FISH TRAPS FOR ALASKA DISCUSSED

Meeting to be held in Seattle
November 20 to Consider
Question

JUNEAU, Nov. 10.—The whole question of regulations for fish traps in Alaska will be taken up in a hearing to be held in Seattle which is scheduled to begin on Saturday, November 20. This is a continuation or extension of a hearing held here last September by Col. Edward H. Schulz, Corps of Engineers, at which time the matter of whether or not floating traps were a menace to navigation was considered.

Col. Schulz has mailed out notices to all interested parties as follows:

"A public hearing will be held in the Assembly Room of the Chamber of Commerce, Arctic Building, Seattle, Washington, November 20, 1926, at 2 p.m., relative to proposed change in regulations governing fish traps in Alaska. All interested parties are invited to be present.

"At this hearing the whole question of regulations for fish traps in Alaska, both floating and pile driven, will be taken up.

"While for accuracy of record all important facts should be submitted in writing, oral evidence will be heard."

J. D. McAULEY TO MONTREAL

Commercial Agent for G.T.P. Goes to Mercantile Marine Staff

TELLS OF DROP IN GOODS AND WAGES

J. D. McAuley, commercial agent for the G.T.P., arrived here last night from Montreal whither he had been called by the Canadian National officials in connection with the reorganization of the shore staff for the Canadian Merchant Marine. Mr. McAuley is leaving at the end of the month and will be associated with the new service.

Mr. McAuley says that the mercantile marine organization will be a bigger affair than most people imagine. Services are to be established to almost all parts of the world and new routes will be opened up, providing new markets for Canadian goods. For this service the railway officials are picking out mostly single men from different parts of the service, who are particularly suited for the work and who have had experience.

Speaking of conditions in the east, Mr. McAuley says that business is very good in Montreal. The prices are tumbling rapidly and in the factories wages are being reduced to conform with the new conditions. In most cases the men are accepting the change without protests as they know it means shutting down the factories if the wages are not cut. In the west the retailers and others do not seem to have accepted the condition so readily and prices are not being adjusted as rapidly as in the east.

The fishing boat Sitka came in today after a stormy trip with about 20,000 lbs. of fish.

PADEREWSKI NOT NOW PLAYING PIANO

The New York Herald (Paris edition) publishes an interview with M. Paderewski, in which he is reported as saying:

"I shall never touch a piano again. Not only the situation of my country makes me unwilling to continue my career as a public entertainer, even as presenting the highest form of art, but the shock of the repeated misfortunes of my country has so affected my nervous system that I am unable to touch the piano even for private satisfaction.

M. Paderewski expressed the hope that the treatment he was undergoing in Paris would improve his hands enough to permit him to play occasionally for Mme. Paderewski. The piano which had travelled with him for 25 years, he said, was now for sale, being of no further use to him.
