DAILY EDITION.

Monday, October 25, 1920.

Provincial Election Is to be Held.

There is to be another election and naturally one of the first things people will do will be to compare the two parties, their policies, their past records and their leaders. These are the natural things to consider.

The leader of the Government is John Oliver, the former premier, the man of the people, who took over the leadership on the death of the late Mr. Brewster and has guided provincial affairs through the most difficult period of history and has done it successfully. The leader of the opposition is W. J. Bowser, who took over the Government from the late Sir Richard McBride under curious circumstances and ran it to the ground. These are the leaders. There are no others.

In the matter of records, possibly the most essential difference has been in the matter of finance. Under the Bowser regime the financial condition of the province went so low that no one would lend the Government money. Under the Oliver regime the financial condition has steadily recovered until today a good price is obtained for provincial securities and the provincial credit is as high as that of any other province.

In regard to future policy it will be better for Premier Oliver and his associates to speak for themselves. They will doubtless do so within a day or two.

How Will Women Vote at Election?

When W. H. Taft addressed the Canadian Club, he quoted an opinion regarding women in politics to show that they were much the same as men. That is what we think, only better. In many things women have much better judgment than men. They have a sense of intuition that guides them where men blunder. That is why it seems reasonable to think women will vote for John Oliver and the present Government.

Several Candidates Likely in Rupert.

There are likely to be several candidates in this constituency. Undoubtedly Hon. T. D. Pattullo will again be in the field and everything points to his re-election. He will be formally endorsed by the Liberal party of the constituency, unless all signs fail. His good work in the past will recommend him for the future.

Another candidate who has announced himself without the formality of a convention of his supporters is S. M. Newton, leader of the Newtonites. He will use his paper as the lever with which he hopes to pry himself into the legislature. He will doubtless announce his policy in the near future.

Who the Conservative candidate will be is not known. When Mr. Bowser was here he practically gave instructions that a successful business man was to be chosen and sent to Victoria to help him legislate for the successful. It is to be assumed that a convention will be held very soon and a man chosen by the Conservatives, either a successful business man or some other person, just as the convention pleases without reference to the leader of the party. It will be interesting to see on whom the mantle of William Manson will fall.

There is also the possibility of labor candidates being in the field and there may be other self-nominated men and possibly a woman. No one can tell how many may feel themselves called on to help save their country. Several farmers live in the constituency, so there is the possibility of a farmer candidate. The political pot is scarcely simmering yet, but it will boil soon. Developments will be watched with great interest.

U. S. Election Is Next Week.

On Tuesday of next week, November 2, the United States people will decide who is to be the next president. In the meantime the two big parties are striving hard for the mastery. There is little doubt who will win, however. The Republicans are in the ascendancy and Harding, their nominee, is almost sure to be elected. All the appeals of President Wilson and the desire of many people to see the United States join the League of Nations will not save Cox, an estimable man but on the wrong side this time.

FREE OF TERRIBLE KIDNEY TROUBLE

After Three Years of Suffering, "FRUIT-A-TIVES" Brought Relief

MADAME HORMIDAS FOISY

624 Champlain St., Montreal.

"For three years, I was ill and exhausted and I suffered constantly from Kidney Trouble and Liver Disease. My health was miserable and nothing in the way of medicine did me any good. Then I started to use 'Fruit-a-tives' and the effect was remarkable.

I began to improve immediately and this wonderful fruit medicine entirely restored me to health. All the old pains, headaches, indigestion and constipation were relieved and once more I was well.

To all who suffer from Indigestion, Constipation, Rheumatic Pains or great Fatigue, I advise the use of 'Fruit-a-tives'.

Madame HORMIDAS FOISY.

50c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

PRINCE RUPERT TIDES

Monday, October 25

High, 11:4 a.m., 20.4 feet.

Low, 5:38 a.m., 6.3 feet.

18:16 p.m., 4.7 feet.

Tuesday, October 26

High, 0:18 a.m., 19.7 feet.

12:22 p.m., 21.5 feet.

Low, 6:17 a.m., 5.9 feet.

18:54 p.m., 3.4 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours, from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

TIMBER SALE X 2324.

Sealed tenders will be received by the Minister of Lands not later than noon on the 9th day of December, 1920, for the purchase of Licence X 2324, to cut 5,250,000 feet of spruce, cedar and hemlock on an area adjoining Lot 1936, Selwyn Inlet, V.C.B. district.

Two (2) years will be allowed for removal of timber.

Further particulars of the Chief Forester, Victoria, B.C., or District Forester, Prince Rupert, B.C.

PRODUCTION OF GOLD FALLING IN THE STATES

Canada Holds Own According to Operators in the East.

PORCUPINE, Oct. 25.—Gold mine operators in Northern Ontario do not appear to share the views of certain interests in the United States that a bonus on gold is feasible. Yet, through fortune of circumstances, the gold mines of the Province of Ontario are now receiving a premium of more than a million dollars a year on the gold they produce. That this remarkable situation is causing a certain amount of worry in the United States is quite evident, and that the British policy in regard to its fostering of the gold mining industry of Africa is causing considerable envy, is also apparent.

For instance, representative Louis McFadden, Chairman of the Committee of Banking and Currency in the House of Representatives of the United States, and author of a gold bonus bill, asked the pertinent question relative to the gold situation:

"Is the United States to continue to ignore the problem of gold production, thus permitting the British Empire to gain an unquestionable supremacy?"

Mr. McFadden points with alarm to the decline in America's gold output from \$101,000,000 in 1915 to less than \$50,000,000 this year. One of the chief points in the mind of this outstanding advocate of a gold bonus appears to be that it is highly important that the gold mining industry should be kept alive for fear that with greatly reduced production there will be difficulty in retaining the gold standard during a popular campaign for credit restriction, accompanied by declining prices.

As regards the situation in Canada, and more especially the district of Timiskaming in Northern Ontario, it is a noteworthy fact that the gold output is being increased rather than undergoing a decline. The production of the gold from the Porcupine and Kirkland Lake fields alone is equal to nearly one-quarter the total gold output of the United States. Not only this, but with sufficient workmen available this output in Northern Ontario could be quickly increased another fifty per cent and be made equal to more than one-third of the total United States production of this metal.

GIVE UP STARR SEARCH

Heavy Snowfall Ends Immediate Hope of Finding Brother of Local Man

With the return to Seattle late Tuesday of three police officers, all search for William H. Starr, Seattle hunter, missing in the Lake Serene country near Index since a week ago Wednesday, was abandoned, says the Seattle Times. Lieut. George H. Comstock and Patrolmen Harry F. Mull and K. H. Gustafson, who had planned a search of their own for their former friend, returned with the news that two feet of freshly fallen snow blocked any attempt to find Starr's body for the present.

W. H. Starr is the brother of C. E. Starr, manager of the Pacific Fisheries here. Mr. Starr went south on Tuesday evening last.

FEARS RATS AS WELL AS LICE MAY SPREAD DISEASE IN CANADA

REGINA, Oct. 23.—The westward movement of rats involves considerable risk of an epidemic of bubonic plague, in the opinion of Dr. Seymour, Commissioner of Public Health for Saskatchewan. "What might happen," asks Dr. Seymour, "if a million gophers became infected with the disease?" Rats, he pointed out, were already reported half-way between Winnipeg and Regina.

Dr. Seymour also declared medical men were much concerned as to the possibility of an epidemic of typhus being introduced into Canada and America by an infected house, with southern European immigrants as the agency.

Dr. Seymour's alarms were voiced on his return from the annual convention of the American Public Health Association in San Francisco.
