The Man in the Moon SAYS:

THAT many people lose good

THAT a lot of people who are

THAT the woman who ad-

THAT a guy signing himself
"Cheviot" gives the following
graphic sketch in the
Winnipeg Free Press:

Scene: A Winnipeg jitney bar.

Time: Present.

A man staggered out of a soft
drink place and sat upon the curb.

The present was blue and the
future was black.

He spoke:

"Tell with everybody."

A wan smile stole over his
bloated features.

He whispered:

"Exceptin' Rosie."

He sat,

The sun beat down,

Dust was whirled into his face,

His head ached,

The world reeled.

He said:

"Aw, tell with Rosie, too!"

USK DISTRICT LIFTS TROPHY

Challenge Cup of Fair Association
Will Move From Alice Arm
Up the G. T. P.

The Usk mining district has
captured the district mineral ex-
hibit challenge cup which was
last year won by the Alice Arm
section and which is now in the
hands of the Commercial Club at
that point. The attention of the
Alice Arm people was this year
taken up with the sending of a
complete exhibit to the Old Coun-
try and this is given as the rea-
son why their efforts were not
more strenuously directed to-
wards the winning for a second
time of the Agricultural Associa-
tion's trophy.

A. C. Garde, M.E., in charge of
the mineral exhibit, is loud in his
praises of the interior mining
camp and the energy that has
been displayed in sending ex-
hibits to the Prince Rupert fair
this year. Besides the district
trophy several medals and diplo-
mas have also been won by in-
dividual exhibitors in that section.
There were also a few single new
entries from Alice Arm. On the
whole the mineral exhibit this
year is considered a most instruc-
tive and interesting one and is
attracting a good deal of atten-
tion.

The Brunswick ALL PHONOGRAPHS IN ONE

Better Method of Repro- duction

BRINGS BETTER TONE. All its features combine
toward that coveted achievement.

Suppressed or muffled tones are absent. There
is a roundness or fullness of expression that is quickly
noted the first time you hear the Brunswick.

It eliminates so-called "surface noises" for it has
the only counter balanced reproducer.

The Tone Amplifier, built to conform to acoustic laws
is another feature of the Brunswick Method of Repro-
duction. Here again tone waves, having been reproduced
perfectly, are allowed to amplify and develop naturally.

In every particular and considered as a unit, the
Brunswick Method of R-production is one of the greatest
advancements in the phonographic art. It brings final
perfections, new refinements.

Your ear will quickly detect the superiority of the
Brunswick. A comparison will award the Brunswick
first choice.

So if you seek the utmost in a phonograph, be sure
to hear the Brunswick first.
