DAILY EDITION.

Wednesday, Jan. 7, 1920.

When All Employes Become Shareholders.

The experiment which the workmen employed in the Cholberg shipbuilding yard at Victoria are embarking on will be watched with interest throughout the Dominion. It looks as if the way has been found at last to bridge the supposed gulf existing between capital and labor. And this will be by the workmen becoming capitalists, inasmuch as they will each own shares in the Re Application No. 10493-I. File 6072. company with which they are employed. The workmen themselves agreed that only shareholders would be employed and that bins, deceased, intestate, as owner in fee Bay, Wales Island and Naas River. the ordinary trade unions would not be recognized in the Chol- lector of the City of Prince Rupert, bear Sundays 11 p. m. berg yard. In this instance the union is composed of the share- of ALL AND SINGULAR that certain parcel holders of the company. The employes are the capitalists running and being in the City of Prince Rupert, From Pt. Simpson, Arrandale, Mili the business, and they are employed by themselves. The capital- more particularly known and described as Bay, Wales Island and Naas River. ists get the profits and the workmen the wages. In the Cholberg eight (8), Map 923, and Lot thirty-one Company, they are the same people and they will get both wages (31), Block thirty-four (34), Section (8), Map 923. You are required to and profits, if any. Capitalists, as a class distinct from the work-

Everyone Else is

A Capitalist Too. It is most misleading sometimes the way in which some of the demagogues talk of capital and labor as distinct entities. As if the capitalist never labors, and as if the laborer never has any capital. As a matter of fact, some of the hardest working men are they who control money, known as capitalists, and to them the eight-hour day does not apply either. And at the same time, the man who only owns ten cents is a capitalist-to the extent of ten cents, of course. With that dime he can purchase ten cents worth of some other person's labor. And the difference between him and the man who owns ten million dollars is only one of degree.

men in the company's employ, do not exist for them.

The Nationalisation of The B. C. Fisheries.

The suggestion made to the Dominion by the Hon. Mr. Sloan, member of the provincial cabinet, that the salmon fishing ought of October, 1916 (the date on which the to be taken over and operated by the government is an extension said lands were sold for overdue taxes) of the idea of government ownership into a new field. If the er thereof. Dominion government cannot see its way to do so, Mr. Sloan proposes that the provincial government ought to be permitted pursuance of such application and issue so to do. If this is the only means left whereby the salmon fisheries can be conserved, then this course will have to be ministrator unless you take and prosecute adopted. The depletion of the salmon fisheries on the Fraser claim, if any, to the said lands, or to pre-River is one example of what has happened under existing conditions. And a similar state of affairs no one would like to see Prince Rupert, B. C., this 21st day of No on the Skeena.

Government Ownership Has Good Points-and Bad.

In theory, government ownership is a fine thing. Eventually many are convinced that it will be the final outcome of our present state of civilisation, in which at present, the race is to the Re swift and the battle to the strong-sometimes; although time made to register Attillio Dominato and chance have always to be reckoned with, too. In practice, Prince Rupert, B. C., P. O. box 68, as owner in fee under a Tax Sale Deed from many are convinced that it is not a fine thing at all; that it does the Collector of the City of Prince Ruper · not give the results; that it stifles individual enterprise, and tha up till now public opinion has not been tender enough to be or tract of land and premises situate. hurt by the abuse of the opportunities which it affords to the more particularly known and described as unscrupulous. That is as may be. But if the theory were worked Section Five (5), (Map 923. out with common honesty and strict business principles applied to its practice, there is no reason why government ownership of the date of the service of this notice 1919. any industry should not be successful as any other business the Daily News, Prince Rupert, B. C.,) and monopoly. And of these latter there are many examples.

Years Of Suffering Ended By "Fruit-a-tives"

112 HAZEN ST., ST. JOHN, N. B. "It is with pleasure that I write to tell you of the great benefit I received from the use of your medicine "Fruit-a-tives", made from fruit juices. I was a great sufferer for many years from Nervous Headaches and Constipation. I tried everything, consulted doctors; but nothing seemed to help me until I tried "Fruit-a-tives".

After taking several boxes, I was completely relieved of these troubles and have been unusually well ever since". Miss ANNIE WARD.
