PRICE FIVE CENTS

New Brunswick Election on Saturday

RECORD IN FISH PRICES WHEN HALIBUT REACHES 20.1 CENTS A POUND

Liberals Sustained in New Brunswick General Election

Government has 24 Supporters sure, Conservatives 13, Independent Farmers 9 and Labor 2; Liberals claim 2 others

TRICTON, N. B., October 11.—The Liberal Government in New Brunswick has been sustained. While the final figures in the returns show that the Government has 24 supporters, 13 Conservatives, 9 Independent Farmers, 2 Labor, and 2 others. The Government also claims another of the opposition seats, King's, as well as Charlotte County.

Mr. Murray, in Northumberland, provincial secretary, and Mr. Tweedie, in Victoria, minister of agriculture, were defeated. Mr. E. Foster and his three colleagues in the city of St. John were elected. His colleagues were Roberts, Scully and

LANDS AT SELKIRK

Will Prevent it Reaching Tonight According to Reports.

Oct. 11.—Leckie's boat at Selkirk Sunday night losing his bearings in a street. Cadamore of Victoria in charge of the plane in Jaw or Calgary.

Oct. 11.—Weather here that the crossing cannot reach Vancouver tonight.

October 11.—Engine on the trans-Canada made a forced landing morning at 8:30. Several were lost in making

ACTION AGAINST O. B. U.

Court Orders Restrain Members, But Order is Ignored.

October 11.—An injunction restraining the operation of the One Big Union in the city of the British Columbia was granted Saturday in the Court on the ground that striking miners did not heed of arbitration under the Act before striking. The operators had a fight with the United Mine which the One Big Union was turning them to break. The operators are ignoring the

OF WALES ARRIVES IN LONDON

and Other Important People Out to Meet Him.

Oct. 11.—The Prince of Wales made a triumphant entrance and was met at the airport by Premier Lloyd and other important persons including the Royal Air Force. The Prince was lined with vast cheer-

ATOR BURNED

ALBERT, Oct. 10.—An elevator at Cadworthy, B. C., was burned and the 1,000 bushels of mixed

MEMBER OF SASKATCHEWAN BETTER FARMING CONDITIONS

President Bracken of Manitoba College of Agriculture who is a member of the Saskatchewan Better Farming Conditions. The latter is the outcome of the "dry farming" conference recently held in Swift Current and which is now at work.

ARBITRATION PARTY HAVE GONE EASTWARD

Examined Wharves at Vancouver, Victoria and Seattle and Left Vancouver Today.

VANCOUVER, October 11.—The arbitration commission reached the city on Saturday from Prince Rupert accompanied by Captain Nicholson, general manager of steamships for the Canadian National Railways. They inspected the wharf and sheds briefly, left later for Seattle and returned this morning, going eastward at noon.

PRINCE RUPERT IS RESTING EASILY

VANCOUVER, Oct. 11.—On his arrival from the scene of the wreck on Saturday, Capt. Nicholson stated that the vessel was resting on soft ground and they did not anticipate any further damage to her.

The Captain is returning to Swanson Bay on the Prince George leaving here tonight.

LECTURER SPEAKS TWICE LAST NIGHT TO BIG AUDIENCES

VANCOUVER, Oct. 11.—Nellie McClung, speaking for prohibition in Wesley Church last night filled the biggest theatre in town and also Wesley Church. There was much enthusiasm shown.

DR. GRANT ON PROHIBITION

Large Congregation Out to Hear Address at Presbyterian Church Hall.

To a large congregation which crowded the church hall on Fourth Avenue, Dr. Grant last night dealt at some length with the question of prohibition. He mentioned that the Moderation League represented the opposition to prohibition and that the issue was not between prohibition and moderation but between prohibition and no prohibition.

Dealing with the question of the success of prohibition, the preacher quoted statistics from different parts of Canada and spoke of ex-President Taft's recent pronouncement on the question in which he showed that it had been valuable and advising that under a democracy it was for the minority to submit to the rule of the majority and "play the game." Dr. Grant did not, however, consider that in British Columbia during the last year there had been prohibition. This would be remedied if the people voted for the law as it now stood. The Dominion Government was the only body that could stop importation and a way had been provided by which it could be done.

The speaker dealt with the personal liberty argument, showing that there was no such thing as personal liberty. There was only such liberty as the conventions of society allowed.

Dealing with the literature issued by the Moderation League, the speaker urged that it was not honest to put figures before the people which were misleading and those figures were misleading. In New Zealand, for instance, there was a table of jail sentences on one side as against convictions on the other. Most people would not notice the difference and would come to the conclusion that prohibition in New Zealand was a failure. This was not honest.

Dr. Grant dispelled the argument that the bootleggers were with prohibition. He said that no bootleggers had attended the prohibition rooms but the same could not be said for the other side. He urged his hearers not to be led away by any of the specious arguments but to vote for prohibition on October 20.

Next Sunday Dr. Grant will preach on the Moderation League.

SAYS GOOD PROGRESS ON NEW SHIPS HERE

Pemberton Thinks First Vessel Will be Launched End of November.

VANCOUVER, Oct. 11.—Richard Pemberton who has just returned from Prince Rupert, says a very good class of work has been done on the "Thrasher" and her sister ship. He says he expects the Thrasher to be launched about the end of November. Great progress has been made since his last visit.

SELLING WHEAT TO THE STATES

Great Britain Not Purchasing Much from Canada Just Now.

WINNIPEG, October 11.—Very little business in wheat is being done with Great Britain this year, that country holding off, apparently with the idea that prices are too high. The largest buyer at present is the United States, the barge now being down against that country and free export being allowed. Discount on Canadian money has a good effect on this export market.

At the present rate of export there is likely to be a change in the exchange rate, which has been gradually assuming a more normal condition.

TO PUT RUPERT ON EVEN KEEL

Barge Left Here Saturday and Another Earlier in Week for Buoyancy Purposes.

On Saturday a second barge went from here to Swanson Bay to aid in righting the steamer Prince Rupert. The other left earlier in the week. These barges will be used for giving the vessel buoyancy.

Once the Rupert is on an even keel the regular work of salvage will commence. It is expected that it will be next week before the vessel is in condition to commence the actual raising operations. It is a big job, but once the vessel is righted will not present any unusual difficulties.

Fish Price Today over Twenty Cents

Booth, Atlin and Royal paid 20.1c and over 11c for Halibut on open market; Car Shortage still on

At the Fish Exchange this morning the biggest price paid for fish since 1918 prevailed when three fish buyers paid 20.1c for first class fish and 11.3c for seconds. This figure was paid for fish in carload lots and there were only four cars in the yards, one for the cold storage and three allotted to the fish exchange.

Following are the arrivals and sales: Sentinel, 15,000 pounds and Beaver, 10,000 pounds to the Booth Canadian Fisheries at 20.1c and 11.3c. Fisher, 11,000 pounds; Inez H., 2,000 pounds and Agnes B., 10,000 pounds to the Atlin Fisheries at 20.1c and 11.3c. Sherman, 17,000 pounds and Gony, 5,000 pounds sold to the Royal Fish Co., at 20.1c and 11.2c. Rolf, 12,000 pounds, Polaris, 60,000 pounds, Orient, 40,000 pounds and Atlas, 36,000 pounds were unsold at noon on account of the shortage of cars.

Three trawlers, George E. Foster, James Carruthers and Chief Zibassa have also arrived with catches for the Canadian Fish & Cold Storage Company. The Mackerel is in with 900 cohoes.

Relic of Huge Monster Found at Mouth of River

Two immense bones, part of spinal column of antediluvian monster, being shipped from here by local Japanese

Lying in the Grand Trunk freight shed today are two sections of bone that are claimed to be relics from the skeleton of some antediluvian monster of enormous size. Inconspicuous and plain in themselves, these two sections of bone further carry out the theories that over North America thousands of years ago there existed creatures of stupendous size. In the bone itself there is nothing to show to the ordinary person whether it is of fish or reptile, animal or mammal, only that it has come from a huge creature's skeleton for it is, undoubtedly, bone.

There are two solid pieces which are similar in appearance. They are of round and flat appearance resembling sections of log and are about 12 inches in diameter by 15 inches in length and very probably are sections of a vertebral column. Some persons say that rather they are sections of a tail but the fact that there are three off-shoots from the sides at right angles to each other would credit that they are the sections of a spinal cord and the off-shoots would be the remnants of ribs.

There has been no expert advice as to the identity of the bones and there is much speculation among those who have seen them as to their origin and kind. They are on their way south for the purpose of research work. The bones were found on Kit-

Cleveland Wins World Series Ball Beating Brooklyn

CLEVELAND, Oct. 11.—Cleveland carried off the world series pennant today by beating Brooklyn with a score of 4 to 0. This run was made by Speaker. Mails pitched for Cleveland and Smith for Brooklyn. There was an immense crowd present to watch the game.

Sunday's Game. Cleveland defeated Brooklyn yesterday by a score of eight to

ALBERTA FUEL EXPERT TO ADVISE DEALERS.

For the purpose of demonstrating and applying any tests that either dealers or consumers of coal in Winnipeg desire the Alberta government in fulfillment of its promise to the general meeting of the Coal Dealers' Association, held in Calgary recently, has sent M. L. Hyde, an expert fuel and heating engineer, to Winnipeg.

PRAIRIE PROVINCES ARE CONFIDENT THEY WILL GO BONE DRY

Winnipeg, Oct. 11.—(By mail.) Much interest is being taken throughout the provinces of Manitoba, Saskatchewan and Alberta in the forthcoming plebiscite in regard to stopping the importation of liquor into these provinces. The plebiscite is one arranged by the Dominion Government prior to making the three provinces bone dry.

The vote is to be taken on October 25, five days after the British Columbia vote. The central committee here is confident of the prairie vote carrying, but they are wondering what British Columbia will do. If she votes for prohibition this time she will have an opportunity of shutting off importation in the near future.

Saskatchewan is the only one of the three provinces that has tried government control and she found it not workable. There is no chance of that province ever returning to such a system.

In a neatly contested game held at the Acropolis Grounds yesterday afternoon a local All Star intermediate league team again defeated the Port Simpson Indian team by a 6-4 score. The Port Simpson boys are remaining in the city for the winter, most of them being employed at the Dry Dock.

BAND CONCERT APPRECIATED

Instrumental Music Lovers Given Treat Last Night at Band Concert.

The concert given last evening in the Westholme Theatre drew a record crowd and the place was crowded. The program rendered was one of exceptional merit and a source of much pleasure to all instrumental music lovers. It had been intended to have Mrs. Stanley Bennet take part singing solos but this was made impossible by the sudden illness of that lady. Will Balagoo took her place on the program and rendered violin solos with his usual skill. His first number was Kreisler's "Rococo Marie" which was heartily enjoyed. Will Edmunds also gave several cello solos which were greeted with much applause.

The feature of the evening, of course, was the band concert by the Greenville Band which, always a splendid musical body, has developed even to a better standard under Will Edmunds' experienced training. Each number was received with great appreciation and encores were consistently demanded.

GOING TO CALIFORNIA

Mr. and Mrs. Fred Stork and Family Leave for South Next Week.

Mr. and Mrs. Alfred Stork and daughters, Patricia and Kathleen, are leaving next week for California, where they will spend the winter months and the residence in Section 2 has been rented to Mr. and Mrs. S. S. Magoffin.

Douglas P. Stork will be in charge of the hardware business in the absence of his father.

ARRESTED MAN WHO IS WANTED IN CHICAGO

H. Michelev has \$500 Reward on His Head Picked Up at Vancouver

VANCOUVER, Oct. 11.—H. Michelev, wanted in Chicago on a charge of obtaining \$84,000 for 350 cases which he failed to deliver, was arrested here on Saturday night. There was a reward of \$500 on his head.

The Princess Alice made a special call at Swanson Bay last night to allow Messrs. Burdick and Yarrow, Victoria shipyard men, to debark there. They are examining the wreck of the Prince Rupert with a view to repairs.
