DAILY EDITION.

High Mark in Circulation.

Yesterday the Daily News touched a high mark in the matter of circulation. Our records showed that there were over eighteen hundred papers printed, all of which were circulated through the regular channels. This is the highest we have reached yet, except in the case where an extra edition has been put out for propaganda purposes and a whole edition sold to one purchaser.

Two and a half years ago the Daily News circulation was only a third what it is today. It has been growing steadily until it is more than double that of any other daily paper published north of Vancouver. This is nothing to brag about. The circulation should be larger yet. As the country develops the paper will reach out and include all the new communities.

The chief value of this increased circulation is to the advertiser. The same space in the paper today is worth three times as much to the advertiser as it was two and a half years ago. Not only that, the paper being of live interest has more value from an advertising point of view than it formerly had. On the whole we are well pleased with the progress that has been made, although at times it seemed difficult climbing.

Bringing Land Into Cultivation.

One of the reasons for the recent prosperity of Prince Rupert is the settling up of the land of the interior valleys, especially in the Bulkley and Nechaco. The flurry in those valleys has been caused by the Land Settlement Board, a scheme of the present Government to bring the land under cultivation. Prior to the inauguration of the board the land was held mostly by speculators and at such high prices that settlers could not afford to purchase it. Under the land settlement act a fair price was set on the land and the owner was forced to sell. As a result the owners have formed themselves into colonizers for the purpose of getting rid of the lands which has come to be a burden to them. There was no confiscation but the end was attained by means of pressure brought by the Government department. When someone asks what has this Government done for the north, the first answer should be: "The Government has put in operation the Land Settlement Act, with the result that settlers are invading the country and making it a good place in which to live." This is the most important work of the present Government, so far as the north country is concerned. It righted a wrong without the odium which usually comes from the use of drastic measures.

Determined to Kill Port of Prince Rupert.

The idea is gaining hold on the community here more and more every day that the Meighen Government is determined to kill Prince Rupert. Steadily the pressure is being put on and every day it is felt more keenly. Happily this Government cannot remain in power long. Their days are numbered and with the advent of a new administration we shall look for a change. In the meantime we must hold on tight and look forward to the time that is to be. Even if the immediate outlook is rather blue, there is a better time coming and we must make the best of the condition that has been forced on us, although not without protest.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

Brilliant Babbles
'Bout Babies

From Literary Digest "Topics of the Day."

Babies are a topic of universal appeal. The little chubby creatures with their grimaces and prattle bring joy to the hearts of humanity. We all know how proud parents "rave" about their precocious offspring. On such occasions, we listen with due meekness and a limited degree of patience. But, when these "praise fests" are considered from a humorous angle in the joke columns of newspapers they cultivate laughs. How popular such sayings are with audiences when shown on the motion picture screen in the Literary Digest "Topics of the Day" is well known by readers of the Daily News. If the following "topics" don't make you childish with glee, we miss our guess:

"Don't you think the baby favors father?"

"Humm! Well, he looks like him, but I wouldn't call it a favor."—St. Petersburg Times.

"Your new baby resembles her mother."

"I can't see it."

"Well, watch her a while and see how she keeps her mouth going all the time."—Brooklyn Citizen.

"Does the baby take after his father, Mrs. Jones?"

"Yes, indeed. We took his bottle away from him and the little darling tried to creep down the cellar steps."—The Home Sector.

"That baby of yours am the perfect image of his daddy."

"He sure am. He am a reg'lar carbon copy."—Dallas Morning News.

"My father weighed only four pounds when he was born."

"Good heavens! Did he live?"—Harvard Lampoon.

"Tommy, come and rock the baby for a bit."

"Alright, ma, gimme a rock!"—Nebraska Awgwan.

"A baby born the other day had three well-developed teeth at birth; how quickly the country is responding to the chuekstek campaign."—Philadelphia North American.

"Why don't you go home, Willie? There's a new baby at your house."

"I know, but I ain't goin' 'cause pa blames me for everything."—Toledo Blade.

Found in personal column: "If John Jones, who deserted his wife and babe some twenty years ago, will return, the said babe will knock the stuffing out of him."—Jersey Journal.
