

LUX

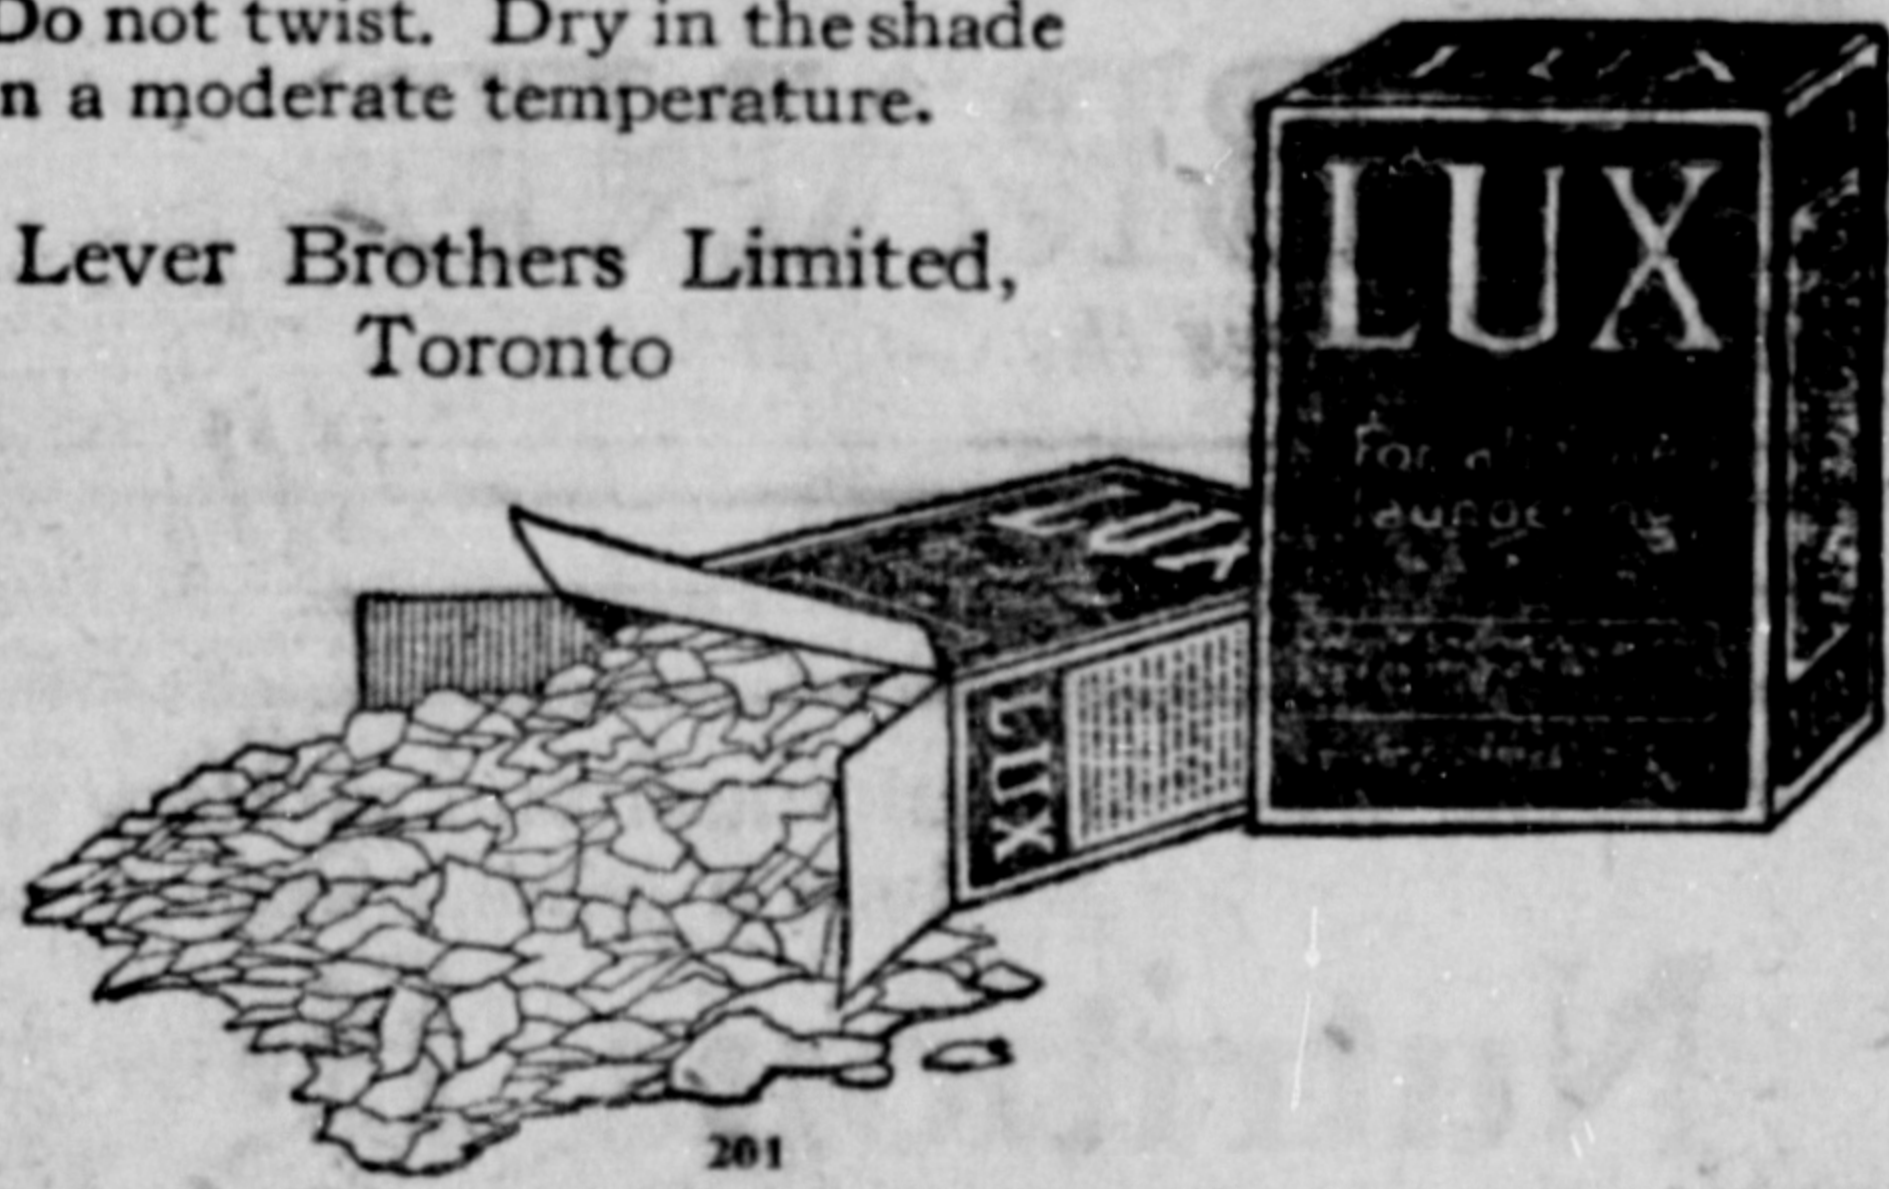

For Soft Blankets!

Keep your blankets soft, woolly and comfortable! Guard them carefully in the wash and they will repay you with a doubled life. The safest of all blanket baths is with the rich, creamy, cleansing LUX suds.

The best way to wash blankets.—Use two table-spoonsful of LUX to a gallon of water. Whisk into a thick lather in very hot water. Add cold water until suds are lukewarm. Work your blankets up and down in the suds and squeeze the suds repeatedly through the soiled spots. Do not rub.

Rinse the blankets in three lukewarm waters. Pass through a loose wringer or squeeze the water out. Do not twist. Dry in the shade in a moderate temperature.

Lever Brothers Limited, Toronto

SUIT AGAINST RUPERT MAN

Administratrix of Estate of Late W. G. Gillett Claims Large Sum.

VANCOUVER, Sept. 9.—Mrs. Adf B. Gillett of Vancouver, administratrix of the estate of the late W. G. Gillett, is suing Geo. B. Hull of Prince Rupert for \$2,500 for compensation alleged to be due to the deceased through being deprived of the use of a pile-driving outfit for seventeen months and for damage to the equipment.

WIRELESS PLANTS ESTABLISHED HERE BY FOUR LOCAL BOYS

Few people are aware that there are in the city no less than four wireless receiving stations established by local boys in order that they may get the proper training with a view to taking up wireless work either as a profession or as an aid to other lines. Much work and a good deal of expense is entailed in rigging the masts and connecting the instruments.

The local boys who have outfits are Gordon Kerr, Pete Black, Jr., Gordon Bulger, and P. Anderson. Before installing their plants they had to get licenses from the department and pledge themselves to secrecy and fill out a lot of forms. This is to protect the public, because the boys are able to read the messages which are sent from the Digby Island station.

Mining News

Phoenix Is Dead.

Phoenix, the old time king of the boundary mining towns, is now dead. A dozen men are dismantling the mines which are caving in and residences are being stripped. All the stores but one are closed and the main corner is but a heap of rubbish. Back in the old days there were 28 hotels and at one time the population was 3,500. There are many handsome buildings and houses, but there are not enough youngsters left to keep a school running where once a two-story 100 by 50 school house would not suffice. All the machinery and materials around have been scrapped or shipped out. The railroad track is being taken out now and after that only communication to the outside will be by way of the Greenwood and Grand Forks auto roads.

Midas Good Mine.

H. S. Munro, general manager of the Granby Company, speaks very favorably of the Granby property, the Midas, near Valdez, Peninsular, Alaska. He says that the company will operate this copper mine as soon as copper prices rise a little. The ore which is of a high grade will not be shipped to Anox but will be concentrated and go direct to Tacoma by a regular line of boats which is already running from Valdez. The haul is so long that it would not be economical to take the ore in its natural state direct from the mine.

Premier, Stewart's Mine.

The turning down of the Big Missouri mine at Stewart by the Pacific Coast Exploration Company should not necessarily hurt the Stewart district. This mine was never a proven one but extensive exploration has been going on recently with two diamond drills and, naturally, there has been a good deal of talk about it. There is really only one proven mine in the Stewart district yet, and that is the Premier. In time, the present development work will uncover more winners but no one should be disappointed if certain prospects do not turn out well. Stewart still has its Premier and it is a great mine. No doubt there will be more like it in the Stewart section.

Allenby Will Ready.

The concentrator of the Canada Copper Corporation at Allenby is ready for operation. For a start the plant will run at a capacity of 2,000 tons daily and it is expected to reach 3,000 tons within a year. Later it will increase to 5,000 tons.

The Allenby mine is located at the town of that name a couple of miles south of Princeton, B. C. Here the copper ore from Copper Mountain is milled preparatory to being shipped out from Princeton on the Kettle Valley Railroad.

GAME WAS CALLED IN SECOND INNING

Port Simpson and Butchers Barely Got Started Last Evening; Score 3 to 0.

The baseball game between the Butchers, city commercial league champs, and the Port Simpson native team was called last night in the second inning with the score of 3-0. A downpour of rain was the cause of the stopping of the game which gave promise of being both interesting and well played. The Indians are reported to have a splendid aggregation of baseballers this year.

The batteries that took the field were Bob Frizzell and H. Astoria for the Butchers, and Robert Malheison and Albert Wesley for Port Simpson. Robertson was refereeing balls and strikes and Laporte the baserunners. The Butchers were up once and Port Simpson twice.
