grade.

The Princess May has been towed to Juneau after her wreck on Sentinel Island. She is reported to be not as seriously damaged as was at first thought.

A discovery of an extensive coal bed is reported from Copper City. The find was made by Tom Flynn and John Gabriel and is twenty-five miles up the river from the Skeena.

Mrs. W. Vickers leaves Liverpool today by the Empress of Britain after a five months holiday in England, Scotland and the Isle of Man.

Work on the Second Avenue grading was commenced yesterday by S. H. Watson & Co. S. P. McMorris' contracts are awaiting signature.

HUNDREDS KILLED IN EARTHQUAKE AT FIVIZZANO, ITALY

PISA, Italy, Sept. 8.—Hundreds of people are killed and scores are missing following an earthquake which demolished the town of Fivizzano, and did considerable damage at other places.

The terror stricken inhabitants of this city saw the famous leaning tower move and thought every moment it would fall.

BEARS AT TERRACE

Two Shot and a Cinnamon Stopped Team and then Made Off

TERRACE, Sept. 8.—Two bears were shot recently here, one on Little's Island and the other at Remo.

A large cinnamon stopped Ralph Hemmels team on Friday, but after looking the outfit over for about five minutes made off and allowed them to proceed. Mr. Hemmel says it was the largest bear he had seen for some time.

The Man in the Moon SAYS--

THAT of course it was at Aberdeen that the golfer searched for his ball four days before giving up and even yet he sometimes returns. It is said, to search for the missing sphere.

THAT if it was a strictly modern youth who told his mother what a lot of fun good boys missed who would not fight.

THAT when the freight rates increase, how much will the cost of living advance?

THAT judging by former advances, forty per cent advance in freights should mean at least eighty per cent in prices.

THAT the British Columbia millmen are to supply Great Britain with twenty million feet of ties.

THAT Victoria won the international baseball pennant, but there is no information as to whether any Victorians played in the matches.

THAT if they did not play, they paid for admission to see the games, which, judging by modern standards, is more important.

THAT one class of people to be injured by the railway rate increases will be the large army of official organizers who will find parlor cars too expensive in future since the price is to advance fifty per cent.
