CITY SHOULD PROVIDE FOR OWN LIBRARY

Travelling Library Superintendent Tells of Scope of Work of His Department.

VICTORIA, Jan. 5.—In an interview with Herbert Killam, superintendent of Travelling Libraries, in regard to the ground being covered by the Government in the Prince Rupert District, that official said that the purpose of the travelling library was to serve unorganized and sparsely settled communities. As soon as a place was organized as a municipality it was expected to provide for itself. He thought that every city or municipality should set aside a sum of money each year for library purposes.

As secretary of the Public Library Commission Mr. Kellam is much interested in the co-operative plan being tried out in different parts of the province. He was rather surprised to find that Prince Rupert was the centre of such a large number of important industrial communities and he thought there certainly should be a library centre at that point. He advised the formation of a public library at Prince Rupert under civic auspices with a trained librarian in charge and that the city library should then reach out and cater to the outside districts, much as they are doing in Victoria, where Nanaimo, Duncan and Alberni are already taking advantage of the plan.

S. J. Willis, the new superintendent of education, said that in the case of school libraries the Government would contribute \$50 for the purchase of new books, if the school board voted one hundred dollars. If used in a public library this would have to be in a special school section.

HOME TREATMENT FOR BAD COLDS

A Method Which Promises Relief in a Single Night

Colds probably cause more trouble than any other single ailment. They also probably lead to more serious forms of disease than any other common complaint to which human beings are subject. The secret in overcoming a cold is getting at it in its early stages. Here home treatment is effective, whereas if it is allowed to develop so that the bronchial tubes or lungs are affected, it is advisable to summon medical aid.

For home treatment of colds and grippe there is no remedy equaling Grip Fix for prompt results. It is a compound of Quinine, Salol, Caffein Citrate, Cascara and Camphor Monobromate. This treatment for colds is invariably advised by physicians as not only prompt in action but also leaving no after effects to be overcome. The action keeps the system open, checks the fever, always the pain in the muscles, opens up the head and tones up every organ of the system.

Grip Fix is taken according to directions—two capsules every 2 hours for 6 hours and one capsule thereafter, the sufferer gets relief from even a bad cold in a night, while 48 hours is usually sufficient for grippe. When buying it be sure to get Reid's Grip Fix with the ingredients noted on the box, as there is no substitute which approaches it. On sale at 35 cents per box at all druggists.

How to Foil Wind and Weather on Washday

From now until spring a battle that endangers health must on washday be waged with rain and sleet.

That, or drying the washing in the cellar or attic, with its attendant inconvenience and sour smells.

Of course we can not order weather to our fancy, but if you would laugh at mud and water, save your health and keep your hands and face free from chapping and roughness, telephone us.

Next, bundle up your family washing and have our driver call for it.

In our laundry your things are initialed where the mark never shows. Everything is sorted, too—table linen is washed only with table linen, hosiery with hosiery. There is no indiscriminate mixing. And it is laundered in fleecy suds of silky softness.

The weather, and the hardship of fall and winter washing need never be a source of worry. Use your telephone and let us help you.
