## Would Protect The Halibut Banks PRINCE RUPERT'S GREAT ANNUAL EVENT ATTRACTS LARGE CROWDS HERE

### Proposal for Protecting Halibut

William Sloan urges dividing the banks into six districts and alternately closed for five years

Sept. 22.—Hon. William Sloan, who has charge of the department of the Provincial Government, has issued a report last year in which he deals at length with the halibut fishery. It shows that the catch for 1919 was 19,197,565 pounds, or 500,000 over that of 1918. Sloan is on the halibut treaty between the United States and Canada. He protests against the inadequacy of the closed seasons. Instead of a closed season for all fishing for United States and Canadian fishing boats for three years, Sloan advocates that all known halibut banks be divided into six districts which should be alternately closed for five years, in a manner that some of the banks would always be open.

The report is based upon the results of investigations by William F. Thompson.

### Mayor McClymont Opens the Seventh Exhibition

Display at Agricultural Hall excels past in many sections; great number of people in city for event

### Production of District Is Great Object Lesson

Lots of Fun and Sport runs concurrently with Educational Features; Sports Ground and Carnival going strong

This afternoon at 2 o'clock Mayor McClymont officially opened the Seventh Annual Prince Rupert Exhibition of the Northern B. C. Agricultural Association, and the big event is now in full swing. As usual there was a good crowd in attendance for the opening ceremony which joined in the grand parade from the carnival grounds. From the enthusiasm this year's fair shows promise of being the most successful yet, and now the verdict as to its success rests with Jupiter Pluvius and the people of Prince Rupert. The exhibits on display in the Exhibition Hall are in many respects of a higher standard than ever before and in many sections there is a much greater number of them. The show is a great object lesson of the achievements that may be obtained along agricultural and industrial lines in Prince Rupert and the northern and central portions of the province. Interesting things at the Exhibition Hall, sports are going on in full swing at the sports grounds where every minute of fine weather will be utilized for sports of all sorts. This afternoon the children's sports are going full force under the genial hand of Chief Vickers who for the last twelve years has been the kiddies' friend on all celebration days. After the children are through the final football game will be held between the Sons of England and the Trail Athletics.

**Tonight in Hall.**  
Tonight is well provided for and a fine concert will be put on at the hall, Director Tabrum having been specially working on this end of the event. Many old successes by local talent will be staged and, besides, there will be some new numbers which will be of interest. The three Indian bands, Kincolith, Aiyansh and Greenville, are on hand and are commissioned to give recitals at various intervals throughout the fair days. They will play both in the building and at the grounds and their music, in itself, is a great treat and worth the price of admission.

**Tomorrow's Events.**  
Events of interest tomorrow will be the football finals between the Port Simpson and Kitimaat football teams for the Exhibition Challenge Cup. Immediately after lunch the Intermediate League baseball play-off will be staged between the Colts and Red Sox, followed by another football game. In the hall the judging of the baby show at 4 o'clock will be awaited with interest by the proud parents and the public generally. In the evening a concert, consisting wholly of Indian talent, is going to be one of the real big treats.

### Fun for Crowds.

While the Acropolis Hill is a busy place for merry-makers and sightseers, the Carnival downtown is running full blast with many kinds of devices for fun and entertainment. Here the Indian bands are also performing and there is a pavilion in the middle of the street for dancers.

The crowds that thronged the streets last night will be greatly increased and the city will take on the regular gala appearance which has gone with all fairs only on a bigger scale this time.

With the stores open every evening the city certainly does look bright and everybody is throwing gloom to the winds for the complete enjoyment of fair week.
