WILL YOU VOTE?

Now the people of British Columbia are asked to decide, by a vote, whether they will have the liquor traffic or not. The Provincial Government has put the question in bottles over the top of the law, as they sell tea or coffee, and the real necessities of life.

There is not prohibition in this province, it is prohibition almost unlimited.

Prince Rupert people to decide the issue before they vote. While we urge all the arguments in support of prohibition, it is to be in the best of the country, it is for the people.

There is no half way measure. There is no moderation. The ballot says clearly, in favor of the present act or an act to prohibit government control and sale of liquor.

Government does not manufacture, the sale, the price. It may be quality and to some quantity.

It is a course for a person to hear the good of the vote for prohibition. The course is reactionary.

Vote for Prohibition

Must Vote Dry to Stop Importation

Preachers urge large congregations to Vote for Prohibition Measure tomorrow; Scriptural Quotations Not from Bible

Rev. Dr. Grant in an address to a large congregation Sunday night stated that the only way to make conditions better than they are today was to vote for the Prohibition Act and this would be followed up by the stopping of importation. If they voted for government sale, importation could not be stopped. The province must be labelled a dry province first.

The speaker referred to the false figures given out by the Moderation League and urged that this was a dishonest method of campaigning. The prohibition supporters had fact with which to sustain their position.

ONTARIO JAILS CLOSE RESULT OF PROHIBITION THERE

TORONTO, Oct. 19.—As a result of prohibition in the province of Ontario, three of the seven provincial jails have been closed and the prison population reduced from 1970 to about 1,000, according to Brigadier W. H. Fraser of the Salvation Army in an interview.

"Before prohibition we had a soup kitchen, but we don't have to keep one going now," said Brigadier Fraser. "Before prohibition I used to have sixty or seventy persons lined up at my office door seeking relief. There is none of that now."

PRISONERS AT KINGSTON STRIKE

Refuse to Work when Tobacco Supply was Cut Off by Officials

KINGSTON, Oct. 19.—Between 150 and 200 prisoners in the Kingston penitentiary are on strike, refusing to work since the smuggling of tobacco has been stopped. The prisoners kept up a continual uproar, shouting for tobacco and hammering on the doors and calling for tobacco.

Proposal to Reorganize the Big League Baseball

New League may be formed combining teams from the American and National; New Board to be formed

CHICAGO, October 19.—Professional baseball is confronted with two alternatives. Either there must be a peaceful reorganization or civil war. If it is the latter, possibly a twelve club league will be formed composed of eight National and three American League clubs. With the other five American clubs another circuit will be formed.

A meeting of representatives of both leagues met last night and it was agreed that a board consisting of three members not interested financially in baseball supersede the national commission, the chairman of the tribunal to receive \$25,000 a year salary.

Strike of Miners Ties Up Industry

Iron and Steel and Cotton Badly Hit; Small Disburbance in South Wales is Reported

LONDON, October 19.—The coal-mining industry is almost completely paralyzed by the strike. At Ton-y-pandy, South Wales, at midnight the young miners collected and started to sing The Red Flag, etc. The police interfered and stone throwing ensued and windows were smashed.

The eyes of all Britain are centred on the first session of parliament after the winter recess at which the strike will be discussed. All rumors of intervention by other unions in the strike have ceased for the present. The government has received large numbers of offers of volunteer help but the necessity for the enrollment of volunteers has not yet been reached.

The strike is hitting the iron and steel as well as the cotton industries severely. The blast furnaces at Middleborough are already beginning to dampen down. Liverpool and Manchester announce impending suspension of the tramway service. Frank Hodges, representing the miners, publishes minute figures showing that the wages of the miners are not commensurate with the cost of living.

NURSES ENDORSE PROHIBITION MOVE

The following resolution was passed by the Graduate Nurses Association at a recent meeting in Vancouver.

We, as members of the Vancouver Graduate Nurses Association beg to state: While it is difficult to give exact statistics in regard to the decrease of alcoholics, the number of calls for nurses for such cases has decreased at least 75 per cent, also that the improved condition in the home is beyond estimation. We therefore heartily endorse the continuance of the Prohibition Act.

Over 200,000 pounds of fish has been handled during the past two days.

APPROVE COURT HOUSE PLANS

Architect Whittaker Returns to Victoria Today to Get Out Specifications.

The plans for the new court house here have been finally approved and Architect Whittaker, who is here today, is returning to Victoria at once to get out specifications and call for tenders for the building.

A set of plans was recently sent here for those interested to look over and the result was that suggestions were made which have been incorporated in the new set. These are satisfactory. It is understood that they provide more accommodation than was originally provided for.

The Provincial Government is anxious that the new building, which is to be a fine one, will be perfectly modern and suited to the local requirements, hence the delay in getting the work started. Now, however, there is nothing in the way and the contract should be let in a very short time.

WOMEN!

The Prohibition Party boasts. They say "We have the women's vote in our pocket." Is this true? YOU HAVE THE FRANCHISE. YOU ARE FREE. Have you changed social bondage for political bondage? We think not.

8,000 Victoria women asked for the repeal of the Prohibition Act and for a moderate law because they saw the evils which followed the Prohibition Act.

With the facts before you, have you promised the Prohibition Party your vote?

Think for yourself!! Then
