Defensive Alliance Against Bolsheviki

Representatives Meet at Helsingfors; Important Conference of Allies at Paris Discusses Policy Regarding Soviet Russia.

(Special to The News via G. T. P. Telegraphs.)

LONDON, January 16.—Representatives of Estonia, Latvia, Lithuania and Poland are at Helsingfors to arrange for a defensive alliance against the Soviet Government of Russia.

Bolshevik successes are occasioning serious alarm and an important conference is to be held in Paris on military and naval matters. Several of the British ministers are in attendance as well as Baron Beatty, commander of the Grand Fleet, and Field Marshal Sir Henry Wilson, chief of the imperial staff.

There is no intimation as to what action the powers will take but it is understood that either they will deal diplomatically with the Russian Soviet or will organize a military campaign against them. The consensus of opinion favors diplomacy, especially in view of recent utterances of David Lloyd George, Prime Minister of Great Britain.

POWERS ASK EXTRADITION OF EX-KAISER

Note Sent to Government of Holland
by Supreme Council
of Allies.

(Special via G. T. P. Telegraphs.)

PARIS, Jan. 16.—The Supreme Council has despatched a note to the Dutch Government asking for the extradition of the former German Emperor. The note will probably be received on Saturday and will come before the Dutch Government at an early date.

It seems likely that no immediate reply will be received as the Government of Holland will give the matter consideration before sending a reply and will carefully state their reasons either for refusing the request or for allowing the deportation of the former monarch.

Wilhelm is still at Amerongen, Holland, whither he fled to take refuge with Count Bentinck, when the German outbreak took place which resulted in the downfall of the German army with consequent capitulation. All sorts of fantastic tales are sent out in regard to him. One is that he has occupied himself in chopping wood, this in spite of the fact that he has a withered arm. Another story says he is crazy, and yet another that he is a worn out, broken down old man. All these stories seem to have been sent with the idea of securing sympathy for the former Kaiser.

GRANBY FINANCES

It is expected that some new financing will be undertaken in the near future by Granby Consolidated Mining, Smelting & Power Co., says the Financial Post. Neither the amount nor form has been definitely decided, but it will probably consist of about \$2,500,000 debentures.

MCDONNELL IS FINED \$100

Pleads Guilty to Having Liquor
Illegally in Possession—
First Offence.

MUCH GOOD PRESCRIPTION
LIQUOR WAS CONFISCATED

R. J. McDonnell, the Hyder hotel man, appeared before Magistrate McMordie in the Police Court this morning and pled guilty to the charge of having liquor in his possession in other than a private dwelling without lawful excuse and was fined \$100. The loss of the 123 bottles of assorted liquor found in McDonnell's room in the hotel will however, prove the hardest punishment as it's value was well on to \$500 and was good liquor and hard to replace.

General regret and disappointment will be the unhappy condition in the homes of many of Stewart's and Hyder's households now that the bringer of great joy has been waylaid and his precious stock of "gloom dispenser" confiscated.

CLEMENCEAU ACCEPTS FRENCH NOMINATION FOR THE PRESIDENCY

(Special via G. T. P. Telegraphs.)

PARIS, Jan. 16.—Premier Clemenceau has formally accepted the nomination for the presidency of the French Republic. He will be elected by the French Parliament.

RUSSIAN SOPRANO SINGER ARRESTED

(Special via G. T. P. Telegraphs.)

CHICAGO, Jan. 16.—Mlle. Elvina Amazar, the beautiful Russian soprano, who secured the arrest of Geo. Baklanoff, baritone of the Chicago Opera Company, on a deportation warrant, charging him with being an undesirable citizen, is herself in custody.

Immigration Inspector Landis admitted today that the young woman had been arrested on a similar warrant, signed by Secretary of Labor Wilson.

She accused Baklanoff of bringing her to America five years ago, although he had a wife and several children in Russia.

AUTO THIEVES MOCK THE TORONTO POLICE

Attempt to Steal Car Used in
Chasing Bandits in
Holy City.

(Special via G. T. P. Telegraphs.)

TORONTO, Jan. 16.—Adding insult to injury, auto thieves in this city made an attempt to steal the police automobile, but failed owing to something going wrong with the ignition.

The thieves found the car standing near a downtown store with the steering wheel locked to the controls with a chain and padlock. They broke the chain and started the car but doing so injured the ignition system and the car had to be left near the City Hall.

Local Member Reviews Business and Industrial Situation in Province

The necessity of team work between the people and the Government in order to develop the vast resources of Northern British Columbia was emphasized in an interview given by Hon. T. D. Pattullo to a Daily News representative in Victoria a few days ago. The member for this district said:

"It is gratifying to know that the outlook for 1920 is so favorable.

"During the year 1919 there was no excuse for any one in British Columbia being out of work, at all events during the working season. If there were any idle men in Vancouver and

Vancouver and Victoria, it was because they did not choose to leave those cities, as there was plenty of work all over the province. There is always a between season in British Columbia, by reason of the shutting down of work in the late fall, but even today there are certain classes of work in which it is difficult to secure labor to carry it on.

Future Promising.

"We are now upon a development basis in British Columbia and the future is most promising. In this bright outlook no part of British Columbia shares more largely than Northern British Columbia.

"There is a very keen and wide interest in mining development at the present time, and the coming summer will be particularly active.

"The timber business generally is in a healthy condition and there is far more timber activity in the North than many people

were led to expect. The logging industry is now in a healthy condition and there is far more timber activity in the North than many people were led to expect. The logging industry is now in a healthy condition and there is far more timber activity in the North than many people were led to expect.

RIOT AMONG NAVAL FORCES AND TROOPS

Insufficient Bread Supplies at
Toulon, France, Precipitates
Mutiny.

(Special via G. T. P. Telegraphs.)

LONDON, Jan. 16.—A wireless despatch from Berlin says that riots and mutinies have broken out among the French naval forces and troops at Toulon, the naval and military port of France on the Mediterranean. Food shortage was the cause of the trouble, the men having received insufficient bread supplies, caused by the general shortage in France.

OPERATIONS ARE SAME AS USUAL

Work Still Going on Steadily at
Drydock Although Snow
Interfered.

The work on ship repairing and building is going on steadily. This morning some of the men could not go to work in the ship sheds on account of the fall of snow having interfered and made the handling of the plates inconvenient.

The plant is under the temporary control of Newman Erb, represented on the ground by J. H. Pillsbury, until next Wednesday, January 21, when Erb's injunction will be either ratified or thrown out in the chambers sitting to be held before Mr. Justice Murphy on that date in Vancouver or Victoria.

Mr. Erb returned to Vancouver last night en route to New York. While here he expressed his confidence that a finding would be found favorable to him. The other side of the story is yet to be heard.

Captain Moorehouse, master of the Prince John, which is undergoing repairs at the drydock, left for Vancouver on the Prince George last night.

Inspector Patterson of the education department arrived home last night from an official visit to Telkwa.

PETER POLSON IS ASSAULT VICTIM

Man Known as "Old Dad" at
Smithers Beaten up by
Footpad.

Peter Polson, better known around Smithers as "Old Dad," was badly beaten up on Friday night when on his way to his cabin about midnight. He has been in the habit of flourishing his wad and in this way seems to have excited the cupidity of some footpad. He is supposed to be rich.

The cries of the injured man for help were heard by O. J. Benson, but on his arrival on the scene the robber had departed. Twenty-four stitches were needed to close the ugly wound made by the cowardly assailant.

Mayor McClymont Is Again Elected

Four Members of City Council Returned; Myhill Jones is Police Commissioner; Bridge and Sewer Bylaws Passed And Telephone Defeated.

Thomas McClymont has been elected for a third term as Mayor of Prince Rupert, an honor that he shares with his chief opponent at this election. While his majority was considerably reduced, yet a substantial number of citizens showed that they had confidence in him to carry on the affairs of the municipality. By virtue of his office he remains chairman of the Police Commission.

Taken on the whole the election was a clean one and little ill feeling was engendered. Mr. Newton made a good running and had he been the only one in the field except the mayor, there is a possibility that the result might have been different.

The only lady member was defeated this year, but as she holds two public offices in the city, that of member of the school board and the hospital board, her services are still retained to that extent in the public affairs of the municipality.

Alderman McLennan is a member of the school and hospital boards and he formerly was a city official, and is well known.

Alderman Murray, who is new to public life, is an old time Prince Rupert resident and he should make an efficient worker, as he certainly recognizes the needs of the city and has practical ability.

The new police commissioner is also new to public life. He is president of the Sons of England, and because the former commissioner was head of the St. Andrew's Society, the contest was looked on by some as being of an international character. As Mr. Jones was the choice of those who polled in the "Mac" box, this could not have had much influence. The result was a surprise to many.

The fate of the bylaws was doubtful from the first. The passing of the bridge bylaw makes possible the connecting of Section 2 with the rest of the city by means of a suitable structure, to which the rest of the city by means of a suitable structure, to which the Provincial Government will contribute one-third of the cost. The people did not consider the telephone building necessary and refused to sanction borrowing for repairing the old sewer. It will be for the council to find ways and means for carrying on these utilities.
