Voice of the People
Has Been Plainly Heard.

The people have decided that they want the Government to dispense liquor without the formality of a doctor's prescription. As we live in a democratic country where the will of the majority is supreme, we shall play the game and wait our turn. We do not believe that in this case the voice of the people is the voice of God, but rather think it the prompting of the Devil. However, the people have spoken and there is nothing to do but submit gracefully. At any rate we can give the new method a good trial. Possibly the prohibitionists were all wrong. If they were we believe they will admit it. If, however, the government sale system proves a failure we shall hope to shut the liquor door tight and nail it up with spikes that cannot be drawn.

Clean Election
Well Fought.

It was a clean election. It was fought in a good spirit. There were no petty animosities. Members of the opposing factions were good friends throughout and will continue to be so. There was no mud slinging or nasty personalities. Both sides conducted a gentlemanly campaign and there is no bad taste in the mouth on the morning after.

That is the way to fight all election campaigns. If we are to develop a democracy we have to learn to take defeat as well as victory. One side has to lose every time.

Arrangements Were
Well Carried Out.

Returning Officer Mortimer is to be congratulated on the manner in which he carried out all the arrangements. Most of the deputy returning officers and poll clerks were returned soldiers and they all did excellent work. Scrutineers were provided by either side but their work was light.

One interesting feature of the election was the success of the new method of checking the personation. Every voter had to sign his or her name in a book and this signature was compared with the original on the application form. While looking these up causes some little delay, there were enough boxes to prevent long delays. The only weak spot was in taking the affidavits of the non-residents. There were a large number of those, so many that it was often difficult to take care of them. However all had an opportunity to vote and the arrangements on the whole were excellent.

The new method of voting was designed by the Provincial Government to avoid the dangers of personation, such as have scandalized past elections. It seems to have been quite effective.

But One Reason
For Opinion Expressed.

Someone asks how we account for the vote that was taken yesterday. The only way to account for it is that the people wanted it that way. There were no unusual reasons. It was a swing of the pendulum and the same pendulum will swing the other way later. It is a matter of action and reaction. This time it is reaction, but thank heaven the action that will follow is likely to be stronger than the reaction. That is the way of the people. Prohibition sentiment was as strong in Prince Rupert as almost anywhere in the province. The few dry spots could be counted on the fingers of one hand and doubtless were due to local influences. Public opinion is undoubtedly for a change of method of control just now.

Present Act in
Force Until Repealed.

At the next session of the Legislature it will be the duty of the Legislature to repeal the Prohibition Act and to put in its place a measure providing for the sale of liquor in Government stores under such restrictions as they may see fit. Until that time the present act remains in force.

Give Today for
The Navy League.

Soon there is to be a campaign on for the Navy League, the organization that is fathering the Boys' Naval Brigade in this city. Everyone should give freely for so worthy an object. We are a seafaring town and can perhaps appreciate better than any other place what the navy means and what it means to us to have a merchant marine. Anything that has to do with the use of the sea as a means of transport should appeal to us. Let us all encourage this organization that is asking for our money.

Began To Take "Fruit-a-tives"

3 OTTAWA ST., HULL, P. Q.
 "For a year, I suffered with Rheumatism, being forced to stay in bed for five months. I tried all kinds of medicine without relief and thought I would never be able to walk again. One day while lying in bed, I read about 'Fruit-a-tives' the great fruit medicine; and it seemed just what I needed, so I decided to try it.
 The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me."

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

The Man in the Moon

SAYS:-

THAT the country is gone wet. Who could expect anything else on a day like yesterday.

THAT, let us sing together—
 We love our nice bottle,
 It keeps us so warm,
 And if you don't touch it
 'Twill do you no harm.

THAT everyone will soon be able to get a sealed package securely wrapped.

THAT thank heaven there will be no more flu now.

THAT it is in order for everyone to talk about the waning influence of the press.

THAT it was bad enough to be beaten, but to lose that bet, Ouch!

THAT owing to the fact that a lot of women read this column, it is impossible to express in suitable language what the Man in the Moon thinks of some people.

THAT the reason for sending poor children to the university is that they may become rich by degrees.

THAT since the price of rubber has dropped the cost of board should go down unless profiteering in steaks continues.

THAT there was a drop in water yesterday and now the boys will get a drop of whiskey.

THAT someone suggests there was a landslide yesterday.

THAT they are wrong. It was a water slide. The water was forced out by the pressure of whiskey behind.

HUNTERS DID NOT
BREAK GAME LAWS

Reginald Beaumont, P. W. Baldwin and Captain Groves returned on the Prince George yesterday morning after having been on a pleasant hunting trip to Union Passage, 100 miles from Lower Inlet and 67 miles from here. Their trip was successful, for they did not break the game laws in the country where the deer come down to the shore in herds and the ducks vie with each other for air space. The hunters did not even get a clam in that muddy zone and came back this morning with tales of wonderful mountain scenery and guns with crooked barrels, but all they got was wet.
