LYNCH SPEAKS AT MASSET ON ISSUES OF DAY

Large Majority Expected from Masset Inlet Points for Pattullo

PORT CLEMENTS, Nov. 29.—W. P. Lynch addressed a large and representative meeting here on Saturday night at which he defined very clearly the financial policy as well as their land and timber policy as compared with that of the former Government. He showed how the former Government had tied everything up and forced merchants into bankruptcy and the people had to leave the Islands. The present Government, on the other hand, led in this respect by the Minister of Lands, had passed legislation, the result of which was shown very plainly in the number of people, industries and business establishments now at this place.

Mr. Lynch also pointed out that the road development policy was being carried out along lines that had for its object the best interests of the residents of the Islands.

Dealing with Socialism, the speaker made it very clear that the only way they could obtain power in this country was by the ballot. They could not by any chance obtain power by any revolutionary methods.

Chairman McTae invited anyone and everyone to speak or to ask questions. As a result everyone had a chance to air his views and the cause of Mr. Pattullo was much benefitted thereby. The more questions and speeches there were, the more clearly it was shown that the interests of the Islands were safe in the hands of a man of integrity and ability like Mr. Pattullo, whom everyone knew, than with a revolutionist, a self-nominated office seeker or the untried and inexperienced young man of the Conservative party.

The general feeling here shows that Mr. Pattullo will receive from this place a large majority.

FAREWELL DANCE FOR COUPLE WHO WILL BE MARRIED IN MORNING

Miss Nellie Hill and Arthur Kenny are Guests of Honor in De Luxe Hall

The farewell party given last evening in the De Luxe hall by Mr. and Mrs. George Hill in honor of their daughter, Miss Nellie Hill, and Arthur C. Kenny, who are to be wedded tomorrow morning, was a most delightful and jolly affair. About 150 persons were in attendance to dance to splendid music supplied by Miss Mabel Adams, Will Edmunds and James N. Kelly. There was a general spirit of hilarity and this was shown by the showers of confetti. The affair concluded with the singing of "They Are Jolly Good Fellows" and "Auld Lang Syne."

Mr. Kenny and Miss Hill will be married at 9:30 tomorrow morning and will leave on the train to take up their residence at Smithers where Mr. Kenny is engaged with the railway company.

The Man in the Moon SAYS--

THAT the number and variety of candidates in almost every district makes the political contest something like an Irish stew.

THAT in spite of the press dispatches received often of late in regard to the drop in price of food and other necessities of life, it is difficult to get people here to believe it.

THAT You may rave and flap your banners And wait on polling day. But you'll have to pay your taxes In the same old way.

THAT there was a man once upon a time who knew what to buy for his friends at Christmas. It was a fairy tale.

THAT there was a girl once upon a time with pretty face, coy demeanor and shapely ankles and she did not know it. It was a fairy tale.

THAT once upon a time there was a politician who knew he was not going to be elected. It was a fairy tale.

THAT once upon a time there was a socialist orator who forgot to berate the newspapers. It was a fairy tale.

THAT Newton says in his own political organ, "Newton is sound timber all the way through." Yes, sound, and that is about all, unless heated air is added.

THAT the funniest thing the people of Prince Rupert have had a chance to read in many a day is the independent candidate giving a certain lecture through his personal political organ on the ethics of journalism. This is not a fairy tale.

THAT "Tell your mammy to vote for Newton" is the latest election cry.

PILE DRIVING THREE WEEKS

Dredge Moved to This Side Today to Start Work of Over-casting.

With the commencement of the driving of piles in about three weeks, actual work of construction on the new ocean dock at this port will commence. The largest pile driver ever used here is now under construction at the waterfront for the work. It is a trip hammer, over-reach driver and is equipped with suitable engines for the work. It will be operated partly from the land. With the starting of the pile driving there will be about 30 or 40 men employed on the work.

The moving of sand from Mc-Nicholl Creek to the dock site is still going on but is yet only about half completed. Good progress is now being made and quite a sand beach is being formed where there was formerly a sheer rock incline into fathoms of water.

One of the dredges was moved to the dock site this morning to start the work of over-casting sand. This over-casting work consists of placing sand to a higher point than is possible in dumping

from the scows. The dredge simply digs it up and drops it higher up.

Liberals are asked to drop into the committee rooms in the Pattullo Block of an evening and see if there is anything they can do to forward the interests of the candidate.
