**The Man in the Moon
SAYS:-**

That Mexico is probably the only country where Carpentier and Dempsey would be allowed to pull off a 45-round boxing match.

That something will break before the end of the 45th round.

That \$400,000 ought to make it a fight worth seeing.

That hostilities will probably cease all over Mexico to allow both constitutionalists and revolutionists to witness the scrap.

That the ships to be launched from the Prince Rupert shipbuilding yards ought to slide down the ways under their own steam.

That many people are beginning to wonder who the lady will be to be chosen for the christening ceremony.

That she will have a name to go down to posterity.

That it was the "Chilliwick" that nearly turned turtle, but due to the gallant efforts of her skipper and crew, she was saved.

That that was the probable cause of the waterfront rumour that the "Albert" had turned over.

That the "Albert" is safe and sound still and steaming north.

**PERRY AFTER
SCHOOL BOARD**

Says That the City Council is Disregarded in Plans—Ald. Kirkpatrick Replies.

Alderman Perry took the opportunity at last night's council meeting of questioning Ald. Kirkpatrick, who also belongs to the School Board, as to developments in the new school question.

The first question was how the work was being proceeded with without money. Alderman Kirkpatrick explained that the bank had expressed its willingness to carry the work over with local funds until the debentures had been disposed of. This had been arranged for.

Alderman Perry then asked how it was that the City Council had never seen the plans of the new building. In his opinion this thing had been railroaded from start to finish and it was still being railroaded. It did not look good to him. As far as the School Board was concerned the Council could "go to blazes." In large expenditures such as this the Council should be referred to in making plans and not only when something was wanted. This ignoring of the council was a breach of courtesy and propriety.

Alderman Kirkpatrick referred Alderman Perry to School Law which gave the authority of school boards. Reference to the council was not necessary and the School Board was not railroad things. They were simply trying to rush the building of the new school. Already the accommodation of school children in the city was becoming critical. Temporary quarters being used were unsatisfactory and the sooner the new school was completed the better it would be in the interests of the education of the children and the public as a whole.

**ELEVENTH AVENUE
GETS TELEPHONES**

But Street Lighting is Too Expensive for the Present Population.

The report from the Public Works Committee regarding the connection of Eleventh Ave. E. with telephones and street lights was read and adopted at last night's council meeting.

The report provides for the connection of Eleventh Ave. with telephones from the Eighth Ave. line near the Seal Cove school. The matter of street lighting was found to be more expensive than the population would warrant, so it was not acted upon.

**K. P. CHILDREN HAVE
A GORGEOUS TIME**

There were great doings in the K. or P. Hall last evening when the children of the Knights were entertained. There were about sixty young ones present and they had a perfectly gorgeous time. In one corner of the hall there was a large Christmas tree gaily decorated, sparkling with light points, and laden with presents. A big table running the whole length of the hall, provided seating accommodation for all at supper time and an abundance of the things beloved by the youngsters. The evening was spent with games and various entertainments and the joy was complete when Santa Claus appeared, having lingered here since Christmas for this special occasion.

The arrangements for handling the children were splendidly carried out by Mrs. George Leek and the ladies committee.

**CITY ENGINEER
WANTS LUMBER**

For immediate needs on the city streets, 42,000 feet of lumber is required and the city engineer, requested at last night's council meeting that this be purchased at once. It was brought out that no more cheap lumber can be brought from Lakelse so the letter was referred to the Board of Works with power to act. The requisition for lumber is divided as follows:

Immanuel Street connection, 14,000.
Single Decking, 10,000.
Seventh Ave. and Bowser, 18,000.

THE BREATHEABLE REMEDY

ALWAYS keep a box of Peps on hand, and immediately you feel a tickling in your throat and want to cough, put a Peps tablet in your mouth.

The medicinal fumes given off by the dissolving Peps mingle with the air you breathe, and like the Pine Forest air of Switzerland, reach every nook and corner of the throat and lungs, where the danger lies.

Peps bathes the breathing tubes with a germ-destroying vapor, which is a sure safeguard against infectious coughs and colds. When a Peps tablet is in the mouth every breath taken strengthens your defence against throat and chest troubles.

WATER NOTICE

(Use and Storage).

TAKE NOTICE that North American Timber Holding Company, whose address is in care of M. C. Lawlor, Dominion Building, Vancouver, B. C., will apply for a licence to take and use 200 cubic feet per second and to store 50,000 acre feet per annum of water out of Mosquito Lake, Moresby Island, also known as the west arm, Cumsheewa Inlet, which flows into Mosquito Lake, and drains into west arm of Cumsheewa Inlet at its head. The storage dam will be located at the southeast extremity of Mosquito Lake. The capacity of the reservoir to be created is about 25,000 acre feet and it will flood about 500 acres of land. The water will be diverted from the lake at a point about the southeast extremity of Mosquito Lake and will be used for power purposes upon the land described as Lot 318, Queen Charlotte Islands District. This notice is posted on the ground on the 4th day of December, 1919. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914" will be filed in the office of the Water Recorder at Prince Rupert, B. C. Objections to the application may be filed with the said Water Recorder or with the Controller of Water Rights, Parliament Buildings, Victoria, B. C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is January 6, 1920.
