Achievement

DURING its term of office the Oliver Government has, beyond dispute, done more for the enfranchisement of women and the uplift of the child than possibly any other political body on this Continent, and all in the short space of its four years in office. With confidence based upon the knowledge of its having accomplished these things, it once more comes before the electors and in particular, the women electors of the province, asking that on election day, December 1st next, they cast their vote for all Liberal candidates who stand pledged to support and carry out the broad principles of Liberalism now in force, and which will be continued by the Oliver Government when it once again takes its seat as the Government in power a Victoria.

The Oliver Government has given to the women of British Columbia:

Woman's franchise.
The Mothers' Pension Act, one of the most important acts for the benefit of women ever placed on the statute books of the Province.
A minimum wage for girls and women, raising the minimum salary per week from the $4.00 paid in some instances, to $12.75 and over per week.
Equal rights to the mother with the father in the guardianship of minor children.
An amendment and improvement to the law respecting the maintenance of deserted wives.
Provision for the appointment of a superintendent of neglected children.
A new adoption act, providing that a child adopted by a family is given the full legal status of a child born to the foster parents.
A juvenile court to which the first woman judge in British Columbia has been appointed.
A more humane and considerate treatment of the inmates of the Girls' Industrial School and Boys' Industrial School has been inaugurated.
An important amendment to the Marriage Act, placing the mother on equality with the father in the matter of consent to the marriage of a minor child.

The Liberal Administration

has revised and improved educational laws and regulations, giving better opportunities to children in isolated districts to secure an education. Its Health Department has given valuable assistance in the training of rural nurses. It has provided for venereal disease control. It has broadened the course in manual training, domestic science night schools and agricultural teaching. It has provided schools for mentally deficient children, the deaf and dumb. It has established a school for the education of the blind, and a provincial technical school. It has provided for financing the erection of buildings for the University of British Columbia. Its Health Department has given special attention to the work of fighting tuberculosis. The death rate from this disease has dropped from 1.23 per thousand of population in 1917-18 to .82 in 1919-20.
The Oliver Government has more beneficial social and domestic legislation to its credit than has any or all previous governments of British Columbia, and its efforts in this direction will be continued.
