## Kills Goose That Lays Golden Egg.

The railways seem to be killing the goose that lays the golden egg. Today we publish a despatch from Vancouver which states that the Granby Company is about to ship its copper by water route to New York instead of by rail as heretofore. This action is taken because of the increased freight rates by the rail route. A trial shipment is being made on the Canadian Dollar and it is expected that not only will it be carried for half the price the railways charge, but it will be carried in less time.

## Other Protests Against Rates.

There are other protests against the enormous increase in freight rates. The effect of the order of the Railway Board is that practically all the lumber mills in northern and central British Columbia are shut down and other industries are being hard hit. The increase of 35 and 40 per cent are so enormous that it is impossible to make adjustments to cover them.

Just what the outcome will be is impossible to forecast. It may be that the effect on business throughout the country will be so bad that the railways will find it necessary to reduce the charges. The increase was made under pressure from the C. N. R. and the Dominion Government, yet the C. P. R. has continued to pay its ten per cent dividends as usual. If it can pay ten per cent at the old rates, what should it earn at the new?

## Why Not Ship Copper From Here?

When Vice-President Hayes of the G. T. P. was here recently discussing freight traffic by ocean route from this port, he did not consider the possibility of making copper shipments. In view of the reported action of the Granby Company in shipping their copper by water instead of by rail, there is reason to think that it might go from Prince Rupert instead of from Vancouver. This port being so much nearer should have the advantage.

It is understood that the local mills have been shipping their lumber to Atlantic ports by rail. Now that the freight rates prohibition has shut down this business, it will be in order to arrange for shipping the lumber by water through the Panama Canal. Possibly this is already being considered. It will take co-operative effort to make it successful, and the Canadian National officials, who handle the steamship business, are the logical ones to organize it.

## Mackenzie King Comes Next Week.

Next week William Lyon Mackenzie King, leader of the Liberal party in Canada, is coming to Prince Rupert and will address a public meeting here. He is said to be an accomplished speaker as well as an able statesman. He was a minister in the government of the late Sir Wilfrid Laurier and has caught the mantle which the old leader dropped. Everywhere he goes he is being heartily welcomed and people are turning out in large numbers to listen to his addresses. The difficulty here is to secure a hall large enough to accommodate the crowd that will wish to hear Canada's probable next premier.

## PRINCE RUPERT TIDES

Thursday, September 23.

High, 10:42 a.m., 16.7 feet.  
 22:35 p.m., 17.3 feet.

Low, 4:18 a.m., 7 feet.  
 16:46 p.m., 9.2 feet.

Friday, September 24.

High, 11:22 a.m., 17.5 feet.  
 23:24 p.m., 18.2 feet.

Low, 5:06 a.m., 6.2 feet.  
 17:30 p.m., 7.7 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.
