Treatment Which Breaks Up Bad Cases in 24 Hours.

Never nurse a cold, not even for a single hour. The sooner it is broken up the better for your general health, let alone your comfort. Start treatment as soon as the first symptoms—sore throat, feverishness, pain in the muscles, etc.—appear.

Grip-Fix will break up a bad cold in a night. It comes in capsule form, which gives prompt results and is also convenient for handy use. It contains nothing but the very drugs your physician might prescribe. They are plainly printed on every box. Ask your physician about them if you want to.

Another Epidemic of the Spanish Influenza

A great many authorities have predicted a return of that terrible plague which swept Canada from one end to the other not long ago and left so many deaths in its wake, and those who did survive were left in a great many cases with some serious after effect such as weak heart, scattered nerves, impoverished blood and a general weakened and exhausted condition of the system.

If you are run down, heart not just right, nerves a little shaky, take a few boxes of Milburn's Heart and Nerve Pills and fortify your system against this terrible plague.

If you had the "Flu" before and it left you with any bad after effect Milburn's Heart and Nerve Pills will bring you back to health and strength.
Mrs. C. C. Palmer, Koppel, Sask., writes: "I wish to inform you of the great good Milburn's Heart and Nerve Pills did for me. After a bad attack of the Spanish influenza my heart and nerves were left in a very bad condition. I got two boxes of your pills and must say they are the best I ever used, and I have taken a great many different kinds. I will always keep Heart and Nerve Pills in the house."
