DAILY EDITION. Wednesday, Dec. 8, 1920.

Are We It or Are We Not?

Are we or are we not a part of the Canadian National Railways and if now when? The Canadian National Railways Magazine comes out without a word about this "branch" and yet here we are unable to help ourselves and have no one to do anything for us.

We are much worse off now than we were before the Canadian National co-ordinated us. We would now like to see them pre-empt us and get us into working order. Poor orphan that we are we sorely need a grandmother or someone to look after us. What with being made into a branch line, with having been kept without fish cars with the usual delays in the matter of improvements and with the inordinate jump in freight rates, Prince Rupert and the other points along the line west of Jasper have certainly been getting the wrong end of things.

Freight Rates Next Week.

Next week the freight rates are to be reconsidered. The railway profiteers, who got them advanced by a servile administration, have found that by jumping them so high they have killed the business which wa skeeping them alive. Now they will allow them to be reduced to a place where they think they will work most profitably, not where they will give the best public service. It seems wrong to have to write thus bitterly of the system, but experience is a teacher whose lessons cannot be misunderstood. Prices of all commodities are dropping and in a very short time the cost of carrying goods and passengers must fall with all other classes of service, public or private. This was the time of all others when it was unwise to push up the price of transportation as was done a few months ago.

Hurry Proceedings in Connection With Shipyard.

Now that liquidation proceedings are well under way in the case of the drydock and shipyard, and that the Government has taken control of the yard, exercising their right to proceed with the building of the ships, it is to be hoped that there will not be any long drawn out proceedings, but that, in the interests of this port, action will be taken immediately and the work recommenced. The ships have to be built and the condition of the country demands that work be provided for the unemployed wherever possible.

Co-operative Selling Socialistic Step.

On the prairies, the farmers are proposing a big scheme through the Government of co-operatively disposing of their grain. Wheat is something that can be graded and sold from sample. It is a product that has a standard value, yet even so, growers are often imposed on by unscrupulous buyers and efforts are made to beat down prices for the purpose of securing undue profits. To prevent this, the farmers are proposing to pool their grain and sell it all through one agency, that of the government, and each farmer would then get the same price for his product. It is the one price system carried to its ultimate conclusion.

It is possible that in other lines of endeavor, this system would not succeed. Co-operative stores are often unsuccessful, largely because it is difficult to set a standard price. The farmer with poor quality beef, badly prepared for market, wants as much for his product as for high class goods. There are always attempts to impose on the co-operative buyers and if unsuccessful the seller markets his goods elsewhere.

A similar fate has awaited most of the co-operative purchasing organizations. Many co-operative grocery stores have started with a great flourish but in most cases they have eventually developed into private concerns and done business just like their competitors.

POLICE REPORT FOR NOVEMBER

Many Were in Jail But Revenue Was Not Very Large—Board Bill Big.

There were 93 cases in the police court during the month of November, according to the report of Chief Vickers submitted to the police commission at the regular meeting yesterday afternoon. Of these 93 cases there were 83 convictions. Classification shows 48 drunks, 8 breaches of the Prohibition Act, 4 cases of theft, 2 breaking and entering, 6 vagrancy, 5 jail breaking, one forgery, and one wife desertion. There was a total of $1,384 collected in fines.

The wife desertion case is not strictly speaking such but a warrant was issued to aid in the possible apprehending of J. H. Oliver whom it is believed was drowned during the summer. He was to have returned here to his wife and family from Claxton cannery and the last known of him wak when he set forth in a row boat. Since that time nothing has been heard or seen of him. The city has aided in assistance to the family and now Mrs. Oliver is receiving $65 a month pension under the Wives' Desertion Act.

Coal and bread weights were examined during the month and were found to be correct.

The payroll for the police force in the month was $1,561.50 and the supply bills were much larger. This is on account of the large numbers who were in jail during the month. The meat bill was $48, bread, $70, and groceries, $50.75.

There will only be one more meeting of the present police commission.

Bad Boys of Ontario Do Lot of Very Useful Work.

TORONTO, Dec. 8.—The agricultural work at the Victoria Industrial School, Mimico, has met with great success, as is shown by a summary of the season's crops, which was read by Chester Ferrier, the principal, to the meeting of the Industrial Schools Board at the city hall yesterday afternoon.

The farm output of the school is: 1,050 bags of potatoes, an average of 300 bushels to the acre; 115 tons of mangels, 80 tons of turnips, 150 tons of corn, for ensilage; 18 tons of hay, 400 bushels of tomatoes, 1,900 early cabbages, 3,600 late cabbages, 499 red cabbages, 300 bushels of onions, 44 bags of beets and 79 bags of carrots.

All this was raised by means of intensive farming, and the report does not give the figures of quantities of earlier products such as lettuce, peas, cucumbers, etc.
