Future Warrants Optimism.

In spite of the little setbacks we have been having, there is no need to be despondent in regard to the future of Prince Rupert. There is a temporary dull time, which we shall feel for some months, but if we can worry the railway company into giving us plenty of fish cars all the time and if the Railway Commission gives us a railway rate that will enable the carrying of lumber to be a possibility, there should be no difficulty in making a quick recovery.

Fish and lumber and minerals are our natural assets and no one can take them away from us. The great thing is to see that they are properly developed and that this port becomes a distributing base.

There are problems for the people of Prince Rupert to solve in the near future which will have a bearing on the business here. One of these is the transportation. The logical step would be for the railway company to put on a suitable steamer or gas boat that would ply in and out of Prince Rupert to and from the various camps and ports of the north coast. This will tend to centre business here.

If the railway company fails in this respect, a private company might be formed to undertake the work. The difficulty is that a private concern has no through freight to handle. To that extent they are handicapped. Unless they could secure a working agreement with the railway company to handle their business, it would be little use trying to operate. This is to be a Canadian National port and the natural thing would be for the Canadian National Railway to build a suitable boat in the local yards to handle the business out of this port.

Kitimat to be New Port of Call.

Kitimat is to have a pulp mill in the near future and in all probability work on it will commence in the spring. That means a big lot of business going to that point. It means that many steamers will call there and we shall have one more shipping point in the neighborhood. It is one more reason for the establishment of a small boat service in and out of this port. During construction days it is even more important than after the concern gets going.

Island People Complain Bitterly.

The people of Queen Charlotte Islands complain bitterly that they have no better service today than they had ten years ago. It is expected, however, that this complaint will not be made long. Just now there are developments going on at the Islands which will bring them into the line of development. There is to be a pulp mill at Buckley Bay, and there are all sorts of other developments in prospect. The road is to be built connecting the north with the south and throughout the islands there is renewed interest being taken in oil possibilities.

In addition there are mines on the west coast which look well. With these possibilities and with the development of the fisheries, the islands should be in a position to demand a first rate boat service, and undoubtedly they will get it. The service must pay, and if there are developments going on, there will be no difficulty about making boat services profitable.

Too Early to Talk Locally.

In regard to nearby developments it is too early to say anything. It is enough to suggest that something will be heard very soon, unless all signs fail. There are big waterpowers nearby which cannot be ignored in the general development of the coast, and from these Prince Rupert is likely to benefit. Anything we can do to induce the development of Falls River would be effort well spent. With a pulp mill at or near Port Essington, and factories at Port Edward, there would be more business doing at Prince Rupert.

RHEUMATISM FOR OVER 16 YEARS

No Return Of The Trouble Since Taking "Fruit-a-tives"

103 CHURCH ST., MONTREAL.

"I was a great sufferer from Rheumatism for over 16 years. I consulted specialists; took medicine; used lotions; but nothing did me good.

Then I began to use "Fruit-a-tives", and in 15 days the pain was easier and the Rheumatism much better. Gradually, "Fruit-a-tives" overcame my Rheumatism; and now, for five years, I have had no return of the trouble. I cordially recommend this fruit medicine to all sufferers."

Wednesday, December 15.

High, 4:35 a.m., 18.6 feet.

16:13 p.m., 18.5 feet.

Low, 10:24 a.m., 9.4 feet.

22:41 p.m., 5.8 feet.

The time used is Pacific Standard, for the 120th Meridian west. It is counted from 0 to 24 hours from midnight to midnight.

The table given is for Port Simpson but the time for Prince Rupert varies only a few minutes on some days and on others is the same. The range of the tide may be computed as 5 per cent greater at Prince Rupert than at Port Simpson both at springs and neaps. Therefore the rise in the Prince Rupert harbor is slightly greater than Port Simpson.

The height is in feet and tenths of feet above the average level of lower low water.

CHRISTMAS CLOSING OF MISS MERCER'S BORDEN ST. PUPILS

Great Preparations for Entertainment in Hotel Central Dining-room

Great preparations are under way for the entertainment to be given Thursday night in the Hotel Central diningroom by the pupils of Division 14 of Borden Street School in charge of Miss A. M. Mercer, and with the valuable help of Mrs. J. M. Fraser, who is accompanist. The room has been loaned for the occasion by Mr. and Mrs. P. Black and the proceeds go to the Christmas cheer fund of the Elks.

The kiddies who are to entertain their friends and the public range from nine to twelve years of age, and those who have seen them say they do some wonderfully clever work. There are dances, dialogues, Christmas carols, recitations, drills and songs, both boys and girls taking part.

The class is taught in the old O.B.U. Hall, but in spite of the adverse conditions they have been trained so that they may be expected to give a good account of themselves.

The Man in the Moon SAYS:-

THAT among the things it is better not to do is to give the family bootlegger a copy of the ten commandments.

THAT H. G. Wells says Lenin looks like Arthur Balfour. That probably accounts for the plebeian taste of the latter in officiating at the wedding of Sir George Foster.

THAT among those in town who are always trying to start something may be mentioned the local chauffeurs.

THAT many will today remember their friends who formerly worked at the shipyard. It will be possible even to have a nip together since the price has arrived.

THAT it is rumored around town the Independent Political Association is open to receive applications for the position of mayor which it is said to hold in its mitt. Intending applicants should prepare their credentials carefully and submit them suitably engraved to the president or secretary any evening this week.

THAT officials from the Liberal or Conservative associations are particularly invited.

THAT representatives of the newspapers will receive preference, particularly the Daily News.

THAT in view of the possibility of the editor of the Daily News being chosen to uphold the sacred cause of independence, it is understood he is preparing to offer the association the use of a room for headquarters.
